1948 SEED & NURSERY BOOK and SPRING CATALOG

WANETA
Prof. Hansen's masterpiece. Tender, sweet, juicy. The old favorite.

THE THREE BEST PLUMS

All You Can Eat Collection

Here are the 3 best plums at the best bargain. Big 3 to 6 ft. trees, the kind that are ready to go the minute you put them in the ground.

1 OPATA—1 SAPA—1 WANETA
All 3 big 3 to 6 ft. trees only \$4.29
AN244X EXP. not prepaid.

FREE GIFT: One 2 to 3 ft. Hansen Bush Cherry

SAPA
The rich black, sweet plum that bears such immense quantities of fruit, often first year after planting.

OPATA
The extra hardy plum, earliest of famous Hansen varieties. Green, juicy, tangy flesh. Medium size.

Hailstone

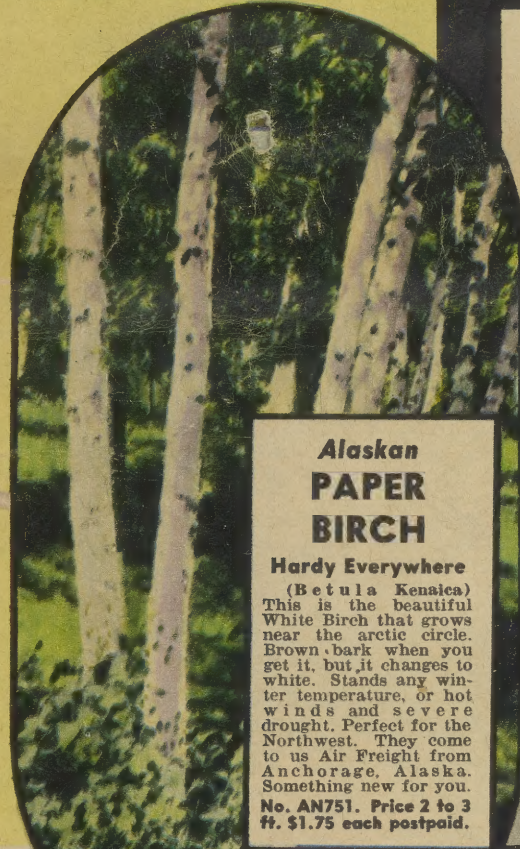

Cavalier

NEW RADISHES

Early white globe radish. Exceptionally mild, crisp and tender. Superior over red varieties in nutrients and low fiber content. No. 436. Pkt. 15c postpaid.

A real taste treat. Oblong, globe shape, bright scarlet, firm white flesh. Ready to eat in about 3 weeks. No. 435. Pkt. 15c postpaid.

COLLECTION 400X—1 Pkt. of each for 19c postpaid.

Alaskan PAPER BIRCH

Hardy Everywhere

(Betula Kenaica)
This is the beautiful White Birch that grows near the arctic circle. Brown bark when you get it, but it changes to white. Stands any winter temperature, or hot winds and severe drought. Perfect for the Northwest. They come to us Air Freight from Anchorage, Alaska. Something new for you. No. AN751. Price 2 to 3 ft. \$1.75 each postpaid.

"They Bloom Outdoors Like They Do in the Greenhouse"

Gurney's Hardy CARNATIONS

Your garden needs the bright colors and delightful fragrance of these hardy carnations. Lovely as greenhouse varieties and hardy year after year.

PLANT PRICES: BN187 Double Pink; BN188 Double Scarlet; BN189 Double Yellow; BN197 Double White—3 for 89c; 2 for 65c; 39c each postpaid. BN492X COLLECTION—1 of each four, only 98c postpaid.

SEED PRICES: 1085 White, 1086 Pink, 1087 Red, 1088 Yellow, 1089 Mixed. PKT. 15c each postpaid. COLLECTION 2800X: All 5 packets only 49c.

GIANT LATHAM

Best of RED RASPBERRIES

Regardless of where you live, this raspberry is good, for it does well north, south, east and west. Many berries 1 in. long. Vigorous grower. Big crops. AN320 PRICES: 6 for \$1.19; 12 for \$1.98; 25 for \$3.75; 50 for \$6.98; 100 for \$12.98. All Postpaid.

GURNEY'S HARDY MONTMORENCY

CHERRIES

New Early-Bearing Montmorency

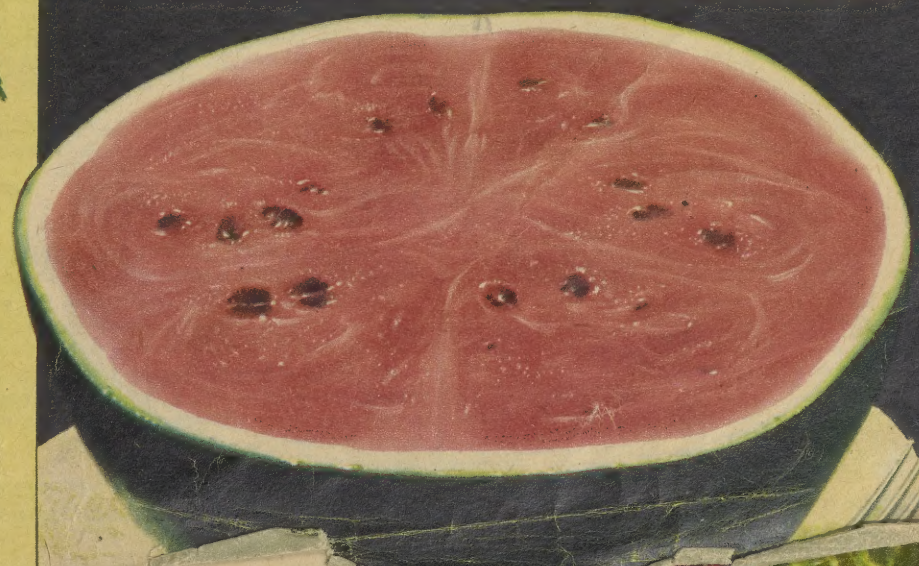

Early—often bears 1st year. Low growing—only 10 to 12 ft. tall, but spreads out 15 to 25 ft., making it easy to pick from the ground. Larger fruit than Montmorency—black-red and better quality. Do not pick until dark red, as they put on size and flavor the last 2 weeks.

LOW PRICES AN56

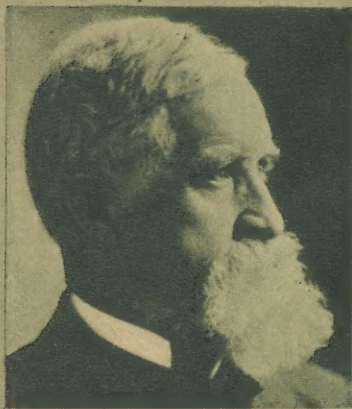

2 to 3 ft. \$1.29 each; 3 for \$3.78; 5 for \$6.15
\$1.49 each; 3 for \$4.38; 5 for \$7.47
each; 3 for \$5.98; 5 for \$9.98

"Earliest and Sweetest" WATERMELON

EARLIEST and SWEETEST—715 Here's the melon that has everything. It's earliest by far—perfect for the North country, or any other place. It's sweet, with a delightfully fresh crispness that makes you want more. It's small—icebox size—and easy to store and cool. It's a prolific bearer—often 10 to 12 melons to the vine. PKT. 15c; oz. 35c; 1/4 lb. 75c; lb. \$1.60.

1st Generation

COL. C. W. GURNEY
Founder—1840-1913

Pioneer seedsman and nurseryman of the Northwest, Col. C. W. Gurney began his life-work in horticulture after leaving service in the Civil War. It is from such distinguished heritage that the Gurney Seed & Nursery Co. of today emanates.

2nd Generation

GEO. W. GURNEY
PRESIDENT

Dear Folks:

Always like to have a special word with all of you here at the beginning of the catalog. Gardening is my hobby just like it's yours, so feel that we should be close to each other. Want you to write me often and tell me what you're thinking.

There seems to be less food and more demand for it than ever. We're going to have to ship a lot of it away to starving people overseas. That means we're going to have to grow more. All of us. You and I and everybody else. The government is asking for 20 million "Freedom Gardens." They want us to grow fruit and vegetables to EAT OURSELVES, so we can ship other things abroad.

And we've got all the things to grow right here at Yankton. Best you can buy anywhere. Hope you take time to study them, and send in your orders early, so you can have just what you want and need.

Sincerely,
Geo. Gurney.

3rd Generation

SIDNEY GURNEY
OFFICE MANAGER

If you can imagine thousands of orders from all over the country coming in at ONE PLACE every day in the spring, you'll be able to appreciate Sid's problem. He has to keep them all straight and moving, so you get just what you want, when you want it. Besides that he tends to answering a lot of your letters. But he likes people. Likes to hear from you, so if there's anything special you have on your mind, write to Sid. And don't forget to send your order along, too.

Gurney's 1948 WELCOME PAGE

COME SEE US AT YANKTON

We're a friendly business here in Gurneyland. We welcome visitors. So come and see us. And if you can't, write us a letter and tell us about your garden.

Front View of Gurney Buildings at Yankton—Seed & Nursery Headquarters for the Great Northwest

If you come to see us at Yankton this is about what you'll see. Notice the new buildings to help handle UNITED Hybrid Corn and field seeds better. We think we've got the best seed and nursery plant in the Northwest. We want you to come see it as well as our hundreds of acres of nursery plantings and the fine new Hatchery. Remember, you're always welcome at Gurneyland. We're anxious to shake your hand and know you better.

For 82 Years America's Foremost NORTHERN Seed and Nursery House

HELP! HELP!

This story is for you old customers who like to read the Gurney PLANTING MAGAZINE. As you know, this little magazine comes out to you FREE twice a year. And what we like to fill it with is garden helps and pictures and letters from and about you customers. Every issue has hundreds of pictures and letters. But we need MORE. So, send in your snapshots (we send you 50c if we print them) and your letters. We like to read them and then print them in the Planting Magazine. Next issue will come to you on March 1.

Gurney's Nursery Stock Is State Inspected

All our nursery stock carries a state inspection label certifying that our nursery stock is clean and free of disease and passes all state laws as to quality of nursery stock sold. This is another protection for you when you send your order to Gurney's. Don't be satisfied with ordinary stock. Get the best from Gurney's—it costs no more.

EASY TO ORDER

Buying direct by mail is the easy way to order. Study and look through the catalog. You'll find a lot of interest and good helps. Then simply list down what you need on the order blank enclosed, enclose your check or money order and we'll do the rest. And remember, every variety listed in this catalog is a selected, tested and approved variety. You take no chances on whatever you buy when you buy from Gurney's.

Gurney's Planting Magazine is FREE to Customers

We have a friendly business here at Yankton, and we want to get acquainted with our customers and help them with their gardens as much as we can. That's the big reason for publishing our Planting Magazine. If you haven't seen a copy of it, the Planting Magazine is devoted to friendly tips on how to grow seed and nursery items. It tells how to garden and when, and what to do if trouble arises.

More important, it's sortuva meeting place for Gurney customers and friends.

WE GROW OUR OWN STOCK

The picture above gives you a glimpse of one of our many acres of growing nursery stock. All around Yankton, we have field after field of nursery stock all growing under our direct supervision and handled by our own experts.

This way we KNOW what our stock is and are able to see that it has the best of care from the time it is planted until it is dug, ready for your gardens.

You are sure of better seeds and plants when you buy from Gurney's.

Every issue, and it comes out once in the spring and once in the fall, carries dozens of pictures of Gurney gardens and farms, and dozens more of letters and tips from planters who have learned a new way of growing this or that.

The Gurney Planting Magazine is FREE to all Gurney customers. Watch for it, and if you don't get your copy, write and ask for it. The first big 1948 issue will be published in March. If you've sent in your order before then, you'll be sure of getting a copy.

CANADIAN CUSTOMERS

The importation of all nursery stock entering Canada from other countries is subject to a permit. Nursery stock includes all trees, shrubs, plants, roots, bulbs, corms, rhizomes, but does not include true seed.

Permits are supplied with no charge to Canadian customers and they should apply to the Plant Protection Division, Department of Agriculture, Ottawa, for same before placing orders for nursery stock. It is not necessary to have a permit for garden seed.

Your Orders Come Postage Free from Gurney's

This year, for the first time, practically everything we send out to you, except field seeds and balled and burlapped evergreens, comes postage free. We think this will make it easier for you. You'll find more details on free postage on page 27.

FREE GIFTS With Your Orders at Gurney's

We have always followed the practice of giving more than we bargain for, and we think it's still a good practice, even in these days of high values.

Every order at Gurney's calls for a free gift. This goes for both garden seed and nursery stock. We aren't going to tell what these gifts are ahead of time, but you can be sure they will be good, and really useful or decorative in the garden.

Our free gift policy goes for orders even lower than a dollar, but the bigger the order, the bigger the gift, or the more gifts. Watch for them in your orders, and remember you always get your money's worth at Gurney's—a little bit more to boot.

Our Business Is Based On Fair Measure---Plus

You Can Be Sure of Quality and Hardy Stock When You Buy at Gurney's

It's been our policy for three generations to give our customers fair measure—plus. That's not only our promise to you, but our business creed. We believe that sending out the best seed and nursery stock brings in business twofold. That's why our business has grown and prospered. We expect to continue this policy, as you will see when you receive your order this year.

One thing you can be sure of at Gurney's is that you will get nothing but NORTHERN-GROWN stock. Our country up here needs HARDY stock that can stand cold winters and hot dry summers. And this HARDINESS goes for all you customers, no matter how far South you live. There is nothing so important in a plant as the ability to get started right, and KEEP ON GROWING. That's the type of stock we grow in Gurneyland—and nothing else.

TRUE TO NAME

Another thing you can be sure of is that everything you buy will be true to name. If you want Anoka apples, you can be sure of getting them at Gurney's. And that goes for everything right down the line.

24-HOUR SERVICE

It's been hard to live up to our pledge of 24-Hour Service during wartime, but this year we're going to try to be back on schedule. This goes for garden seed and merchandise items. For things like nursery stock, we ship when it is BEST FOR YOU TO PLANT.

SAVE MONEY

We honestly believe that our prices are the lowest for the quality supplied of anywhere in our country. The reason we can give you such good prices is that when you buy at Gurney's, you buy DIRECT. We grow the stock we sell. We have hundreds of acres of our own, producing for no one else, but you Gurney customers.

We Believe in Doing Right by Our Customers

We mean it. We believe in doing right by our customers. We represent our goods to be just what they actually are. And we back up this guarantee 100%. We send out thousands and thousands of seed and nursery orders every spring. We have customers who have bought things of us for fifty years. And we like to say that our customers speak for us. That's the best guarantee of satisfaction we know of.

CORAL LILY

BAN3—A small Lily of brilliant coral red. Exceedingly hardy as it comes from Siberia. Many deep waxen recurved flowers in each plant. Plant 4 to 6 in. Price: 29c each; 3 for 75c; 5 for \$1.19, postpaid.

What it means to plant GURNEY'S "Northern Grown Seed"

One thing you can always be sure of at Gurney's—you always get seed that is hardy and will grow well for you. Up in this country we have to have hardy seed. Nothing but the hardiest strains will take the punishment of cold and hot winds so frequent in the Northwest.

This hardiness in seeds, same as with nursery stock, is important to every gardener, no matter where he lives. It is just as important in Illinois and Kansas and Missouri as it is here in the Dakotas. So insist on hardiness in all the seeds you plant. Better still, get them from Gurney's and be sure that what you plant will be able to take the circumstances under which you plant it.

and what Gurney Customer's say about it

FIRST TRY

"Dear Gurneys: Just want to tell you how pleased we are from results by planting your seed last spring. This is our first try with your seeds and we have tomatoes weighing over a pound. All the vegetables are wonderful."—Mrs. J. O. Messenger, Three Lakes, Wisconsin.

QUALITY FROM GURNEY'S

"Dear Mr. Gurney: I have ordered seeds from you for a number of years. I never could raise such a nice garden until I started buying seeds from you. I think you have the best quality seeds. My carrots, beets, cabbage, peas and cucumbers were really the best. Also had some wonderful melons. My friends say I have the best garden they ever saw."—Mrs. William Nemeskal, Comstock, Nebraska.

REAL PRODUCERS

"Gentlemen: Wanted to tell you how pleased we were with the Little Marvel peas we purchased from you. Our garden is far ahead of any I have seen in town. We had our first mess of peas on June 12th, my birthday, and this morning we picked 3 milk pails full. Very few of our neighbors have peas yet, and they ask us what kind of seed we used."—Mr. and Mrs. E. C. Gregory, Wessington Springs, South Dakota.

REAL HYBRID CORN

"Dear Sir: Here is a picture of my daughter, Evelyn Darlene, age 3, and my son, Ronald Lee, age 5, standing by some Hybrid corn. Just a few days later a tornado struck and laid it flat, but in a few days it had straightened up and looks almost as good as ever. This is the first year we have used Gurney's seeds and like them fine. We especially like the Sugar Lump melons. It's the children's favorite. You may look for a big order from us next spring."—Mrs. Wayne W. Woods, Selma, Kansas.

A REORDER FROM KANSAS

"Dear Sirs: Enclosed is another order for onion seed—Bermuda, either white or yellow. I have the most wonderful onions I raised from your seeds last year. Your seeds sure do well here."—Mrs. Minner Alaway, Box 541, Gaylord, Kansas.

99% AND BETTER

"Dear Gurney's: I sure like your seeds. They grow 99% and better."—Mrs. John Steinocher, South Shore, South Dakota.

BEST IN 25 YEARS

"Dear Mr. Gurney: I used your seeds for the first time this year and they are the best I have ever planted and I have been gardening for twenty-five years."—Mrs. Otto Minzenmayer, Rt. 2, Wingate, Texas.

PURGOLD THE BEST

"Dear Sirs: I do like your seeds. The Purgold Sweet Corn was the best we have ever eaten."—Mrs. Tena Ambler, Box 92, Ft. Calhoun, Nebraska.

SUGAR LUMPS BRING BUSINESS

"Dear Sirs: Two years ago my daughter sent for some free Sugar Lump watermelon seed you advertised in a farm paper. We had all the melons we could eat from the latter part of July until after freezing. They were the sweetest and best we ever raised. After such good luck with the melons, I sent for all my seeds from you last year. Everything grew so well, we had more than we could use. People said they never saw such large and perfect vegetables."—Mrs. Edgar Asleson, Lake City, Minnesota.

DESPITE THE DROUGHT

"Dear Gurneys: Would like to tell you about my beets raised from your seed. Although the summer was dry and they didn't grow until fall, there wasn't a stringy beet in the bunch. I canned and gave some away and was complimented on the fineness of the beets. The cabbage was so nice and solid, too, and kept so well."—Mrs. L. Swift, Lucas, South Dakota.

A 3 LB. PICKLE

"Dear Mr. Gurney: Here is a picture of myself displaying a pickle grown from Gurney's Longfellow seed. It was 15 in. long, 10 in. in diameter and weighed 3 lbs. Green as grass."—Mr. Val Plein, 870 Kaufman Avenue, Dubuque, Iowa.

GURNEY'S BEANS

Plant lots of Beans this year. 5 or 6 pounds aren't too many for a small family. A pound will plant 2 rows, 50 feet long. Cover beans about 2 inches. Space rows 20 to 30 inches apart in rich warm soil. Make first planting when severe frost danger is past. Make more plantings every two weeks.

And remember to buy a few extra pounds of beans when you send your order. Beans are the WORLD'S CHAMPION "FILL-IN" CROP. Wherever an early crop like radishes or lettuce is done with the ground, put in another row of beans. Beans like hot weather and this way you use your garden double and GET 2 CROPS OFF the same space.

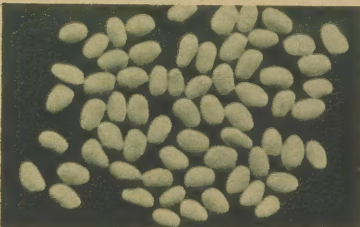

INOCULATE ALL BEANS

Be sure to inoculate all beans, peas and sweet peas. LEGUME AID inoculation will help you get bigger yields and faster growth. It just takes a minute to dust the seed—no trouble at all. A 10c packet is enough for 5 lbs. of seed. Full directions on the packet. LEGUME AID 10c per packet, postpaid. No. 4015.

133—EDIBLE-SOY BEANS

(90 days.) You've heard a lot about edible soy beans. Well, here they are—the great big green kind. Beans are bright green in color. Prepare them for the table just as you would lima beans, or dry beans. Let pods stand in boiling water for 5 minutes to shell. Price: Pkt., 10c; 1/2 lb., 25c; 1 lb., 40c; 3 lbs., 98c. Postpaid.

NAVY BEANS

102—Best yielder of any of the dry or soup beans. Erect bushes keep pod off damp ground. Long uniform pods. Raise a lot.

Triple size pkt., 10c; 1/2 lb., 20c; 1 lb., 33c; 3 lbs., 80c. Postpaid.

RED KIDNEYS

128—This is the RED soup bean, similar to the Navy except for color. Easy to grow and a very heavy yielder of large, dark red, dry beans.

Triple size pkt., 10c; 1/2 lb., 18c; 1 lb., 33c; 3 lbs., 80c. All Postpaid.

GREEN KENTUCKY WONDER

or Old Homestead

134—(65 days to maturity). This climbing variety is very vigorous and productive and bears its pods in large clusters. The pods are green, very long, often being nine or ten inches, nearly round, stringless and very crisp when young, and so fleshy that they are greater in width than breadth.

Triple size pkt., 10c; 1/2 lb., 27c; 1 lb., 46c; 3 lbs., \$1.15. All Postpaid.

HOPI INDIAN LIMA

Drought Resistant

135—(71 days). This bean originated with the Hopi Indians in the Southwest. They have been growing it for centuries there on poor, rocky soil. A very vigorous grower, has a typical Lima flavor, a heavy yielder, bears over a long period of time. Plant it on a trellis or fence or plant it with corn.

Price: Triple size pkt., 15c; 1/2 lb., 26c; 1 lb., 45c; 3 lbs., \$1.10, postpaid.

GURNEY'S TOMATOES

What You Should Know About Tomatoes

For years we have been experimenting with many varieties of tomatoes. As you probably know it takes a pretty good tomato to grow successful crops up here in the Northern States. We have no hesitancy in saying any tomatoes listed in the Gurney catalog will make successful crops for you in either of the Dakotas or in the surrounding states. When you buy tomatoes from Gurney's you are buying the very best.

We have tried hundreds of different varieties and have selected only those that are well suited to this general territory, every one of which is dependable and will give you a maximum of the best well fleshed tomatoes.

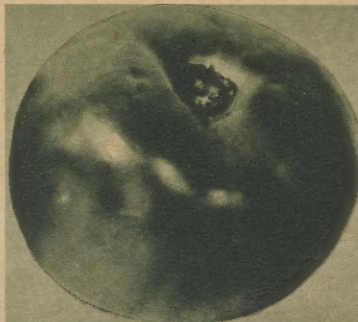

Because of our short seasons you should start the tomato seedlings in the house, in the hot bed or in a cold frame real early. Have good stocky vigorous plants ready to start blooming when frost danger is over. Tomatoes like reasonably rich soil but don't fertilize them too heavily. If your garden is exposed to hot southwest winds be sure to plant your tomatoes on the protected side. Plant them on the north or east side of corn, castor beans or buildings. This will help insure maximum crop.

ALL STATE

Produces When Others Fail

407—From NORTHERN NORTH DAKOTA, MONTANA, MINNESOTA and WISCONSIN with their short growing season, down through SOUTH DAKOTA, IOWA, and NEBRASKA, you will find THIS WONDERFUL NEW TOMATO IS BETTER than the variety you have been raising. The smooth red Tomatoes are as early as Bison or Earlibell, and NEARLY TWICE AS LARGE. Pkt. 15c, postpaid.

PONDEROSA

Biggest of All

418—The largest tomato grown, often producing fruit weighing 2 pounds or more. The immense tomatoes are flat, nearly solid, and of a delightfully mild flavor. It is one of the best for slicing or canning. Ponderosa is a heavy yielder and ripens after the early varieties.

Pkt., 10c; 1/2 oz., 30c; 1 oz., 50c. All Postpaid.

YELLOW PEAR

For Preserves and Sauce

419—If you want delicious preserves, plant this bright yellow, pear shaped tomato. Yeager's Yellow Pear is fully 2 weeks earlier than the common Yellow Pear and yields immense crops. The whole family will love this bright yellow pear shaped tomato.

Pkt., 10c; 1/2 oz., 25c; 1 oz., 40c. All Postpaid.

← NEW TENDERGREEN

*The Dark-Green
Canner*

106—An entirely new green podded bush bean, enormously prolific, entirely stringless, and bearing a profusion of finely flavored beans that are more tender than those of any other variety. The pods of Tendergreen are long and round, absolutely free from strings and fibre, and are of the finest eating qualities. Plants are of strong upright dwarf growth. Tendergreen is a bean of real merit, combining productiveness and hardiness with the highest quality, and we urge a generous planting. Splendid for canning. Matures in 55 days.

Triple size pkt., 10c; ½ lb., 26c; 1 lb., 45c; 3 lbs., \$1.12. All postpaid.

BOUNTIFUL Famous Canning Bean

109—(50 days). A very heavy yielder and of excellent quality. Very popular for home, market and freezing. Stands shipping well. Pods are big, green and showy. Rich flavor makes it a favorite for canning. Reliable everywhere. Triple size pkt. 10c; ½ lb. 25c; 1 lb. 40c; 3 lbs. 99c, postpaid.

BURPEE'S STRINGLESS GREEN POD

- Drought and Heat Resistant
- Stringless
- Heavy Bearer

107—(50 days). This extra early dwarf green pod bean is a very heavy bearer. The medium size, meaty, green pods are absolutely stringless, of high quality, and excellent flavor. Besides their other good qualities, they will stand more drouth than any other variety. The seed is dark brown.

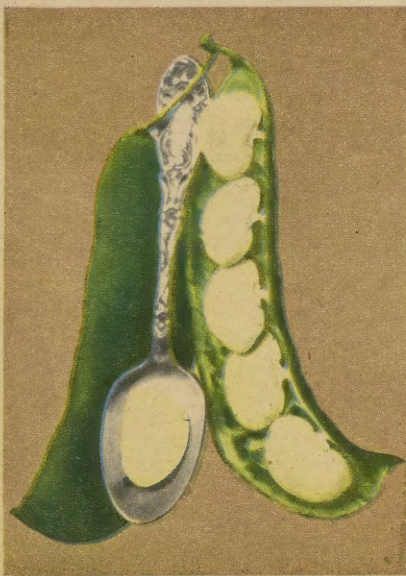

Triple size pkt., 10c; ½ lb., 24c; 1 lb., 43c; 3 lbs., \$1.05. All postpaid.

IMPROVED HENDERSON BUSH LIMA or BABY LIMA Most Dependable Lima

127—(65 days to maturity)—These beans are produced on a small, bushy plant with many large clusters of pods which are filled with medium size flat beans. This bean is very early and is very productive. They are delicious either as a snap or dried bean.

Triple size pkt., 12c; ½ lb., 25c; 1 lb., 42c; 3 lbs., \$1.05. All Postpaid.

FORDHOOK BUSH LIMA The Early Big Bush Lima

126—(75 days to maturity)—The very best large seeded variety. The pods, which are produced in large clusters, are about 5 inches long, each containing four to five large beans of exceptionally fine quality. Grows very upright holding beans out of the dirt which is very helpful when it comes to shelling them.

Triple size pkt., 15c; ½ lb., 28c; 1 lb., 48c; 3 lbs., \$1.00. All Postpaid.

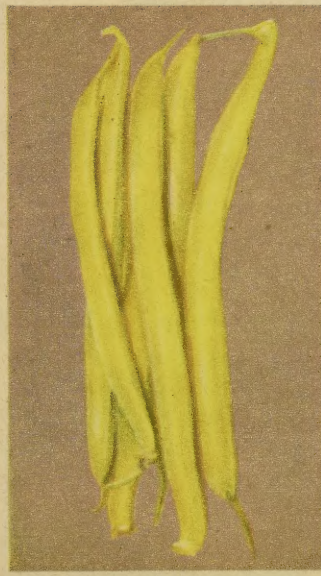

Earliest BRITTLE WAX The Early One

110—Five reasons why you should plant this bean:

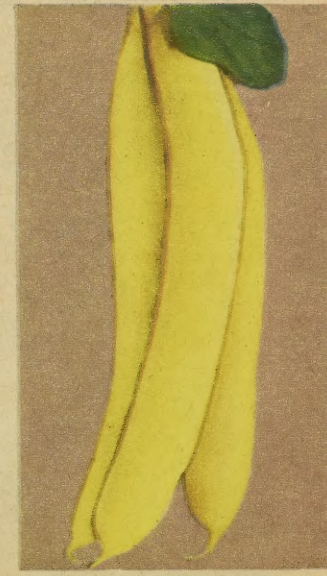

1. **Quality:**—Absolutely stringless, very tender, and most delicious.
2. **Yield:**—Vines are large, vigorous, completely covered with pods for long season.
3. **Appearance:**—Long straight pods, beautiful yellow.
4. **EARLY:**—Ready in 50 days.
5. **Hardiness:**—Nearly blight proof, very drouth-resistant.

Triple size pkt., 12c; ½ lb., 24c; 1 lb., 43c; 3 lbs., \$1.05. All postpaid.

IMPROVED GOLDEN WAX Heavy Yielder—Good Canner

116—(52 days to maturity)—This extra early wax bean is one of the best for the home garden. Long, straight, waxy yellow pods absolutely stringless. Heavy bearers of delicious quality beans. Excellent for canning or pickles. Seed is white, mottled with red and purple. Triple size pkt., 10c; ½ lb., 27c; 1 lb., 48c; 3 lbs., \$1.15. All postpaid.

PENCIL POD BLACK WAX The Heavy Yielder

105—(55 days to maturity)—A wonderfully flavored, rich dark yellow stringless snap bean. It is a very vigorous and hardy plant, being one of the few to survive the heat and lack of moisture of our summers. The seed is black when ripe.

Triple size pkt., 10c; ½ lb., 25c; 1 lb., 39c; 3 lbs., \$1.10. All postpaid.

EARLIBELL • The Vigorous Early One TOMATO • And They Don't Split

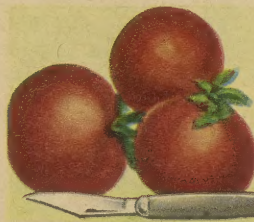

402—An immense yielder of beautiful crimson tomatoes of extra fine flavor. The fruits are smooth and do not split easily. The vines are thrifty with enough foliage to shade the fruit so it will not sunburn. Again, I urge you to plant Earlibell. Pkt. 10c; ½ oz. 24c; 1 oz. 45c. All Postpaid.

EARLIANA

Earliest of the Lot

411—The earliest, large, smooth red tomato. This tomato is not only remarkable for its earliness but for its large size, handsome shape, and bright red colors. Enormously prolific. The finest for the Northern market and home garden. Pkt., 10c; ½ oz., 26c; 1 oz., 40c. All postpaid.

BISON

Best for the North

414—One of the best and earliest tomatoes developed by Professor A. F. Yeager. Instead of wasting its vitality making a large plant, Bison is self-pruning and forms a compact bush. It puts all its energies into producing and ripening a heavy and extra early crop of smooth, solid, meaty, medium sized red tomatoes. Pkt. 10c; ½ oz., 25c; 1 oz., 40c. All postpaid.

GOLDEN QUEEN

*The Smooth and Prolific
Yellow One*

412—"Queen of the Yellows"—The largest yellow tomato. It is early and very prolific. The large yellow tomatoes are smooth and very mild.

Pkt., 10c; ½ oz., 25c; 1 oz., 39c. All Postpaid.

YELLOW HUSK or GROUND CHERRY

Easy to Grow

413—This early dwarf type is the only one suitable for the North. The fruit is about the size of a cherry, bright yellow enclosed in a husk. Makes wonderful preserves and pies.

Pkt., 10c; ¼ oz., 25c. Postpaid.

BOUNTY

The Early and Smooth One

417—Yes, we say it's the finest tomato grown. So SMOOTH and FIRM and with such a pleasing flavor. Outyielded six other commonly planted varieties from 10% to 90% in experiment station trials. BOUNTY is EARLY RIPENING, SELF-PRUNING, UNIFORM IN COLOR and TOPS IN QUALITY. A North Dakota Station introduction. ORDER EARLY, Seed Supply Very Limited.

Pkt., 15c; ¼ oz., 20c; ½ oz., 35c. Postpaid.

FIRESTEEL

The Drought Resistant

427—(62 days). This is the finest of the new tomato introductions, originating in Dakota where it takes a good tomato to make good. Firesteel is a large fruited sort, globe shape, deep crimson in color, unaffected by heat and drought, yields tremendously. Fine for slicing or for canning. Solid enough for shipping. Price: Pkt. 10c; ¼ oz., 20c; ½ oz., 35c. Postpaid.

*Don't Forget to Plant
Golden Queen, Too*

EARLY GIANT

This Tomato Has Everything

416—If you've been looking for the perfect tomato (or close to it) stop here. We think this is going to take your garden by storm. It's fairly large, with medium foliage—enough to protect the fruit—but its real merits are its EXTRA-HEAVY YIELD and its perfect quality fruits. The fruits are large, smooth, almost perfect globe shaped, have solid flesh of a bright scarlet color that DOESN'T CRACK. You'll think it's perfect. Price: Pkt., 15c; ½ oz., 50c, ppd.

DANISH BALLHEAD

The Sweet and Solid One

531—Short Stemmed: This is undoubtedly the best late cabbage—desirable for kraut, for storage, and for shipping. The plants are large and sturdy with short stems. The solid round heads weigh from 7 to 10 pounds each. The flavor is very good and the leaves are very crisp and tender. This is the ideal cabbage for high quality kraut.

Danish Ballhead Cabbage will stand hot, dry weather—does not rot easily in wet seasons, and the heads very seldom burst. Yields of 15 tons per acre are not unusual.

Pkt., 10c; ½ oz., 27c; 1 oz., 50c. All Postpaid.

CABBAGE

There's not another vegetable where seed quality counts for as much as with cabbage. Our strains are all sure to make solid heads as seed strains are carefully selected.

Start seeds 6 to 10 weeks ahead of outdoor planting time in the house, hotbed, or cold frame. Cabbage likes rich soil. Space plants 18 in. apart in rows 2 to 3 ft. apart. If worms should happen to bother, use Gurney's Bug Dust. More suggestions printed on packets.

LATE VARIETIES

PREMIUM LATE FLAT DUTCH

The One for Kraut or Storage

535—This is the largest cabbage grown. The immense solid heads often weigh more than 20 pounds, and are very white, crisp, and tender. Late Flat Dutch is a good winter keeper. One of the favorite varieties we list.

Pkt., 7c; ½ oz., 24c; 1 oz., 44c. All Postpaid.

MAMMOTH RED ROCK

The One for Salads and Pickling

533—This is the best and largest of the red cabbage. The heads are round and extra solid. This beautiful deep red cabbage makes delicious slaw and pickles. You want to be sure and try it.

Pkt., 15c; ½ oz., 35c. Postpaid.

BEST OF THE EARLY VARIETIES

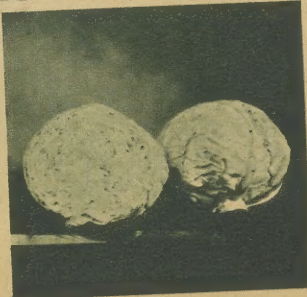

Earliest of All

The Earliest

515—In our trial gardens at Yankton, this new extra early cabbage has produced the largest percentage of good heads.

The heads are nearly round, medium size, and extra solid. The home or market gardeners are always satisfied with Earliest of All.

Pkt., 10c; ½ oz., 30c; 1 oz., 60c. All Postpaid.

Early Ballhead

The Round and Solid One

521—We knew this early summer ballhead cabbage is a winner and a money-maker for the market gardener.

The heads are perfectly round, very solid, compact form, can be planted closer than most other varieties, and will yield more tons per acre.

Pkt., 8c; ½ oz., 27c; 1 oz., 50c. All Postpaid.

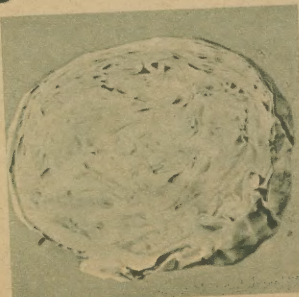

Copenhagen Market

The Sure Cropper

519—This large, solid, extra early round headed cabbage has taken the place of most of the other early varieties until now over half the early cabbage is Copenhagen Market. It is good enough for the large commercial cabbage growers in Wisconsin, Minnesota, and Iowa.

Pkt., 10c; ½ oz., 27c; 1 oz., 50c. All Postpaid.

Golden Acre

The Early and SURE One

524—Early, round-headed cabbage which closely resembles Copenhagen Market in type. As its name implies it is a money-maker. It is 8 to 10 days earlier than Copenhagen Market, but is smaller and can be planted closer. Because of earliness and fine quality it commands a higher price.

Pkt., 9c; ½ oz., 28c; 1 oz., 50c. All Postpaid.

Disease Resistant Cabbage

If Yellows or Yellow Rot has destroyed the cabbage crop in your community, plant only this Yellows Resistant seed.

DANISH BALLHEAD YELLOWS RESISTANT

For Heavy Solid Heads

517—This is an extra fine strain of Danish Ballhead cabbage which I believe will outyield any other cabbage grown. The heads are larger.

Many communities have quit raising cabbage because of losses from Yellows. With this fine Yellows Resistant seed you can again grow cabbage profitably, as the large, solid heads always bring the highest price.

Pkt., 10c; ½ oz., 35c; 1 oz., 60c. All Postpaid.

ALL SEASONS YELLOWS RESISTANT

For Sure Crop and Good Kraut

520—This fine large Disease-Resistant Cabbage can be used early or stored for your winter supply. The solid heads weigh from 8 to 10 pounds, and make extra fine kraut. All Seasons is a heavy yielder.

Pkt., 10c; ½ oz., 35c; 1 oz., 65c. All Postpaid.

CHINESE CABBAGE

A Vegetable You Should All Grow for Salads and Greens

539—This new Oriental Cabbage is excellent for salad purposes. In flavor, it resembles both celery and Cos Lettuce, but is much sweeter and more tender. Many people

prefer it to head lettuce. It is also delicious for greens.

The heads are tall and cylindrical. They reach a height of 18 inches, and a weight of 5 pounds.

For summer use, Chinese Cabbage should be planted early in a hotbed and transplanted so they will make heads before the hot weather. If you desire a fall crop, sow in the latter part of July or early in August.

Pkt. 10c; ½ oz. 35c; 1 oz. 60c. All Postpaid.

FROST-PROOF CABBAGE PLANTS

Out-Door Grown

Here they are—just what you have been looking for, thick stemmed, sturdy, husky cabbage plants, well hardened and ready for out door planting.

These are grown in the south where the seed is sown very early in the winter. They grow slowly and are tough. Set them out early. They don't mind a little frost and snow. Order now. We'll ship at proper planting time in your locality.

Postpaid prices—Safe Delivery Guaranteed.

HOW TO PLANT

Set the plants out just as soon as you get them. A light frost will not hurt them because these plants are well rooted, hardy and come to you well packed.

Gurney's BEETS

Beets are easily grown on any soil. Plant 1 inch deep in early spring. Thin the plants to 3 inches in the row. Beets for winter use should be planted about June 1st. 1 ounce seed for 50 feet, 6 pounds per acre. Gurney Beet seed comes from the leading production centers of the country. YOU CAN'T BUY BETTER SEED. Make successive plantings from real early spring to mid-summer. Beets from fall crop are of wonderful quality.

NEW! PERFECTED CANNER

For Canning, Cooking and Pickles

605—A new beet that beats them all. If you are looking for perfection stop right here. This beet not only has the richest deep, dark red, but doesn't lose it in cooking or pickling. Won't fade. It's small, uniform and smooth with practically no tap roots. You can't find a better all around beet for canning.

Price: Pkt., 10c; 1 oz., 35c; ¼ lb., \$1.10. Ppd.

DETROIT DARK RED

"World's Champion" Beet

604—This dark red beet is a winner for every purpose. It is early and the small tops and good shaped globe roots make it ideal for bunching. The flesh is very dark red with faint rings. Very sweet and tender. One of the best winter keepers. More Detroit Dark Red are grown than all other varieties combined and that is simply because year after year it does better in gardens anywhere

than any other beet variety. If you can plant but one beet, be sure it is Detroit Dark Red.

Pkt., 7c; oz., 30c; ¼ lb., 90c. All Postpaid.

DAKOTA WONDER

The Early—Deep Red One

607—A beautiful smooth, globe-shaped beet with small neck and tap root. The flesh is an intense dark red. You may pull a dozen or a hundred beets and there will be no variation in shape. Cut them and every one will be the same glowing dark red color. Very early. Good for bunching and winter use.

Pkt. 10c; oz. 30c; ¼ lb. 90c. All Postpaid.

PERFECTED DETROIT DARK RED

The Perfect Deep Red Beet

602—(58 days.) A reselected strain of Detroit Dark Red. In our trial grounds, it made the best showing of any for color, shape and uniformity. In fact, I don't know how it can be improved. Medium in size and runs as regular and uniform as you could wish. Rich, deep dark red with absolutely no white rings nor streaks. No side roots.

Price: Pkt., 10c; oz., 30c; ¼ lb., \$1.00, postpaid.

"One of Each" BEET OFFER

1 Pkt. each of the
4 Beets above

MANGELS

How to plant Mangel Beets: Mangel beets are easy to grow. You handle them just like ordinary beets except give them a little room. Space rows 2½-3 feet apart and when the seedlings are well established thin to 8 or 10 inches apart in the row. Sow the seed along in May after severe frosts are past. You will need around 10 lbs. of seed to plant an acre. 15 to 20 tons to the acre are common yields. Harvest before severe freezing comes on. Store the roots in a cellar or in a pit. Livestock and poultry thrive on them. Makes an ideal green winter feed. Mangel beets will give you more tons of green feed to the acre than any other root crop.

MAMMOTH LONG RED

619—The roots are very long and easily harvested as half the mangel grows above ground. They yield enormously—often 40 tons per acre. Individual roots sometimes weigh 20 pounds and are over 2½ feet long. 1 oz., 20c; ¼ lb., 65c; ½ lb., \$1.15. All Postpaid.

GIANT HALF SUGAR ROSE

616—This is a half sugar beet and is sweeter and more nutritious than mangels. The oval red roots weigh about 6 pounds each, are easily harvested, and are wonderful poultry feed.

1 oz., 20c; ¼ lb., 65c; ½ lb., \$1.15. All Postpaid.

WHITE KLEIN WANZLEBEN

620—Sugar Beet: This has the highest sugar content of any sugar beet. The long roots are pure white, and under good conditions will yield over 15 tons per acre.

1 oz., 20c; ¼ lb., 65c; ½ lb., \$1.15. All Postpaid.

SWISS CHARD

220—FOR GREENS: Swiss Chard will make more and better greens than any other vegetable. It is grown for its leaves and stems, as it does not make a bulb like other beets. It is an immense yielder and can be used from early spring until late fall.

Pkt., 10c; oz., 22c; ¼ lb., 66c. All Postpaid.

KOHL-RABI

216—EARLY VIENNA: Makes a large bulb on the stem just above the ground. Easy to raise as turnips. The sweet, fine grained, white flesh combines the flavor of cauliflower and turnip.

Kohl-Rabi should be used when about 2 inches through.

Pkt., 10c; ¼ oz., 25c; 1 oz., 48c. All postpaid.

KALE

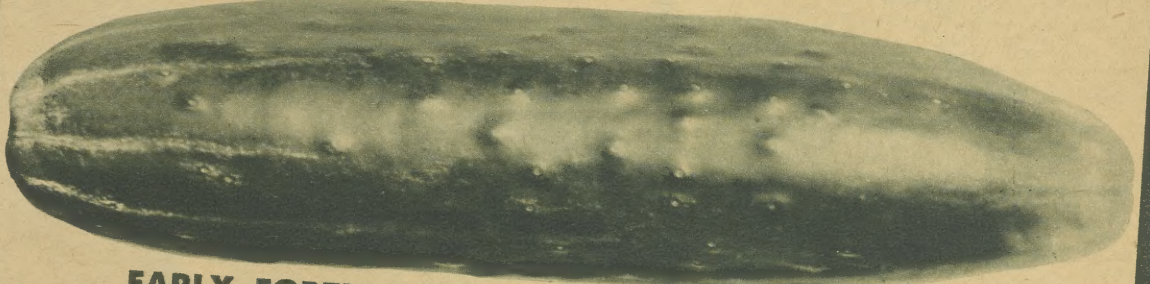

or BORECOLE

232—DWARF GREEN CURLED: Kale is easy to raise and yields immense crops. Our Dwarf Green Curled is the best of all, and is delicious creamed or served as greens. The finely curled leaves are tender and delicious.

Pkt., 10c; oz., 25c. All Postpaid.

Gurney's CUCUMBERS

How to plant Cucumbers: Cucumbers will grow most any where but they like a reasonably rich soil. Plant plenty of them; you may lose some of the seedlings. Remember don't crowd them. Make the hills at least 4 or 6 feet apart, plant about a dozen seeds to the hill. Scatter them so that the hill will be at least 8 inches in diameter. Don't plant cucumbers until corn planting time, when the soil is well warmed up. You can make late plantings in June and early July. An ounce of seed is enough for about 100 hills. For good pickles use the New National Pickle; for big slicers my pick is the Black Diamond. Put up plenty of pickles. They will be hard to get another year.

EARLY FORTUNE

For Pickles and Slicing

365—(60 days). The most vigorous grower. Resistant to disease. Yields tremendously. Long dark green with small seed cavity. Holds color well. Can be used for small pickles or large slicers. Pkt., 10c; oz., 30c; ¼ lb., 90c; 1 lb., \$2.50. Postpaid.

SPECIAL CUCUMBER OFFER 1 pkt. EVERBEARING 1 pkt. EARLIEST OF ALL 300X 1 pkt. STRAIGHT 8 ALL 3 only 25c PP

STRAIGHT 8

Perfect for Slicing

362—AN ALL AMERICAN PRIZE WINNER. It gets its name from its size and shape. Perfectly straight, it grows about 8 inches long and 1½ inches through. Firm fleshed, nearly seedless, and dark green from end to end. A bushel of Straight 8 is an eye catcher and is always salable. For slicing, shipping, or dills, plant Straight 8. Pkt., 8c; oz., 30c; ¼ lb., 90c; 1 lb., \$2.70. All Postpaid.

EARLIEST OF ALL

A New One That's Good

354—This prolific cucumber grows about 7 inches long and has blunt square ends. It is a beautiful dark green color with lighter green stripes at the blossom end. One of the earliest and best for the home gardener. Seed very scarce.

Pkt., 15c; oz., 37c; ¼ lb., 98c; 1 lb., \$2.25. All Postpaid.

EVERBEARING

Loads of Pickles All Summer

353—Very early, enormously productive, literally covering the ground with its fruit the entire season until killed by frost, making it the most prolific variety in existence. Fruit is medium size and rich, dark green in color. The fruits are short and blocky—perfect for small pickles.

Pkt., 7c; oz., 29c; ¼ lb., 85c; 1 lb., \$2.30. All Postpaid.

Black Diamond

King of the Cucumbers

359—1. Season—Black Diamond is early, coming into bearing right after Everbearing and New National Pickle. 2. Color—Black Diamond is an attractive dark green from end to end. 3. Size and Shape—Black Diamond grows about 7 or 8 inches long, is cylindrical in shape with blunt ends. 4. Use—Black Diamond, because of its dark green color, good shape, and earliness, is one of the finest cucumbers for small pickles or for early shipping.

FOR CUCUMBER PROFITS, PLANT BLACK DIAMOND. Pkt., 8c; oz., 27c; ¼ lb., 80c; 1 lb., \$2.40. All Postpaid.

New National Pickle

For Early Uniform Pickles

352—This is a strictly tailor-made cucumber. The National Pickle Packers Association told the seedsmen just what they wanted in an early pickling cucumber, and the New National Pickle is the result—the answer to a pickle packer's prayer. It is very early and very productive. A beautiful dark green color. The small pickles are rather short and thick while the larger sizes are smooth and cylindrical with rounded ends. The flesh is very thick with no hollow sides. For quantity and quality, plant New National Pickle. Pkt., 9c; oz., 28c; ¼ lb., 84c; 1 lb., \$2.50. All Postpaid.

OHIO 31

The "Early" Pickle

364—A remarkably early, productive and uniform black spine pickle that is ready for pickling in 55 days. Rather short and thick and gets smooth and cylindrical with well rounded ends. Entire flesh is uniformly thick, thus preventing splitting. Small seed cavity. Resistant to the deadly Mosaic. Strong, vigorous, bears over long period. Best new pickle in years.

Pkt., 15c; oz., 37c; ¼ lb., 98c, ppd.

GURNEY'S POPCORN

HYBRID SOUTH AMERICAN POPCORN

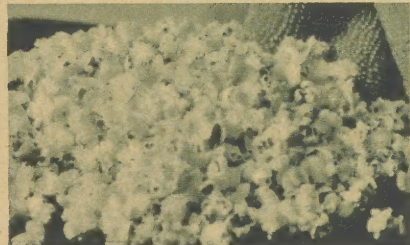

1. GREATER YIELDS—60 to 70 bushels to the acre this year.
2. DROUGHT RESISTANT—Long roots go deep for moisture and plant food.
3. RESISTS COLD—Can be planted early.
4. DISEASE RESISTANT—Vigorous dark green plants.
5. FARMER STYLE CORN—Big yields of big, round ears.
6. STIFF STALKS—Stand like a ramrod. Can be picked with mechanical picker.
7. GREATER POPPING VOLUME—Round cap kernels pop bigger—have better flavor too.
8. MULTIPLE EARS—Two good ears to the stalk.

NEW HYBRID

South American Popcorn

198—New Hybrid South American out-yields open pollinated strains. Added vigor gives this corn the most uniform ear. Has made yields of 50 bushels or better per acre, has a tremendous popping volume, seed stocks are limited. Triple Size Pkt., 15c; ¼ lb., 35c; 1 lb., 60c; 3 lbs., \$1.60; 10 lbs., \$4.95, ppd.; 100 lbs., \$45.00 F.O.B. Yankton.

NEW HYBRID HULLESS

For Extra Yield and Flavor

193—Minn. Hybrid 250. Originated by the Minnesota Experiment Station. Gives greater yields and much more popping volume. You can't beat Hybrid Hulless for rich sweet flavor and tenderness. Seed very scarce. Triple Size Pkt., 12c; ¼ lb., 33c; 1 lb., 60c; 3 lbs., \$1.40; 10 lbs., \$4.50. Postpaid.

SOUTH AMERICAN MAMMOTH

197—South American pops out about three times the size of ordinary popcorn. Giant kernels, buttery flavor, and tender quality. It will yield much more than other kinds. Try some. Triple size pkt., 10c; ¼ lb., 20c; 1 lb., 33c; 3 lbs., 89c. All Postpaid.

Pops Bigger and Tastes Better

UNITED HYBRID U500

199—One of the famous South American Hybrids grown especially for us. It is a four way cross involving two South American inbreds and two Super Gold inbreds—will mature anywhere where open pollinated South American popcorn matures. It is a vigorous grower, big yielder, pops beautifully, has fine flavor, carries two ears to the stalk.

Price: 3 oz. pkt., 20c; ¼ lb., 35c; 1 lb., 60c; 3 lbs., \$1.60; 10 lbs., \$4.95, postpaid. 100 lbs., \$45, f.o.b. Yankton.

EARLY HULLESS

For No Hulls

195—There is always a good market for this high quality popcorn. It is a favorite among popcorn dealers as well as in the home because the long slender kernels are snowy white when popped, and absolutely free from hulls.

Triple size pkt., 10c; ¼ lb., 20c; 1 lb., 35c; 3 lbs., 94c. All Postpaid.

The Big Yellow Popcorn

196—There is always a good market for this high quality popcorn. It is a favorite among popcorn dealers as well as in the home because the long slender kernels are snowy white when popped, and absolutely free from hulls.

"Northwest's Largest Seed and Nursery House"—GURNEY'S, Yankton, So. Dak.

Gurney's Carrot Seed

Make your first planting just as soon as you can get in the soil in the spring and then successive plantings throughout the season so that you will have plenty to put away when winter comes. Cover the seed about 1/2 in. deep and the row 18 to 24 inches apart and thin them out 2 to 4 inches apart in the row if you want big carrots. One ounce of seed is enough for a hundred feet of row.

EARLY CORELESS

For Home Use or Market

634—The best carrot grown. The beautiful orange roots grow about 3 inches long, 1 1/2 inches thick, and are the same size from top to bottom. They are very sweet and tender, nearly coreless and one of the finest carrots for bunching or for winter.

Pkt., 10c; oz., 38c; 1/4 lb., \$1.12. All Postpaid.

DANVERS HALF LONG

For Canning or Storage

627—Danvers carrot is a Prize Winner. Medium in length, and of rich orange color, the size and type that everyone likes. Danvers is one of the best quality carrots, and is large enough to outyield almost any other variety, often yielding from 15 to 20 tons per acre.

Pkt., 7c; oz., 35c; 1/4 lb., \$1.00. All Postpaid.

EARLY PIE CARROT

The Big, Sweet and Juicy One

640—Did you ever eat a pumpkin pie? Sure you did. Good, wasn't it? Well, the next time, try a carrot pie. It will be better, and Pie Carrots make the best pies. Carrots for pies can be used from the time the small carrots start to develop until the old ones are gone in the spring. Plant Pie Carrots and raise your own pies.

Pkt., 10c; oz., 35c; 1/4 lb., 95c. All Postpaid.

STOCK CARROTS

For Stock and Poultry

631—Mastodon: This giant white stock carrot will produce as many tons of feed per acre as mangels or turnips. They grow about 2 feet long and weigh from 1 to 2 pounds each. Horses, cows, hogs, and poultry like carrots and thrive on them.

Pkt., 8c; oz., 25c; 1/4 lb., 90c. Postpaid.

About Carrots

This is one root crop you can depend on every year. What you can't use for the table, the poultry and stock will enjoy. Sometimes it is a good idea to sow a few radishes in the row with carrots. Radishes come quick and mark the carrot row so you can start cultivating early.

Red Cored CHANTENAY

630—Small cored, with bright orange flesh, fine grained, tender and sweet. It is medium early, maturing in about 60 days. The tapering roots are about 6 inches long and 2 inches in diameter.

Pkt., 10c; oz., 35c; 1/4 lb., \$1.00. Postpaid.

LITTLE MARVEL

The Tender, Sweet One

152—If I could have but one kind, it would be Little Marvel. Take my word for it. I've tried 'em all—very tender, heavy yielder, and it will be a long time until we find a better one. In yield, earliness, and quality and delicious sweetness it is tops.

Triple size pkt., 10c; 1/2 lb., 27c; 1 lb., 45c; 3 lbs., 98c. All Postpaid.

YANKTON MAIN CROP

The Drought Resistant Pea

157—(65 days)—Plant Yankton Main Crop and assure yourself of green peas all season, and peas of the finest, sweetest quality and tenderness that you have ever tasted.

This hardy pea is absolutely the most drouth and heat resistant of all, bearing good crops when all others are burned and gone. The vines grow about 2 feet tall and are filled with large pods containing from 6 to 10 delicious peas.

Triple size pkt., 10c; 1/2 lb., 25c; 1 lb., 40c; 3 lbs., 95c. All Postpaid.

EARLY ALASKA

Disease Resistant

146—Earliest of All (52 days to maturity)—Alaska is absolutely the earliest pea and the heaviest yielder. The slender light green vines grow about 2 feet tall and are literally covered with pods. The peas are of excellent quality, and as they all ripen at once, are easy to gather. If you want a lot of peas and want them early, plant Alaska.

Triple size pkt., 10c; 1/2 lb., 22c; 1 lb., 38c; 3 lbs., 95c. All Postpaid.

LAXTONIAN

The Vigorous, Sure to Bear Pea

141—The Top Notch Early Pea: This is a pea that just suits me, and I eat lots of peas during the season. I like them any way they can be served.

The vines of this extra early, heavy bearing, dwarf pea are very stocky and vigorous. The pods are very long, dark green and simply bursting with immense, sweet, tender peas.

Triple size pkt., 10c; 1/2 lb., 25c; 1 lb., 42c; 3 lbs., 96c. All Postpaid.

SWEET CORN

Sweet Cross Hybrid

Big Yield—Best Flavor

175—This corn means dollars to the market gardener and it means delicious roasting ears and lots of them.

Sweet Cross is one of the best yielders. The large, golden yellow ears grow about 7 inches long and are sweet and tender. Same season as Bantam.

Triple size pkt., 15c; 1/2 lb., 33c; 1 lb., 55c; 3 lbs., \$1.49. All Postpaid.

PURGOLD HYBRID

Great for Canning

171—This is a wonderful new Hybrid Sweet Corn. It has large, deep-kerneled ears with such a tasty, sweet flavor. Large, vigorous stalks and a real producer. Out-yielded all other corns in our trials at Yankton. Only 5 days later than Golden Bantam.

Triple size pkt., 15c; 1/2 lb., 32c; 1 lb., 53c; 3 lbs., \$1.45. All Postpaid.

Early Giant Bantam Hybrid

Earliest of All

178—The sweetest, finest home garden corn and the earliest, too. Early Giant will give you corn long before your neighbor and nicer, bigger, sweeter ears you never tasted. A fine early market garden corn. A week ahead of Golden Bantam.

Price: Triple size (\$3 oz.) pkt., 15c; 1/2 lb., 33c; 1 lb., 55c; 3 lbs., \$1.49. Postpaid.

GOLDEN Stowell's Hybrid

183—Grows and looks like white Stowell's, but is a beautiful golden-yellow color. Fine for market or canning. Wonderful roasting ears. Stalks 7 to 8 ft. tall. Vigorous grower. If you like Stowell's Evergreen, you'll want this new "golden" hybrid. Good for mid-season crop.

Prices: Triple size pkt., 20c; 1/2 lb., 40c; 1 lb., 65c; 3 lbs., \$1.45, ppd.

STOWELL'S EVERGREEN HYBRID

185—A big white eared, medium long, 14 to 18 rows, deep narrow kernels, very tender and very sweet. Fine for home use or market gardeners. Vigorous grower, all stalks 8 to 10 feet long, heavy yielder, grows anywhere. Price: Triple size pkt., 15c; 1/2 lb., 35c; 1 lb., 58c; 3 lbs., \$1.55. All Postpaid.

Why HYBRID Sweet Corn IS BETTER

- Heavier Yields
- Sweeter
- More Tender
- Disease Resistant
- Larger Ears

Just like most farmers are turning to HYBRID CORN in their fields, all gardeners are switching to HYBRID SWEET CORN IN THEIR GARDENS. It has proven better in every way.

By careful breeding work, hybrid sweet corn has now been made to yield many more roasting ears than sweet corn ever did before and better yet, the kernels are much more tender and so much more sweet, you can hardly believe there could be so much improvement.

Also by breeding, the ears have been made larger, the rows uniform, and the corn more resistant to disease. It is more vigorous and easier and surer to grow.

It doesn't cost more to plant hybrid sweet corn and the extra-yield, the better flavor and tenderness will make you sold on it forever. Try it this year. Varieties listed above. All season blend at right.

HYBRID SWEET CORN MIXED

Roasting Ears—All Summer

173—Here is a special blend of GURNEY'S HYBRID Sweet Corns to give you an all season supply with just one planting. Hybrid Sweet Corn is sweeter, more tender, deeper kerneled, and disease resistant. This year enjoy sweet corn each week all season. All kinds of yellow hybrids are blended together to give you roasting ears from early to late if you can plant only one kind.

Triple size pkt., 15c; 1/2 lb., 23c; 1 lb., 45c; 3 lbs., \$1.15. All Postpaid.

GURNEY'S DELICIOUS GARDEN PEAS

Gurney's strains of peas are all Northern-grown and carefully selected for disease resistancy, for type and for vigor. Don't take chances with anything but the best.

Plant your smooth varieties of peas just as early as you can get in the ground in the spring. The wrinkled varieties should be planted about a week later. All varieties of peas appreciate support; even the dwarfs would like some brush or a trellis to grow on. Keep the pods up off the ground. They will give you a bigger yield, too.

For a continuous supply make several plantings, starting

just as soon as you can get in the ground by planting the Alaska, and a week later follow it with other plantings of Little Marvel, Big Dakota, Yankton Main Crop.

One pound of peas is enough for a hundred feet of row, 120 lbs. enough for an acre.

SPECIAL: BE SURE TO INOCULATE YOUR PEAS. A 10c packet is enough for 5 lbs. of peas and beans. Full directions for use are printed on the packet. It will pay for itself many times over. No. 4015.

← Edible PODDED PEAS

Eat Like Pod Beans

160—Dwarf Gray Sugar: (57 days)—The pea with pods so juicy and tender you do not shell them but eat pods and all like string beans.

The vines grow about 20 inches tall and are heavy bearers. Give these a trial, and I know you will never be without them again.

Triple size pkt., 10c; ½ lb., 25c; 1 lb., 40c. All Postpaid.

← AMERICAN WONDER

*Sure Grower—
Big Yields*

149—Our improved strain of American Wonder is one of the earliest Wrinkled Peas grown. The dwarf vines grow about 1 ft. tall and are covered with medium size pods.

This is the sweetest and tenderest pea we have ever raised. If you want quality, plant American Wonder.

Triple size pkt., 10c; ½ lb., 22c; 1 lb., 38c; 3 lbs., 87c. All Postpaid.

← BIG DAKOTA

*The Big Yielder
for the NORTH*

144—You want the most peas you can get, don't you? Then plant Big Dakota, because by actual count we have found that they yield more pods to the vine and more peas to the pod. They are of delicious quality, and luscious tasting.

If you want the largest peas you have ever raised, plant Big Dakota. Thousands say this is the finest pea they have ever grown.

Triple size pkt., 15c; ½ lb., 27c; 1 lb., 44c; 3 lbs., 98c. All Postpaid.

GROW YOUR OWN

- IT'S SWEETER
- IT TASTES BETTER
- IT HAS MORE VITAMINS

ABOUT SWEET CORN

Some of people's fondest memories have to do with sweet corn—especially roasting ears. You should have roasting ears early, mid season and late. You never can get too many.

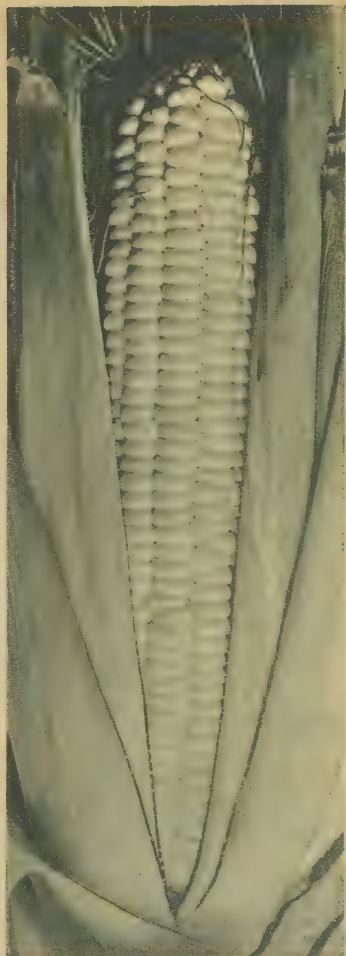

This year, plant sweet corn and plenty of it. Remember Gurney's Special Strains are carefully selected for vigor and vitality. You can depend on them. They have all been carefully tested. You'd be surprised at the number of roasting ears that you can grow in a small sized town garden. Sweet corn doesn't grow as vigorous as field corn, so you can space the hills as close as 15 inches apart if you work them by hand and get an abundant crop. Sweet corn is a "four way" crop. You can use it fresh, canned, frozen or dried. The main thing is to plant lots of it so that you will have plenty for yourself and some extras for the neighbors. Make several plantings about one week apart so you'll have corn coming on all season long.

One pound plants 150 hills, 8 to 10 pounds plants an acre.

Write Us a Letter

Yes, write us a letter. We like to hear from you folks who grow gardens from Gurney Seed. We're a friendly company up here in Gurneyland. We like to know our neighbors, no matter if they do, some of them, live a long ways away.

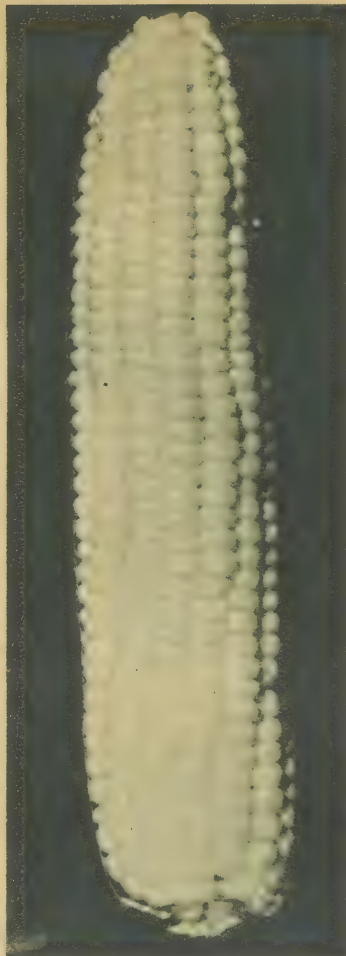

We want you all to have the best possible garden. And if there is anything we can do, any advice we can give, that will help this come about, we want to do it. So write us a letter. Tell us how your garden grew. And if you can, send a snapshot, too. We like to use pictures in the catalog and Planting Magazine—and we send you 50c when we print them, too. But most of all, we like to hear from you.

GOLDEN BANTAM Favorite of All

177—The standard Yellow Sweet Corn. Most popular corn in cultivation. A heavy producer of fine roasting ears, usually 2 to the stalk. Rich Golden Yellow. The standard by which all sweet corns are judged. Tender, sweet and deliciously flavored.

Triple size pkt., 10c; ½ lb., 20c; 1 lb., 36c; 3 lbs., 95c. All Postpaid.

GOLDEN SUNSHINE

174—This large-eared variety originated by North Dakota Agricultural College for Dakota growing conditions—but does well anywhere—can take hot, dry weather. The ear is 12 rowed and 7 to 8 inches long, a heavy bearer of sweet and tender ears, larger and earlier than Golden Bantam.

Triple size pkt., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 94c. All postpaid.

STOWELL'S EVERGREEN

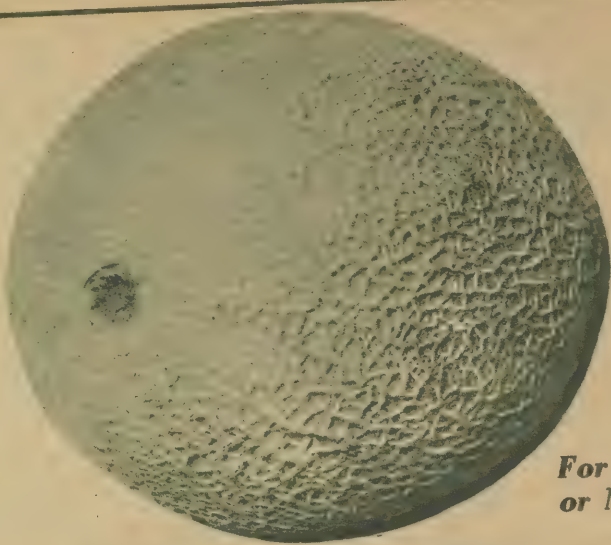

184—Here's the big main crop sweet corn—the largest, and one of the best. Immense stalks produce long 10 inch ears. Kernels deep, white, sweet and tender. It stays in condition for table use for a long time. To lengthen out your roasting ear season, plant Stowell's Evergreen. Canners and market growers plant lots of it. Price: Triple size pkt., 10c; ½ lb., 20c; 1 lb., 36c; 3 lbs., 95c. postpaid.

"Northwest's Largest Seed and Nursery House"—GURNEY'S, Yankton, So. Dak.

MUSKMELONS

How to Plant Muskmelons: Muskmelons like a warm season. They appreciate a warm rich sandy soil. Plant them in hills say 6 or 8 feet apart, using about a dozen seeds to the hill, right after frost danger is past, cornplanting time is about right. Give good clean cultivation and watch for bugs. **Gurney's Bug Dust** is the answer to the bug problems of all kinds. An ounce of

seed is enough for about 100 hills. Most folks pick muskmelons too soon. For home use don't pick them until stem lets go of the melons easily when you turn the melon over. We are proud of the quality of our Muskmelons. All the seed we offer comes from fields grown for seed purposes only; that means you get nothing but the best.

**For Home
or Market**

HALE'S BEST MUSKMELON

The Best All Around Melon

333—Here is the melon for you—it is a money maker. It is just the right size to serve halved. Of wonderful quality, the salmon colored flesh is very thick, and the seed cavity is small. Hale's Best is very early, heavily netted, and a good shipper. Trainloads go from California and Arizona to the Eastern markets. Make your main planting Hale's Best.
Pkt., 10c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.25. All Postpaid.

PRIDE OF WISCONSIN

PERFECT SHIPPER

332—Although this fine new variety was originated in Wisconsin, it has made a great name for itself in the commercial melon district. Pearly gray color, very hard, distinctly netted and covered, seed cavity is small. The flesh is a very deep rich orange, very thick, very firm and of good texture. A fine shipping variety—good for home gardeners too. Price: Pkt., 7c; oz., 30c; ¼ lb., 80c; 1 lb., \$2.35. Postpaid.

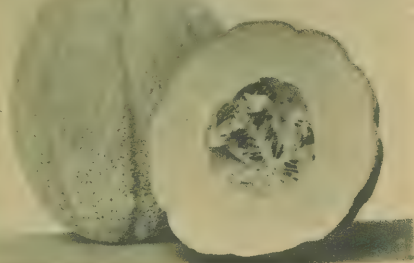

GOLDEN ICE CREAM

Sweetest of All

335—Here is the melon you want for sundaes. An ordinary dipper of ice cream just fills this melon because the cavity is so small.

An early melon—it ripens in from 80 to 85 days. Fruits are 6 to 7 inches in diameter and almost round. The Golden Ice Cream will out-sell any melon on the market because of its fine appearance, thick yellow flesh, and delicious flavor. Seed very scarce.

Pkt., 10c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.15. Postpaid.

HEARTS OF GOLD

Deep Golden and Sweet

345—Hearts of Gold is mighty, mighty tasty clear to the rind. Gets its name from the golden yellow flesh.

The melons are almost round, heavily netted. It is medium early, very productive, and one of the best shipping melons on the market. The flesh is thick, firm and solid—the kind you like.

Pkt., 10c; oz., 30c; ¼ lb., 80c; 1 lb., \$2.35. All Postpaid.

MILWAUKEE MARKET

For Home Garden or Market

337—If you want the BIGGEST BEST FLAVORED EARLY MUSKMELON for home use or the home market, plant Milwaukee Market. The melons often weigh over 10 LBS. and the sweet spicy golden flesh is sometimes 3 INCHES THICK. The Milwaukee Market will stand more heat, drought, and lack of care than any other melon and still produce a good crop. It is nearly as early as Golden Champlain, and is a real quality melon as well as a large early one.

Pkt., 7c; oz., 30c; ¼ lb., 80c; 1 lb., \$2.35. All Postpaid.

GOLDEN CHAMPLAIN

The Earliest

341—This is still the earliest melon in our trial gardens. It blossoms and sets fruit as soon as it starts to run. The melons are netted, ribs are prominent, the flesh is thick and a beautiful golden yellow. The quality is good to extra good, and above all, it is early, maturing melons in about 72 days.

Pkt., 12c; oz., 28c; ¼ lb., 79c; 1 lb., \$2.30. All Postpaid.

DAKOTA HONEY

Sweetest—Best

330—Here is without question the finest and sweetest and best flavored Muskmelon of all. It is almost honey sweet with enough of that spicy tang to make it just a little better than any other Muskmelon you have ever tasted. A good vigorous hardy grower, too. Flesh is deep rich orange, thick and firm. The price is 15c Pkt.; oz., 30c; ¼ lb., 80c; 1 lb. \$2.50. All Postpaid.

GARDEN LEMON

For Preserves, Pies, and Sauce

344—The vine is similar to the muskmelon, and requires the same cultivation. Fruit about the size of a large peach, oval shaped, and bright orange color when ready for use. For sweet pickles, pies, and preserves they are excellent.

Pkt., 10c; ½ oz., 20c; 1 oz., 35c. All pp.

MIXED MUSKMELONS

Boy's Melon Patch Special

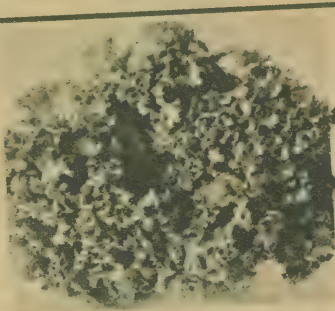

331—Give the children a chance to enjoy their own melon patch. They will have every variety we list and many others, too. It puts real life into gardening for them.

Pkt., 5c; oz., 20c; ¼ lb., 55c; 1 lb., \$1.49. All Postpaid.

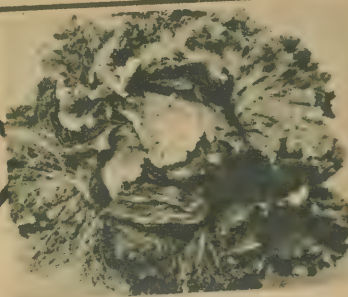

LETTUCE

How to Plant Lettuce: Lettuce is a cool season plant. It likes rich soil and does best when sown real early in the spring but you can grow a good fall crop too by seeding just before the fall rains start. Space rows 16-20 inches apart. Thin the heading varieties to 10-12 inches apart in the row. Leafy varieties may be left 3-4 inches apart in the row. Start some lettuce in a hot bed or cold frame.

Head Lettuce is a cool season plant and doesn't always head successfully unless started early. To be sure of a crop, start in a hot bed or cold frame or in the house, put on rich soil, cultivate well.

**PLANT
LOTS OF
LETTUCE**

CRISP AS ICE

The Earliest Leaf Lettuce

501—One of the finest and earliest varieties of leaf lettuce grown. Give it plenty of room of leaf lettuce grown. Give it plenty of room and you will be surprised to see how large it gets. The leaves are a silvery green, good for spring or early summer. Flavor especially good.

Pkt., 10c; oz., 29c; ¼ lb., 85c. All Postpaid.

New York Wonderful

The Best Head Lettuce

507—Thousands of acres of this wonderful head lettuce are grown in California, Idaho, and New Mexico, and train loads are shipped to the Eastern markets. When you buy an extra good head of lettuce, it is probably New York Wonderful.

Pkt., 10c; oz., 35c; ¼ lb., 90c. All Postpaid.

Black Seeded Simpson

Most Vigorous Grower

509—A favorite forcing variety; it does not head, but forms a compact mass of leaves, lighter colored than any other leaf lettuce; stands the summer heat well, and is very large, making immense plants over a foot across.

Pkt., 10c; oz., 28c; ¼ lb., 60c. All Postpaid.

GRAND RAPIDS

The Best Leaf Lettuce

510—This is beyond question the best leaf lettuce. The crisp, crinkly leaves are light green in color; grow very erect and do not wilt. The easiest lettuce to grow, and the best flavored. Disease resistant. The kind to sow in the early Hot Bed.

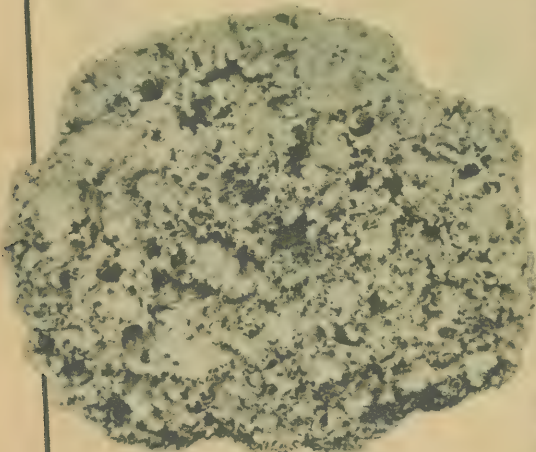

Pkt., 7c; oz., 22c; ¼ lb., 65c. All Postpaid.

CHICKEN LETTUCE

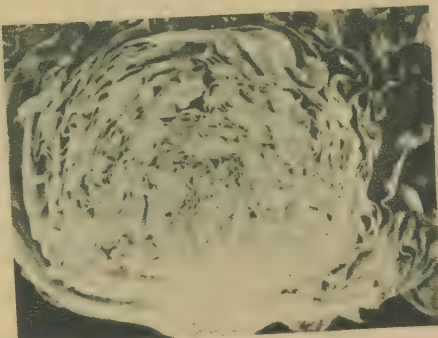

Greens for Your Poultry

508—Your poultry needs "green" food and this variety of lettuce is just the thing you will want to grow for this purpose. It is a genuine lettuce which will yield as much or more chicken or rabbit feed than any plant you may have used for "greens."

Pkt., 8c; oz., 17c; ¼ lb., 50c. All Postpaid.

Black Seeded Simpson

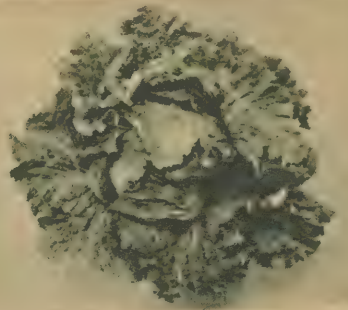

STONEHEAD

Thick and Heavy Head Lettuce

502—All of us like head lettuce, and our idea of a good head lettuce is the one that has the hardest head, one that is compact; one that will stand the hot dry weather that we have during the summer. Gurney's Stonehead Riviera Lettuce is just that and more.

Pkt., 10c; oz., 30c; ¼ lb., 90c. All Postpaid.

GREAT LAKES

The All-America Prize Winner

500—This one heads every time. It stands heat and sun extremely well. Resistant to sun-burn, is slow to throw up seed heads. It is outstanding for home gardeners, fine for market growers too. It is a white seeded variety and one of the most outstanding in recent years.

Pkt., 15c; oz., 35c. Postpaid.

PARSLEY

Parsley seed germinates slowly. Sow $\frac{1}{2}$ inch deep in early spring. 1 oz. plants 100 feet of row.

CHAMPION MOSS CURLED

217—A beautiful curled variety, fine for garnishing and for seasoning soups and salads.

Pkt., 10c; oz., 27c; $\frac{1}{4}$ lb., 75c. All Postpaid.

TURNIP-ROOTED PARSLEY

221—This vegetable has the same flavor as the regular parsley, but it produces small turnip-shaped roots that are used for flavoring soups.

Pkt., 10c; 1 oz., 30c; $\frac{1}{4}$ lb., 80c. All Postpaid.

PEANUTS

EARLY NORTHERN

219—Peanuts are easy to grow, easy to roast, and easy to eat. If you don't think so, take a pan of your home grown peanuts, put them in the oven for about 30 minutes and eat them while they are still hot. Good! Of course, they are good, and that is a good way to pass some of the long winter evenings.

We have been growing peanuts in South Dakota for a long time, and the variety we are offering is early enough to get ripe in a normal season.

Peanuts will stand lots of dry weather and still yield an immense crop of delicious nuts. Plan on planting some peanuts for the children.

With each order for peanuts, we give full instructions for planting and care. This assures you of good results.

3 oz., 10c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 3 lbs., 95c. All Postpaid.

SALSIFY

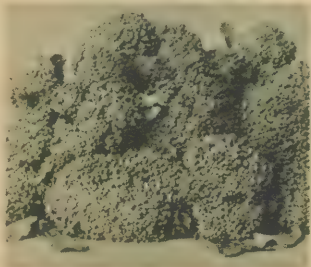

MAMMOTH SANDWICH ISLAND

205—DO YOU LIKE OYSTER STEW? If you do, PLANT SALSIFY and you can have delicious vegetable OYSTER STEW ALL WINTER. It is also delicious baked or creamed. Salsify is easy to raise.

Sow early in the spring, cultivate, harvest, and store the same as Parsnips. We handle only the Improved Mammoth Sandwich Island which we have always considered by far the best all-around variety to plant.

Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c. All Postpaid.

BROCCOLI

ITALIAN GREEN SPROUTING

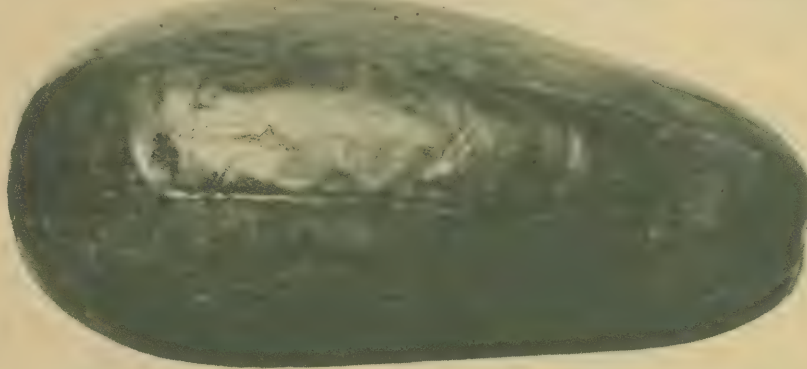

209—Here is a Broccoli that is as easy to raise as cabbage and is as good as Cauliflower. The plants do not make solid heads but produce an abundance of light green, tender sprouts which are delicious creamed or used for greens. Use central head first. Side shoots will follow.

Pkt., 10c; $\frac{1}{2}$ oz., 20c; 1 oz., 35c. All Postpaid.

GURNEY'S CHOICE JUICY

WATERMELONS 5¢ Pkt. Up

How to Plant Watermelons: Every farmer, and every city gardener, too, ought to plant watermelons. Nothing will make your family happier than a good melon patch. Watermelons like a warm loose soil. Give them plenty of room. Space hills at least 10 feet apart each way. Figure about 50 hills from an ounce of seed; two to three pounds is enough for an acre. Some of the best melon growers that we know believe in plenty of well-rotted stable manure plowed into the field before melons are planted. Corn planting time is about the right time to plant. Prepare your ground early in the spring, disc it several times to kill off the early weeds. You will save yourself a lot of cultivating later. Be sure to plant some of the new Sugar Lumps this year. I don't think you will find any better watermelon seed anywhere in the country. Gurney's melons be selected for seed stock.

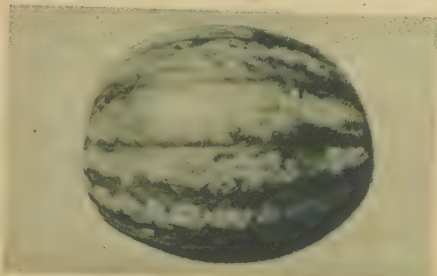

KLECKLEY'S SWEET

The Old Favorite

724—The leading watermelon for home gardens or market. For years, this has been the "yardstick" by which all other melons are compared.

Melons are long and cylindrical—usually weigh over 30 lbs. Rind, deep dark green. Flesh crisp, tender and fine grained. Unbelievably sweet. Brilliant red color. Seeds white. 85 days. Pkt., 10c; oz., 18c; $\frac{1}{4}$ lb., 45c; 1 lb., \$1.10. All Postpaid.

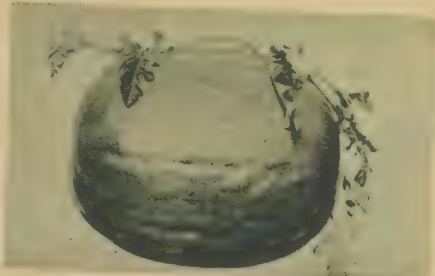

EARLY KANSAS

or Red Seeded Hutchinson

716—This is the best of the new watermelons developed in the last few years. Large, nearly round, light green with dark green stripes. A load of them makes a real show.

Early Kansas is at the head of the list for size, appearance and quality. They are fairly early, coming on the market after the early varieties are gone, and are so large and so good that they find a market at very attractive prices.

Pkt., 8c; oz., 18c; $\frac{1}{4}$ lb., 45c; 1 lb., \$1.35. Postpaid.

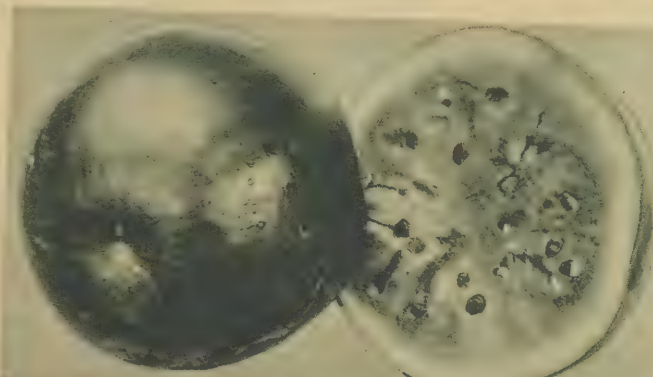

MASTODON RADIO

THE BIG ONE

707—Mastodon Radio Watermelon will produce more melons than any other variety; it also produces the largest melons; the flavor cannot be beat, and you will never find the hard core as in so many of the melons. It is not unusual to produce melons of this variety weighing ninety pounds. Its bright red flesh is of delicious flavor and the quality that calls for more.

Glossy dark green skin. Seed scarce. Pkt., 8c; oz., 20c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.25. All Postpaid.

One of the earliest and sweetest melons we know. Individual sizes, 8 to 10 inches through, just right for refrigerator, very thin rind, bears fruit over a long period, and one of the finest of separate colors. You have to try them to appreciate them. Comes in three Sugar Lump. 728—Yellow Sugar Lump, 726—Red Sugar Lump, 727—White.

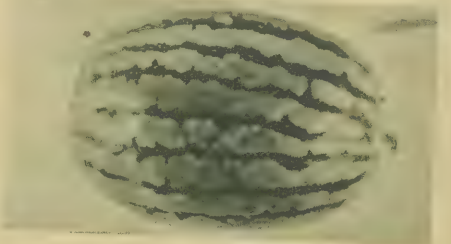

Your choice of the above 20c per pkt.; 35c per oz. or 85c per $\frac{1}{4}$ lb.

TRIAL PACKET: All 3 colors mixed. No. 729 pkt., 15c; oz., 25c; $\frac{1}{4}$ lb., 75c, postpaid.

EARLY CANADA

701—This new melon is earlier than any of our American melons, and we recommend this for planting as far North as melons have ever been grown. Weighs from 10 to 15 pounds. Light green skin. The vivid scarlet flesh is very firm.

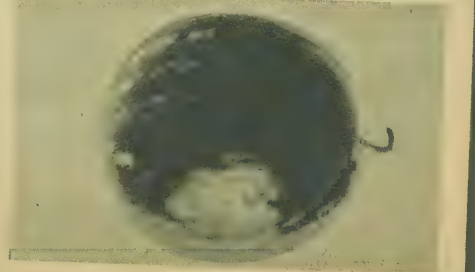

Pkt., 10c; oz., 19c; $\frac{1}{4}$ lb., 55c; 1 lb., \$1.65. All Postpaid.

DIXIE QUEEN

722—Good; I'll say they are, AND EARLY TOO. Not as large as Early Kansas but you can expect a lot of 40 POUND MELONS. The melons are light green with narrow dark green stripes, thin rind, nearly round, very heavy bearers. And best of all, they are sweet as honey, easy to grow and very prolific.

Pkt., 10c; oz., 22c; $\frac{1}{4}$ lb., 64c; 1 lb., \$1.80. All Postpaid.

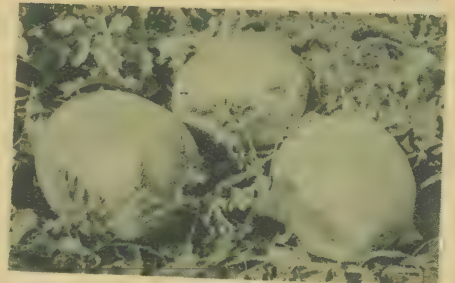

EARLIEST & SWEETEST

THE EARLIEST

714—The melons weigh from 12 to 15 pounds, the flesh is scarlet, very sweet, and fine grained. They are very heavy bearers, often producing 10 to 12 melons to a hill. We wish to say to our Northern customers that this is the one you should plant. There is little use in planting the large late varieties in your locality. They are only a disappointment—nearly ripe when the frost comes. You will always get under the wire with the Earliest and the Sweetest.

Pkt., 15c; oz., 35c; $\frac{1}{4}$ lb., 75c; 1 lb., \$1.60.

WINTER WATERMELON

Keeps All Winter

717—In the late Fall when all other melons are gone, go to the barn or strawstack where they are stored, get a big round Winter Watermelon so crisp that sometimes it will split wide open when you stick a knife into it. When it is cut, it is so bright scarlet in color and so attractive, that it looks good enough to eat—and it is.

If you are a market gardener, you can lengthen your melon season out over a month, and that means more profits.

The melons are nearly white, weigh from 15 to 25 pounds, and are very heavy bearers. Pkt., 10c; oz., 18c; $\frac{1}{4}$ lb., 45c; 1 lb., \$1.15. All Postpaid.

CITRON MELON For Pickles

721—Used exclusively for preserving or pickling. The rind is dark green, distinctly striped with light green. Will keep in good condition for some time after picking. You may plant beside regular melons. It will not cross pollinate to harm your other melons.

Pkt., 10c; oz., 20c. All Postpaid.

MIXED WATERMELONS

Boys' Melon Patch Special

710—An especially fine mixture for the Boys who like to grow melons. Give them room for a few and they will have some real fun.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c. All Postpaid.

New Sugar- lump Melon

Comes in 3
Separate
Colors

One of the earliest and sweetest melons we know.

GURNEY'S CRISP RADISHES

The radish is the champion garden vegetable—Champion because it is planted by more people than any other vegetable. Everybody should grow his own radishes. They grow anywhere and quickly, too. The early ones are ready in 21 to 28 days. Our varieties are all good but we're most proud of Earliest Fireball. One ounce will plant a hundred feet of row. Plant 4 or 5 kinds and make several plantings. Sometime try cooking a few (as you do turnips). You'll like them.

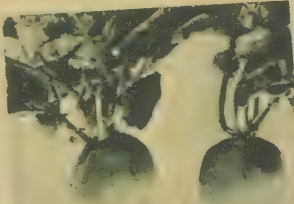

WHITE ICICLE

Favorite in Every Garden—the White One

448—White Icicle will make a good cash crop for you. This is an exceptional radish. It is even in size, good shape, perfectly white clear to the top—sweet, tender, and mild. Plant Gurney's White Icicle and be pleased with yourself. Ready to use in 25 days.

Pkt., 10c; oz., 20c; ¼ lb., 45c; 1 lb., \$1.00. All Postpaid.

CRIMSON GIANT

Gets Big But Not Pithy
437—Crimson Giant is a remarkable radish because it grows almost twice the size of an ordinary radish, and yet does not become hollow. Very mild and sweet. This brilliant, crimson radish is one of the best for the home garden.

Pkt., 10c; oz., 18c; ¼ lb., 40c; 1 lb., 95c. All Postpaid.

Earliest FIREBALL

The Earliest of All

440—Here's a radish with improved taste, crispness, and unusual sweetness. Bright scarlet color, and so early, too. Pure white flesh and one of the finest varieties you ever saw.

Pkt., 10c; oz., 20c; ¼ lb., 45c. All Postpaid.

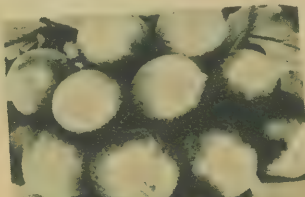

EARLY SCARLET GLOBE

The UNIFORM and EARLY One

451—In offering this Scarlet Globe Radish to the public we know we are offering the very best radish on the market. It is earlier than any other market variety, and the quality is so crisp and sweet that it always creates a demand for more.

Pkt., 7c; oz., 18c; ¼ lb., 40c; 1 lb., 95c. All Postpaid.

Scarlet-White Tipped The 2-Color Radish

444—This radish is our favorite; try it and see if it won't be yours too. It is a deep scarlet color with a distinct white tip. It matures in about 20 days. It is almost completely round. A Wonderful Radish.

Pkt., 7c; oz., 17c; ¼ lb., 37c; 1 lb., 95c. All Postpaid.

FRENCH BREAKFAST

Tender and Sweet

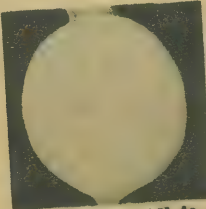

442—You will like this fresh, crisp, oblong radish with its small tops. It is a brilliant scarlet color with a white bottom. The flesh is crisp, white and of splendid quality.

Pkt., 8c; oz., 18c; ¼ lb., 40c; 1 lb., \$1.00. All Postpaid.

RADISH MIXTURE

For Radishes All Season—Trial Ground Varieties
453—Includes all these varieties and many others. All colors, sizes, and shapes. The perfect way to have radishes coming along all season.

Pkt., 5c; oz., 12c; ¼ lb., 30c. All Postpaid.

Mammoth White

456—A fine late Fall variety. A favorite among gardeners for Fall and Summer markets. Solid white flesh.

Pkt., 10c; 1 oz., 15c; ¼ lb., 35c; 1 lb., 95c. pp.

WINTER RADISH

Winter Radishes should be planted in July or early August.

Take them up in the Fall and store in your house, or cellar, same as other vegetables, and you will have fresh, crisp radishes all winter.

CHINESE ROSE

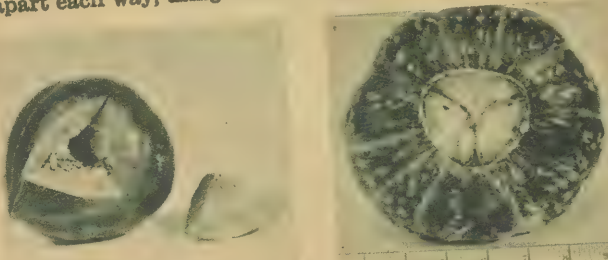

454—This is a medium long, blunt-rooted radish with pink skin and pure white, mild flesh. One of the best.

Pkt., 10c; oz., 15c; ¼ lb., 35c. Postpaid.

SQUASH

There is always a profitable market for good squash, many growers selling over \$200.00 worth from a single acre.

Plant at corn-planting time in hills about 10 feet apart each way, using 2 to 3 pounds of seed per acre.

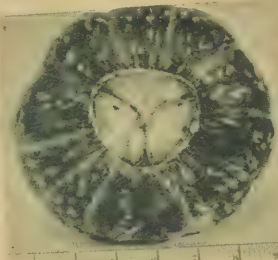

Golden Delicious

Delicious Deep Golden

738—This is a cross and retains all the wonderful flavor of the delicious with the golden color of Boston Marrow. The rich golden flesh is 2 inches thick, very sweet, and is never watery. A heavy yielder and a good winter keeper. Good baked, boiled, or in squash pies.

Pkt., 8c; oz., 24c; ¼ lb., 65c; 1 lb., \$1.75. All Postpaid.

GREENGOLD

The "Bake and Butter" Squash

753—(100 days.) A selection from Buttercup. "Eats" better than Hubbard, size 4 to 5 lbs. Color orange-yellow striped with green, shell thin and hard, flesh deep rich orange, dry peeling. Exceptionally sweet and fine flavored, has a small seed cavity, an extremely vigorous grower.

Price: Pkt., 10c; oz., 24c; ¼ lb., 65c; 1 lb., \$1.75. Postpaid.

WARTED HUBBARD

Winter Keeper

745—More Hubbard Squash are raised than any other kind. They are large, oval shaped, with a very hard, warty rind which makes them best as winter keepers. The thick yellow flesh is always sweet and dry when cooked. Raise as many Hubbard as you wish, there is always a market for them.

Pkt., 10c; oz., 25c; ¼ lb., 65c; 1 lb., \$1.75. All Postpaid.

TABLE QUEEN

Yields Big—Keeps Well

752—This is the perfect individual squash. The flesh is firm and sweet. It cooks dry and mealy, and is just the right size for one person, if he likes squash. They are dark green, pear shaped, about 5 inches in diameter, and 6 inches long. I have seen 100 squash on one vine. They are fairly good keepers but should be used before March 1st.

Pkt., 10c; oz., 20c; ¼ lb., 55c; 1 lb., \$1.50. All Postpaid.

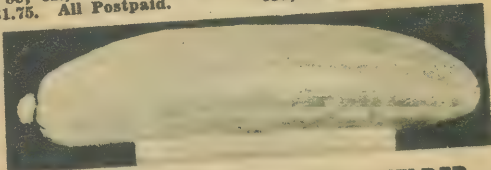

DELICATA

The "Individual" Baker

741—New York Strain. A small squash of unusual quality. Smooth skin, a light golden color striped green. Thick flesh, sweet, fine texture. Very early and extremely productive.

Pkt., 10c; oz., 18c; ¼ lb., 48c; 1 lb., \$1.35. All Postpaid.

BANANA SQUASH — SURE YIELDER

736—This is the heaviest yielding of all squashes. The big thrifty vines produce 8 to 10 squash that grow 2 feet long, 6 or 8 inches in diameter, and weigh 20 pounds each. The shell is a grayish green, and the solid flesh is a beautiful orange yellow. It will stand a lot of drought, heat, and damage by insects, and still produce a crop. One of the best, both for table use and stock feed.

Pkt., 10c; oz., 18c; ¼ lb., 48c; 1 lb., \$1.35. All Postpaid.

PEPPERS

Peppers are what keep the Mexican people so healthy. They're full of vitamins, and every gardener ought to raise his own. Like any soil except low wet land. Give plenty of room. Handle and plant just like tomatoes.

HARRIS EARLY GIANT

The Big and Meaty One

647—One of the largest of the sweet peppers and one of the earliest. The large plants are literally covered with immense thick fleshed peppers, so large that it takes only 40 to 50 to fill a bushel basket. Peppers are easy to raise and are delicious in chile, catsup, salads, or stuffed and baked.

Pkt., 10c; ½ oz., 28c; 1 oz., 48c. All Postpaid.

EARLY BEAUTY

The Earliest

645—This extra early pepper has made THE BEST RECORD of any pepper in our trial gardens. It is the earliest of the large sweet peppers. Short, broad, thick walled fruit. JUST THE RIGHT SIZE AND SHAPE FOR STUFFING. They are four lobed, about as wide

as they are long. The only pepper with thicker side walls is Calif. Wonder, which is about 3 weeks later than Early Beauty. For an immense crop of early, sweet, smooth, thick meaty peppers, plant Early Beauty.

Pkt., 10c; ½ oz., 32c; 1 oz., 52c. All Ppd.

CALIFORNIA WONDER

The Giant

649—The flesh of this new giant sweet pepper is often ½ of an inch thick, very mild and juicy. A heavy yielder of the largest, finest peppers you have ever seen. Plants are vigorous upright growers. Fruits large, very smooth. A uniform deep green color changes to bright crimson. We believe you'll like this pepper best of all.

Pkt., 10c; ½ oz., 28c; 1 oz., 48c. All Postpaid.

LONG RED CAYENNE

The Hot Pepper

648—The true Cayenne. Long Red and Hot. Fruits are a full inch or more in diameter at the shoulder and 4½ to 6 inches long. For canning, drying or pickling. Grows anywhere. A sure yielder.

Pkt., 10c; ½ oz., 25c; oz., 40c. All Postpaid.

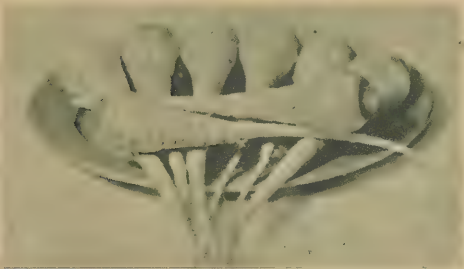

EARLY PIMENTO

Sweetest of All

644—The tomato shaped pepper. Fruits round, flat in shape. Deep Red. Very mild and sweet. You can eat them like apples. Fruits grow upright on strong two and one-half foot plants. Pimentoes themselves are about 3 inches in diameter, thick fleshed and beautiful to look at. Your garden should include some of these sweetest of sweet peppers if you possibly can spare the room.

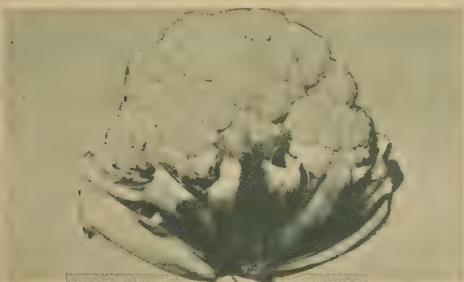

Price: Pkt., 10c; ½ oz., 25c; oz., 40c. Postpaid.

Parsnips

HOLLOW CROWN PARSNIP

271—The best and most popular variety of all. Vigorous grower, very dependable, superb sugary flavor. Roots about 3 inches in diameter and shoulders taper to a smooth point. Hollow crown, flesh white. Tender, exceptional quality. Pkt., 10c; oz., 22c; ¼ lb., 70c; 1 lb., \$1.85. Postpaid.

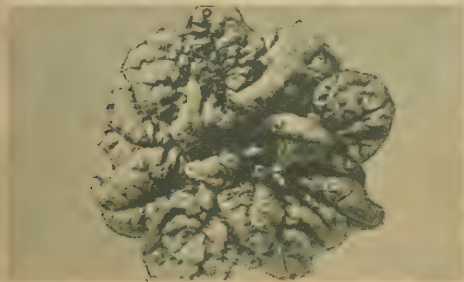

Cauliflower

EARLIEST MARKET

223—By careful selection and breeding, we have kept this wonderful Cauliflower at the top of the list. Large size, fine grain, a beautiful white color, a sure header, and above all, it is very early.

Pkt., 15c; ¼ oz., 85c; ½ oz., \$1.55. All Postpaid.

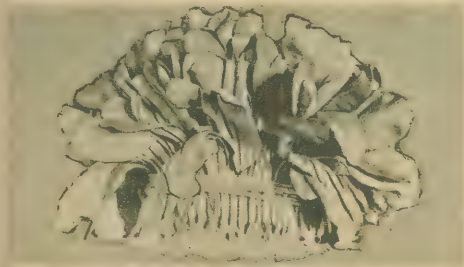

Spinach

The Long Standing Kind
Sow seed in early spring—1 inch deep.

KING OF DENMARK

207—Spinach is one of the vegetables everyone should eat, and while you are eating spinach, eat the best, which is King of Denmark. This large, thick-leaved spinach is very slow to go to seed and holds its fine quality after all other varieties are gone. A fine strain for canning. King of Denmark forms large compact tufts of dark green crinkled leaves.

Pkt., 10c; oz., 17c; ¼ lb., 42c. Postpaid.

Mustard Spinach

OR TENDERGREEN

222—This new vegetable is all its name implies—a very mild mustard with a creamy spinach flavor. Everyone should eat greens and here is something different and better.

Pkt., 10c; oz., 18c; ¼ lb., 45c. All Postpaid.

Egg Plant

Sow in hotbeds very early in the spring and transplant to 2 or 3 feet apart, in very rich, warm ground. Hoe often and hill up gradually until they blossom.

657—BLACK BEAUTY. The best variety in cultivation, being early, a sure cropper and of fine quality. The fruit is large, oval, very deep purple.

Pkt., 10c; ½ oz., 28c; 1 oz., 48c. All Postpaid.

ONIONS

From SEED, PLANTS or SETS

Yellow Sweet Spanish

303—Riverside (110 days). Largest and mildest onion for the north. Often weighs over 1 lb. Yields of 1000 bu. per acre are common. Very mild and sweet. Always a good market for these. Pkt., 10c; oz., 75c; ¼ lb., \$2.25; 1 lb., \$6.75. Postpaid.

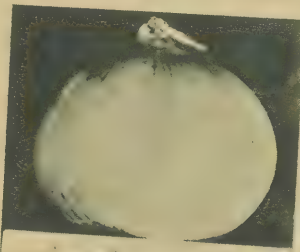

Southport White Globe

307—(110 days)—Here is the best white onion that you can cultivate. It is large, perfect globe, excellent quality, a good keeper, and silvery white in color. Pkt., 10c; oz., 75c; ¼ lb., \$2.25; 1 lb., \$6.75. Postpaid.

Dakota Red Globe

309—This Southport Red Globe onion has been raised in South Dakota for many years. It is a very heavy yielder and is from 10 DAYS to 2 WEEKS EARLIER than the regular Southport Red Globe. Pkt., 10c; oz., 60c; ¼ lb., \$1.75. Postpaid.

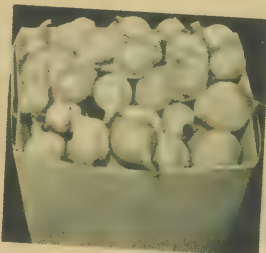

Southport Yellow Globe

302—(110 days to maturity)—This beautiful pale yellow onion is the best keeper of all the yellow onions. A very heavy yielder of large, sweet, mild-flavored onions. Pkt., 10c; oz., 48c; ¼ lb., \$1.40; 1 lb., \$4.20. All Postpaid.

White Welch Bunching

314—This is absolutely the best green onion. The seed can be planted in the spring, and by mid-summer you can start using the onions. It is a perennial, and a bed once established will last for years. Pkt., 10c; ½ oz., 45c. Pp.

ONION SETS

Everyone should plant onion sets for early green onions, and many prefer to grow their large onions from sets instead of from seed, as they can market them much earlier while the price is high. Our sets are small sized.

"A quart's a pound, the world around."

PRICES: Postpaid

317—Yellow Bottom Sets: 1 lb., 35c; 4 lbs., \$1.25; 8 lbs., \$2.25.

No red or white sets this year. Order yellow ones—they are the best.

Write for prices on larger quantities.

Onion sets should be planted real early in the spring. Plant them deeply if you want too much soil against them when cultivating them. One quart will set 50 feet of row. Harvest when half the tops have fallen.

ONION PLANTS

You are sure to get fresh onion plants from Gurney's, as our big, vigorous plants are shipped to you the day they are pulled. They can be planted very early because light freeze will not harm them.

The onions are very large and very mild, thin skinned, white fleshed, sweet and tender. A crate of 6000 plants should produce from 50 to 75 bushels of immense sweet onions.

We can furnish 2G10 Yellow Sweet Spanish, or 2G11 White Bermudas.

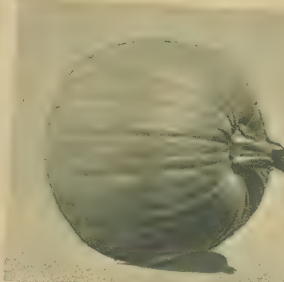

3 Bunches (about 300 plants) Postpaid \$0.75
5 Bunches (about 500 plants) Postpaid .98
10 Bunches (about 1000 plants) Postpaid 1.92
30 Bunches (about 3000 plants) Postpaid 4.49

Write for prices on crate lots.

Onion plants should be set about 4 or 5 inches apart in rows about 16 inches apart. A little frost will not hurt the plants. Get them out just as soon as you can in the Spring. If you want to make a little extra pin money this year put out an acre or half acre of onions. Five pounds of seed is enough for an acre. Good onions are always in demand.

PUMPKINS

FOR PIES AND STOCK FEED: 1 Ounce for 25 Hills; 4 Pounds Per Acre. Pumpkins are easily grown and profitable for stock feeding. At time of corn planting scatter seeds in every fourth or fifth hill, or for a large crop sow in May in good warm soil, in hills eight to ten feet each way.

DICKINSON

← The New Pie Pumpkin

762—The outstanding new pumpkin. Rich, golden colored flesh. So sweet that additional sugar, starch, or coloring is unnecessary. The brilliant color of the flesh makes unusually attractive pies—richer, sweeter and better than you have ever eaten before. Seed supply very limited.

Pkt., 10c; oz., 20c; ¼ lb., 45c. All Postpaid.

SMALL SUGAR

← For Finest Pies

766—This variety is smaller than the Large Field, but of finer grain, sweeter and very prolific. We recommend small sugar as one of the best for pumpkin pies. Everywhere it is planted, it becomes a favorite of the family cook.

Pkt., 7c; oz., 20c; ¼ lb., 45c; 1 lb., 98c. All Postpaid.

Connecticut Field

← For Pies or Stock

764—A good keeper and an immense yielder of fine stock food because of its enormous size—often over 100 lbs. each. An old favorite. Makes fine pies, too.

Pkt., 8c; oz., 12c; ¼ lb., 30c; 1 lb., 85c. All Postpaid.

Mammoth King

← The Biggest of All

769—The largest variety ever introduced. 100-lb. pumpkins are not unusual and single vines often produce 4 or 5 large pumpkins. An enormous yielder, having produced over 100 tons per acre. The flesh is very thick, bright orange color and of fine quality.

Pkt., 10c; oz., 20c; ¼ lb., 50c; 1 lb., \$1.25. All Postpaid.

"ODDS and ENDS" Department

Three Finest TURNIPS

ASPARAGUS

200—MARY WASHINGTON: Everyone likes Asparagus, and every home should have an Asparagus bed. It is easy to raise and once established will last a lifetime. Mary Washington is the largest of all and is rust resistant. Don't let another year pass without an Asparagus bed.

Pkt., 10c; oz., 20c; ¼ lb., 50c. All postpaid.

275 ROSELLE—JELLY PLANT

An annual, should be started in hot bed or cold frame and transplanted 15 in. apart in garden rows as soon as danger of frost is over. The culture is essentially that of the egg-plant. The plant usually grows 4 to 5 ft. high, and produces a bush of many stalks. No special tillage or care is required. Before the bolls are woody or stringy, they are broken off by hand. They may be utilized fresh, or dried for future use.

In making jelly, remove seed pod and boil bolls 15 to 20 minutes. Strain, add two-thirds as much sugar as you would for currant jelly. Then continue boiling and testing until it will jell. Pkt., 15c; ½ oz., 35c, postpaid.

CHIVES

311—Chives (Schnittlauch): This perennial plant of the onion family is used for seasoning soups, salads, and stews. It is easy to get started, and once established will grow for many years.

Pkt., 10c; ¼ oz., 35c. Postpaid.

LEEK

231—Leek—September Giant: This new giant white Leek is the largest and best of the Leek family. The stalks are often 12 inches long and 2 inches in diameter. Soups and salads flavored with Leek are delicious.

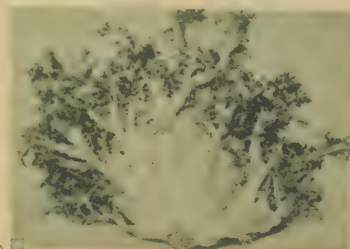

Pkt., 10c; ½ oz., 25c, ppd.

OKRA OR GUMBO

236—Extra Early Dwarf Green: Okra is delicious for stews, for flavoring soups, and for salads. It is easy to raise and yields immense crops. The pods are used when from 1 to 2 inches long. Why not try this different one?

Pkt., 5c; oz., 15c, postpaid.

ENDIVE

For Greens or Salad

234—Easy to raise and good to eat as greens or in salads. When fully grown, tie over the outer leaves to blanch, making beautiful, creamy white heads.

Pkt., 10c; oz., 25c, postpaid.

CELERY GOLDEN PLUME

662—This new self-blanching celery is very early, a beautiful golden yellow and is always crisp and tender. Eat fresh celery from your own garden. It is better.

Pkt., 10c; ½ oz., 33c; oz., 48c, postpaid.

GIANT PASCAL

661—This is the largest celery grown. The stalks are very tall and heavy, and when blanched are yellowish white. The heaviest yielder of all, and the best winter keeper.

Pkt., 10c; ½ oz., 33c; oz., 48c, postpaid.

HERBS

245—Dill: The leaves are used in soups, and in pickles. Pkt., 5c; oz., 15c, postpaid.

241—Caraway: Cultivated for the seed used in confectionery and medicine. Pkt., 7c, postpaid.

246—Sage: The leaves and tender tops are used in stuffing and sauces. Pkt., 7c; postpaid.

CELERIAC

208—LARGE SMOOTH PRAGUE: A variety of celery having turnip shaped roots which are used for seasoning soups, meats, and in salads. This is the best and largest variety, and is very easy to raise.

Pkt., 10c; ½ oz., 25c. All postpaid.

GARLIC BULBS

229—Garlic is always rather high in price and often you are unable to buy it when needed. Why not raise your own and supply your neighbors?

5c per bulb; ¼ lb. 25c; ½ lb. 35c. All postpaid.

TOBACCO

235—An excellent strain for northern states. Does beautifully in Wisconsin and Minnesota and makes a fine crop in the middle states too. Grow your own tobacco, on your own farm. Cultural directions printed on the packet. Price: Pkt., 6c; ¼ oz., 20c; ½ oz., 35c. All postpaid.

RUSSIAN SUNFLOWER

239—Produces immense heads, as much as 20 inches in diameter, and yields of 50 bushels per acre are not uncommon. The seed is used for chicken feed, and the stalks make silage said to be more nutritious than corn.

Pkt., 7c; oz., 15c; ¼ lb., 25c; 1 lb., 65c. All ppd.

SUNFLOWER SEED

240—For bird feed. 5 lbs. \$1.25, postpaid.

TURNIPS

Turnips are easy to raise. Early varieties can be sown in the spring, but most kinds do best as a fall crop. Sow 2 to 3 lbs. to the acre the last part of July. 1 oz. will drill 150 feet of row. Turnips grow until severe freezes.

Store in cave, basement or pit. Purple Top White Globe is the best all-around variety.

GURNEY'S PURPLE TOP WHITE GLOBE TURNIP

For Fine Flavor

807—This all-season turnip is sweet and tender from the time it is large enough to use until the following spring. We consider this the finest table turnip on the market today, and also an immense yielder of rich stock feed. Pkt., 10c; oz., 15c; ¼ lb., 35c; 1 lb., 80c. All postpaid.

PURPLE TOP STRAP LEAF TURNIP

Good for Storage

Sow Early or Late

896—Flat; fine flavor and one of the most popular varieties grown. When sown late it is one of our best varieties, an excellent keeper.

Pkt., 7c; oz., 12c; ¼ lb., 35c; 1 lb., 98c. All postpaid.

PURPLE TOP YELLOW RUTABAGA

Heavy Yielder

808—More of this variety is raised than any other. The roots are purple above and an attractive yellow below. The light yellow flesh is firm, sweet, and fine flavored. It has very small necks and no side roots. One of the best for table or for stock feed.

Pkt., 7c; oz., 20c; ¼ lb., 35c; 1 lb., \$1.00. All postpaid.

RHUBARB

237—Rhubarb: It is easily grown and produces abundantly. It comes the first of anything in the spring, just when you want it. It will grow any old place and will thrive there for years.

Pkt., 7c; oz., 20c; ¼ lb., 50c. All postpaid.

SEED POTATOES

From the Black-Land Non-Irrigated Sections of the Dakotas

To give you better and cheaper seed potatoes for your money we now have our own potato buyers operating in the newer and better seed potato producing areas. They are men who are familiar with the best producing sections and with the best growers in those areas, men who go right into the pits and inspect the potatoes before buying them. These men are experienced traders in the seed potato business; men who can judge the best lots and then buy them at rock bottom prices in the fall when the market is lowest.

SEED POTATOES

Sold in

100 lb. Bags only

(WE CANNOT BREAK BAGS)

Prices are F.O.B.

Growing Station

EARLY OHIO

Although the crop of Early Ohios was extremely short this year, we were fortunate in securing our stock from one of the more reliable growers. Smooth, firm skinned, shallow eyes, with that oblong shape and dull red color characteristic of this old favorite.

PRICE: 100 lbs. \$5.45

9 Reasons why you should order seed potatoes from GURNEY'S:

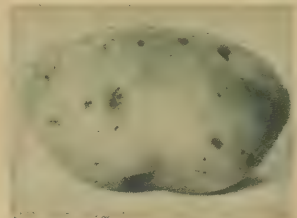

- 1—Inspected and approved in the pits before they are bought.
- 2—Only experienced men buy and handle our seed potatoes.
- 3—We buy DIRECT from the growers. No extra commissions.
- 4—We buy only in sections known to produce the best seed.
- 5—We ship all orders received before March 1st DIRECT from the pits. No holding in warm storage.
- 6—All off-size, knobby, bruised, damaged potatoes culled out.
- 7—Only hardy northern-grown seed stock.
- 8—Seed potatoes are from pits that are disinfected regularly.
- 9—The 1947 crop in the north is the finest for quality in many years.

BLISS TRIUMPH

A fine, early, round red potato. Uniform size, shape, and a good heavy yielder. Most widely planted variety in South Dakota. Unusually high quality, a very fine keeper. Plant this potato as the mainstay in the home garden. You can't miss here, as this variety will pay off for everything put into it. One of the best for digging early and boiling with the jackets on.

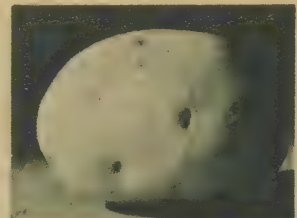

Price: 100 lbs. \$4.35 F.O.B. Growing Station

IRISH COBBLER

A medium season, main crop potato, smooth and a favorite of everyone who grows it. Tubers are slightly flattened, blocky, with eyes of medium depth. An extra fine potato for the home garden. Keeps splendidly if allowed to fully mature. Cooking quality is of the highest. This old and proved variety has proved its value many times over.

Price: 100 lbs. \$4.35 F.O.B. Growing Station

PONTIAC

Pontiac is one of the newer potatoes. It is a cross between Kohtadin and Triumph, and by far the best yielder and best quality red potato in our section. Good for boiling, baking or frying. Be sure part of your crop this season is Pontiac and see the extra yield and finer quality you get. Our supply is limited.

Price: 100 lbs. \$4.95 F.O.B. Growing Station

EARLY WARBA

The earliest potato grown today. A high yielder and of excellent quality. The eyes are pink, inclined to deepness, disease resistant and produces a crop of potatoes in hot, dry weather when others fail.

Early Warba for extra earliness, fine size and shape, excellent cooking and eating quality.

Price: 100 lbs. \$4.95 F.O.B. Growing Station

BOYS and GIRLS Win Cash and Prizes!

Join GURNEY'S SEED KIDS—Sell Only 10
Collections and Win \$1.25 Cash or
A VALUABLE PRIZE

You Need No Money to Get Started

Here's your chance to earn money of your very own—or win valuable prizes—just by using some of your spare time to sell Gurney's Garden Seed, at a special low price available to Gurney's "Seed Kids" only. The profits from the sale of the seeds are yours, either as cash or prizes. You really get the most in the prizes because you get them at our big-lot buying price.

Here's the Deal—

1. Fill out the coupon and send it to us. Send no money. Be sure to get your parents to sign also so we will know you have their approval.
2. We will send you ten collections of seeds, postpaid. The postman won't ask for any money.
3. You sell the seeds—49c for each collection of 10 packets—less than 5c a packet. That's a bargain and your friends and neighbors will know it.
4. After you have sold the packets, send us the money. For 10 collections, send us the \$4.90 and tell us what prize you want; we will send it at once. Or, if you want the cash, keep out \$1.25 for yourself and send us \$3.65.
5. If you don't sell all 10 collections, keep 10c for yourself for each collection sold, and send us the balance of the money and the seed. If you don't sell everything in one month, settle on this basis.
6. The collections must be sold at 49c each—the same price to all. That is the fair way.

NOTE TO PARENTS: We are not trying to make money on these seeds or prizes. The new friends we make is our reward. For the children, it is good experience and training—it gives them a chance to learn how money is earned. We buy these prizes from wholesalers and manufacturers, and pass them on to the children at these low prices. The prizes are a real value. The seeds the children sell also are a big value.

DON'T put off until some other Gurney "Seed Kid" has sold your neighborhood. Get an early start and you will sell more seed, and sell it quicker and easier. Fill out the coupon and send it to us today.

Gurney's "Seed Kids" Collection 10 Giant Packets for 49c Easy to Sell—Packets Less Than 5c Each

These collections will go like hot cakes for each one includes 10 giant packets of the most popular garden and flower seeds, all for 49c—less than a nickel apiece, or less than your customer can buy them for anywhere. The collection is put up in an attractive package which makes it easy to sell. Your customer is going to be very pleased.

Each collection contains enough seed for a good sized Home Garden. One packet each of:

Early Scarlet Globe Radish
Early Coreless Carrot
Early Simpson Lettuce
King of Denmark Spinach
Icicle Radish
Early Dark Red Beet
Earlibell Tomato
Everbearing Cucumber
American Branching Aster
California Giant Zinnias
—Mixed Colors

ALYSSUM

Popular for Border or Edging

1001—Carpet of Snow: This compact dwarf Alyssum only grows 3 or 4 inches tall, and literally smothered all summer in a mass of snow white flowers. For borders or edgings it beats all others.

Pkt., 10c; ¼ oz., 18c. Postpaid.

AGERATUM

Dwarf Grower for Borders

1004—Little Blue Star: This fine new Ageratum grows only 6 inches tall and is covered with rich azure blue flowers. Very good for borders or window boxes. One of the most popular and most satisfactory, easy-to-grow flowers of our entire list.

Pkt., 10c. Postpaid.

BALSAM or LADY SLIPPER

Bush Balsams Are Different

1036—The New Double-Bush Balsam: This new bush Balsam is entirely different. The large double flowers are not hid under the leaves like common Balsam. They cover the dwarf, bushy plant. Plant likes rich soil and a sunny location. Flowers are full double and of all colors.

Pkt., 15c. Postpaid.

1037—Camellia Flowered Mixed; The Old Fashioned kind. A large flowered Balsam, easy to raise, and produces solid spikes of double bright colored flowers. An old favorite from grandmother's garden. This strain has many variegated blooms.

Pkt., 10c; ¼ oz., 15c. Postpaid.

BACHELOR BUTTON

The Hardest Annual

1070—Corn Flower—Jubilee Gem: The vivid Cornflower blue blossoms completely cover the sturdy plants, and make a mass of blue in your garden from early summer until frost. Height, 1 foot.

Pkt., 10c; ¼ oz., 25c. Postpaid.

SWEET SULTAN

1240—The bushes are about four feet high and covered with beautiful, fluffy double flowers. Extra fine for cutting and delightfully fragrant. Will keep for over a week in water if cut when about to open.

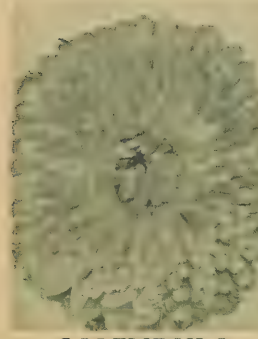

Pkt., 10c; ½ oz., 25c. Postpaid.

LOBELIA

1051—Crystal Palace. One of the finest bedding plants. Our strain grows only 4 inches high, making a compact plant, covered all summer with deep blue flowers. A favorite for edging. Stands sun but prefers shade.

Pkt., 10c; 2 for 18c. Postpaid.

CALENDULA

For Brilliant Blooms

1046—Chrysanthemum Flowered Mixed—The flowers resemble a large Chrysanthemum, and are on extra long stems, making them ideal for cutting. Height, 18 in. Long curving outside petals. Incurved center petals. Pkt., 10c; ½ oz., 20c. P.P.

1045—Orange King: Very double, dark orange with darker center. Perfect form—double clear to center. Flowers often measure 4 in. across. Pkt. 10c; ½ oz., 18c. Postpaid.

COSMOS—Tall, Stately, Graceful

1077—Early Klondyke Orange Flare: An All American Winner—vivid orange flowers. They bloom early, and if kept picked continue until frost. For cut flowers or for show and color in the yard, plant Orange Flare, 3 feet. Pkt., 10c; ¼ oz., 18c. Postpaid.

1083—Early Flowering Single Mixed: This new race of early Cosmos grows about 3 feet tall and produces immense flowers 3 or 4 inches across 50 days from the planting of the seed. Long flower stems. Good cut flower. Colors are Red, Rose, Pink and White, mixed. Pkt., 10c; ¼ oz., 18c. Postpaid.

1078—Early Flowering Double Mixed: Double Cosmos of the early type are more popular every year. The attractive flowers with an outer row of petals and a large crested center are very beautiful. The stems are long and the flowers last for days when cut. Pkt., 10c; 2 for 18c. Postpaid.

CASTOR BEAN

Tropical Giants

1346—Zanzibarensis: I want everyone to enjoy some of the tropical beauty of these Giant Zanzibarensis Castor Beans. These Giant plants often grow nearly 20 feet tall and the leaves are sometimes 2 feet across. For quick shade or windbreak, you can't beat these Giant Castor Beans. Some claim you'll not be bothered by mosquitoes if you plant castor beans around the yard. Pkt., 10c; ½ oz., 17c. Postpaid.

CLARKIA

Likes It Hot and Dry

1074—Double Finest Mixed: One of the best low-growing Annuals. The pretty little double flowers completely cover the long slender stems. A good cut flower. Height, 18 inches. Will grow on poor, thin soil. One of the sure-fire, easy-to-grow annual flowers.

Pkt., 10c; ¼ oz., 20c. Postpaid.

CALLIOPSIS

Always Sure to Bloom

1056—Finest Mixed: A very showy border plant, producing flowers in nearly every shade of yellow, orange, crimson red and brown. Plants have many branches and bear an abundance of flowers. Height, 8 inches.

Pkt., 10c; ½ oz., 20c. Postpaid.

COCKSCOMB

The Giant Kind

1084—Giant Mixed—The largest and most beautiful of the Cockscomb. The immense heads are frilled and corrugated like a Cockscomb. Can be dried for Winter bouquets. Brilliant mixed colors. They are sometimes over a foot long and borne on strong plants.

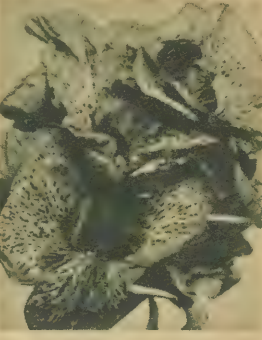

Pkt., 10c; 2 for 18c. Postpaid.

Chinese WOOLFLOWER

1072—Height, 3 feet. The giant flower heads are from 4 to 6 inches in diameter, very light and fluffy, resembling a ball of brightly colored wool. They come in all shades of pink and red. A few plants will furnish cut flowers all summer.

Pkt. 10c; ¼ oz. 20c. P.P.

CANNAS from SEED

You Can Grow Cannas From Seed!

1067—Extra Choice Mixed: Grow Cannas from seed. Produce new varieties. Height, 2 to 10 feet. They come in all shades of red and orange. Many bloom the first season. Seedlings are interesting and different.

Pkt., 10c. Postpaid.

CANDYTUFT

Fragrant and Attractive

1063—Giant Flowered Mixed: These pretty little flowers only grow 8 inches tall, and are fine for beds or borders. The flowers completely cover the plants and come in many colors. Nice for hanging baskets, pots and borders, too.

Pkt., 10c; ¼ oz., 15c. Postpaid.

DAHLIAS

Grow Them From Seed

1090—Finest Mixed: Dahlias from seed will bloom the first year. The flowers will be of many colors and sizes, some of them perhaps 6 or 8 inches across. This mixture will give you dozens of kinds of Dahlias—singles and doubles of various forms and colors. Directions for growing—printed on the package.

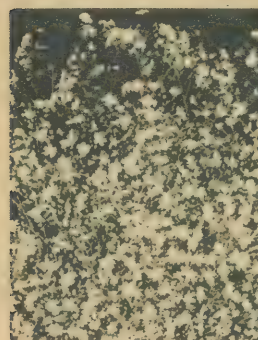

Pkt., 10c; 2 for 15c, ppd.

STRAW FLOWER

For Winter Bouquets
1112—Helichrysum Mixed: Everyone likes winter bouquets which add a touch of color to the home. These beautiful straw flowers come in many beautiful colors, and if picked when buds are opening, will retain their beauty for years. Height, 3 feet. Large double flowers. All colors including yellow, orange, pink and red.

Pkt., 10c; ¼ oz., 18c. Ppd.

BABY'S BREATH

Blooms—First Season

1107—(Gypsophila): The flowers are small, star-like and borne on feathery sprays, which are highly esteemed for cut flowers, as they lend a most graceful effect when combined with other flowers in bouquets.

Pkt., 10c. Postpaid.

GOURDS

1104—Large and Small Varieties Mixed: Gourds are grown for ornaments and for use such as Nest Eggs, Dippers, Bowls, Pipes and Bird Houses: They come in all colors. Some produce small egg-shaped fruits, others grow to be ten feet long. They can be forced into strange shapes by tying them. Over 25 varieties in this mixture.

Pkt., 10c; ½ oz., 17c. Postpaid.

PINKS

An Old Favorite

1204—(Dianthus)—Mixed: This old-fashioned flower is always satisfactory. It comes in many colors and forms. Many of the flowers are beautifully fringed. They bloom the first season and last until frost.

Pkt., 10c. Postpaid.

FOUR O'CLOCK

For a Flower Hedge

1093—Giant Mixed: Anyone can raise Four O'Clocks, and everyone likes them. They grow about 2 feet tall and make good hedges, and are covered with a mass of flowers in the afternoons and evenings. Hundreds of funnel shaped flowers—red, yellow, pink and white.

Pkt., 10c. Postpaid.

FORGET-ME-NOT

1075—Victoria Blue: This charming little blue flower succeeds best in damp, shady situations, but will thrive in almost any soil. Victoria Blue is the largest flowering of any. Pkt., 10c. Postpaid.

Pkt., 10c. Postpaid.

GERANIUM

1094—Double and Single Mixed: Did you know you could grow Geraniums from seed? You can, and you may produce new and valuable varieties. This fine seed will produce both double and single flowers in many colors. It is surprising the number of good plants you will get from 1 packet of seed.

Pkt., 10c. Postpaid.

GURNEY'S Easy to Grow ANNUAL FLOWER SEED

Pkt., 10c; ¼ oz., 17c; ½ oz., 25c. All Postpaid.

CALIFORNIA GIANTS

The Largest Zinnia Grown

Big loose petals. Huge flowers often as large as dinner plates. Bloom all summer. Does well on poor soil.

1260—Narcissus—A

golden yellow. Pkt. 10c.

1261—Red Coat—Deep

Red. Pkt. 10c.

1262—Peach Blossom—

Clear Pink. Pkt. 10c.

1405—Giant Mixed: The

California Giants are bright-

er colored than other Zin-

nias. They come in all col-

ors from pure white to the

deepest crimson.

Pkt., 10c; ¼ oz., 17c;

½ oz., 25c. Postpaid.

LILLIPUT or BABY ZINNIA

Finest Zinnia for Bouquets

1253—You've never seen such a free blooming plant. Most as many flowers as leaves—and pretty ones, too. Blooms are an inch! A grand assortment of bright, snappy colors.

Pkt., 10c; ¼ oz., 15c; ½ oz., 25c. All Postpaid.

NOVELTY ZINNIAS

1252—Dwarf Mexican (The Most Colorful Zinnia). Small 1 inch flowers by the thousands. Lend themselves to bedding or bouquets. Blooms are brilliant combinations of yellow-orange, mahogany, red and in-between shades. Pkt., 10c. Postpaid.

1265—FANTASY BRILLIANT MIXED: A rich dazzling Zinnia of the Shaggy petaled type. In our trial gardens this year, Fantasy attracted more attention and more Oh's and Ah's than any other flower. Brilliant mixed colors.

Fantasy Zinnias with their narrow interwoven petals are a great addition to the Zinnia family. Pkt., 15c; 2 for 25c.

1264—PINCUSHION ZINNIAS—Also known as Scabiosa Flowered. Flowers look a lot like Scabiosas. Very full, well rounded on good stems. A mixture of color. Easy to grow. Pkt., 15c. Postpaid.

Dwarf Mexican

Pincushion Zinnia

Portulaca--ROSE MOSS

Likes Hot Dry Location

No other flower makes such a dazzling display of color and beauty as a bed of many hued Portulaca. Height, 4 inches. The hotter, dryer and poorer the place—the better Rose Moss blooms. Fine for borders.

1195—DOUBLE FINEST MIXED: A select strain of fully double flowers in every color imaginable. Packet, 15c. Postpaid.

1196—SINGLE MIXED: Our best rainbow mixture. Pkt., 10c; ¼ oz., 25c. Postpaid.

ANNUAL PHLOX

For Brilliant Colors

Plant Annual Phlox for a dazzling, unfailing display of color. They bloom early and last until severe freezing. Height, 6 to 12 inches.

1194—DRUMMONDI GRANDIFLORA MIXED: This fine new strain has largest flowers and most vivid colors imaginable. You'll like the dazzling reds, as much as the brilliant pinks. The bi-colored ones and the fringed ones. For beds, borders or cut flowers. Pkt., 15c. Postpaid.

GIANT PETUNIA

PETUNIAS California Giants

1190—The fluffy Ruffled Giants. Big ruffled single and semi double flowers. All shades and color combinations. Most flowers as large as saucers you'll be specially proud of the big bi-colored or two-toned ones.

Pkt., 20c; 2 for 35c. Postpaid.

DWARF GLOBE MIXED

Best for Bedding

1175—If you want lots of color and endless numbers of blooms plant plenty of this Petunia mixture. Can't begin to picture

it. Wonderful pinks and white—dazzling velvety reds—plenty of blues too. These form a perfect ball a foot in diameter, and are completely covered with bright colored blossoms.

Pkt., 10c; 2 for 17c. Postpaid.

BALCONY PETUNIAS

These are larger and the flowers are brighter colored than any other. Trailing growing habit makes them ideal for ground covering, rockeries or hanging baskets. Fine for cutting, too.

1187—Balcony Crimson: A rich crimson that pleases everyone.

Pkt., 15c; 2 for 25c.

1186—Balcony Blue: Giant blossoms of a rich deep velvety blue.

Pkt., 15c; 2 for 25c.

1189—Balcony Queen Mixed: A choice mixture of these magnificent bright colored giant Petunias.

Pkt., 10c; 2 for 17c. Postpaid.

11c. Postpaid.

VINCA ROSEA

For a Beautiful Flower Bed

1251—The best flower for hot dry weather. The large pink and white flowers nearly cover the glossy green foliage. Height 1 ft. Blooms continuously all summer. You'll be delighted with it. Incidentally one of our biggest sellers.

Pkt., 10c. Postpaid.

VERBENA

These new giant Verbenas are over an inch across and are borne in large clusters.

- 1243—Mammoth red.
- 1244—Mammoth white.
- 1245—Mammoth blue.
- 1246—Mammoth purple.
- 1247—Mixed.

Pkt., 10c. Postpaid.

LARKSPUR

The New Double Flowered Kind

1124—Giant Imperial Mixed: A new strain with giant double flowers closely packed on long strong stems. Fine for cutting—all colors mixed—3 to 4 feet tall.

Pkt., 10c; ¼ oz., 25c. Postpaid.

1123—Giant Rosamond: This is the most beautiful rose-pink Larkspur I have ever seen. The long stems are a mass of double flowers from base to tip. Pkt., 10c; 2 for 15c. Postpaid.

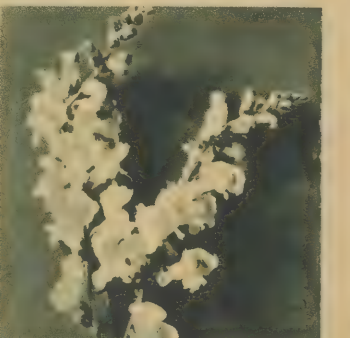

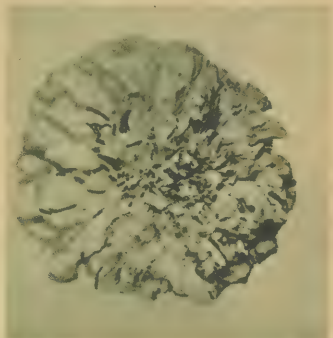

MARIGOLDS—For Beauty and Color

1127—Golden Treasure: The largest of the new Marigolds. Mammoth flowers, full double in all shades of yellow and orange. Sweet scented. A real show flower. Pkt., 10c. Postpaid.

1142—Early Harmony: The deep orange centers are surrounded by broad velvety maroon outer petals, making this new dwarf Marigold one of the finest flowers ever introduced. Very early, blooms continuously. 18 to 24 inches tall. Fine border plant. Pkt., 10c. Postpaid.

1146—Carnation Flowered Mixed: The loosely ruffled lemon-yellow flowers are very large and completely cover the tall plant. Flowers of the true carnation type. Pleasantly fragrant. Pkt., 10c. Postpaid.

1129—African Tall Double Mixed: Many prefer the African Marigolds because of their vigor and all around goodness. They'll grow anywhere. All shades. 3 ft. Pkt., 10c. Postpaid.

SNAPDRAGONS

For Finest Cut Flowers

The new rust-resistant, easy-to-grow 'snaps'. ALL POSTPAID.

1026—Giant Flowered Rust Proof Mixed: An all American Winner—These new giant Snapdragons grow about 4 feet high, and are covered with immense spikes of brightly colored flowers. Pkt., 10c; ¼ oz., 20c.

1022—Stop Light: So bright that the first sight stops everyone in his tracks. The immense spikes of the most intense glowing vivid red. Must be seen to be appreciated. Pkt., 15c.

POPPIES—Brighten the Garden

1390—CALIFORNIA POPPY (Escholtzia) Single Mixed: This is a mixture of all the colors from pure white to crimson. Escholtzias are easy to raise, grow anywhere. 8 to 10 inches tall.

Pkt., 10c, postpaid.

1392—DOUBLE SHIRLEY MIXED. Big double silky flowers. Look like peonies. All brilliant colors mixed.

Pkt. 10c, postpaid.

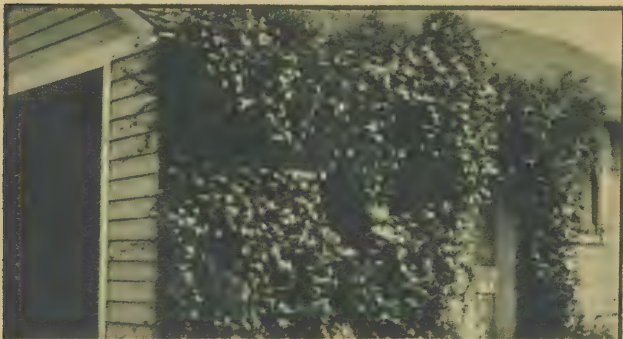

SALVIA

For Bright Red Masses

1207—Volcano—Scarlet Sage: This sturdy, well branched flower grows about 18 inches tall. From mid-summer until frost it is a glowing mass of flaming scarlet blossoms. A good house plant. It may be potted and will bloom all winter.

Pkt., 15c; 2 for 25c. Postpaid.

ANNUAL VINES

1065—Cardinal Climber—The Rapid Grower: This rapid growing climber will completely cover a building with a dense mat of dark green foliage, set off with countless fiery scarlet flowers over 1 inch across. Pkt., 10c. Postpaid.

1040—Balsam Apple—A Great Novelty: A very beautiful cut-leaved climbing vine, producing beautiful flowers, followed by scarlet apple-like pods seed bursting open and showing the bright crimson interior. Pkt., 10c. Postpaid.

1114—Hyacinth Bean—For Screen Plantings: Makes one of the most desirable climbing vines, grows rapidly, produces clusters of beautiful flowers, and then covers itself with the bright pods. Pkt., 10c; ½ oz., 18c. Postpaid.

SALPIGLOSSIS

Easy to Grow

1208—Giant Emperor Mixed: This has always been one of our favorites, for it is so easy to grow, and comes in such a variety of delicate colors. The blue and gold combinations are especially beautiful. The reds and purples are nice, too. Velvety Petunia-like flowers 2 inches wide. Height, 3 feet.

Pkt., 10c. Postpaid.

FLOWER MIXTURES

LONG SEASONS OF BLOOM

1205—Wild and Tame Flower Garden: This is a mixture of the best Annuals. Plant in beds where you want a quick showing of bright colors. Fine for Naturalizing—Cultural directions on packet. Pkt., 10c; ½ oz., 15c. Postpaid.

1206—Cut Flower Mixture: Our mixture of Annual Flowers is carefully selected. Varieties with long stems that make a great show of colors, and will last for many days after cutting. Allow plenty of room. Some of these are big. All are good. Pkt., 10c; ½ oz., 15c. Postpaid.

1213—Pin Cushion Flower—For Lovely Graceful Bouquets: This old-fashioned flower is one of our best cut flowers. The sweet scented flowers are borne on 18 inch stems. Wide range of colors. Showy in the garden. Thrive in the hot sun. Mixed. Pkt. 10c, P.P.

Gurney's

HARDY PERENNIAL FLOWER SEED

Start your own perennials. Full planting directions are printed on each packet. Every variety in this list is hardy and dependable.

Have Your Share of Beauty with GURNEY Flowers

GURNEY'S GIANT ASTERS

All Our Varieties are WILT RESISTANT

SUPER ASTERS NORTHERN SUN MIXED

1351—A super strain of magnificent giants. Early and vigorous. Immense double blooms on long strong stems. Wonderful cut flower variety. Can be planted directly in garden and you'll have lovely flowers in July. Giant packet of all colors mixed.

Pkt., 10c; 2 for 16c. Postpaid.

GIANTS OF CALIFORNIA

The Largest of All

1341—Double Mixed: Asters as big as saucers on stems 2 feet long. Sounds big, but these giant Asters are that size. The long curled and interlaced petals make this the grandest flower of all. Height, 3½ feet. Seed should be started in boxes.

Pkt., 15c; ½ oz., 25c. Postpaid.

ABOUT ASTERS

Some folks stopped growing Asters years ago because the flowers were then susceptible to wilt. Since then, they've missed the gorgeous blues and reds of the lovely Asters.

There's no need to be afraid of Asters now. Made wilt resistant they will bloom and bloom, and now are one of the most lovely flowers for your annual garden.

SPECIAL ASTER TRIAL OFFER 10c

All the above kinds and many more trial ground varieties mixed together into the finest aster mixture we've offered—including some of all varieties. Giant pkt. No. 1354. 10c. pp.

EARLY AMERICAN BEAUTY

For Brilliant Bouquets

1357—Mixed: Wilt Resistant. This new American Beauty Aster is larger and more beautiful than the old American Branching and 3 to 4 weeks earlier and it is resistant to disease. Large blooms. Pkt., 10c; ½ oz., 20c. Postpaid.

CREGO'S GIANT MIXED

The Shaggy-Frilly Asters 1025—Wilt Resistant. With their long, twisted, curved petals they resemble the choicest of Chrysanthemums. Flowers measuring 5 inches in diameter, fully petaled and very deep with long interlaced and twisted petals. Lovely in the garden or bouquets. All colors mixed. Pkt., 10c; ½ oz., 20c. Postpaid.

QUEEN OF THE MARKET

Earliest of All

1015—An aster that's new and different. Extremely early. Grows only 18 in. tall but every plant will carry 6 to 8 big double 4-inch blooms on strong stems. Plants are of non-lateral branching type. Excellent for cutting. Pkt., 10c. Postpaid.

MORNING GLORIES

AND MOON FLOWERS

HEAVENLY BLUE

1135—The Genuine Early Flowering Kind: Will climb to top of a tree in 1 season, and completely cover it with a mass of foliage and giant heavenly blue flowers over 4 in. across. Pkt. 10c; ½ oz. 25c. Postpaid.

SCARLETT O'HARA

1136—Gold Medal Winner: A deep RICH SCARLETT-CRIMSON FLOWER nearly 4 inches across, produced on fast growing vines. The red twin of Heavenly Blue. Pkt., 10c; 2 for 17c. Postpaid.

ROSE MARIE (Double Flowered)

1133—Something new and different. Clear Pink Color and prolific bloomer, but this one is VERY DOUBLE. You must grow it. Pkt., 15c. Postpaid.

ORIENTAL MORNING GLORY

World's Largest 1137—Imperial Fancy Fringed: Exceptionally large flowers, beautifully fringed and ruffled. Beautiful bronzes, Chocolates, Reds, Blues, Purples and variegated. Pkt., 15c. Postpaid.

PEARLY GATES

1134—Large Fleecy White flowers often 4" across. Early bloomer and a good grower. Plant it with Scarlett O'Hara and Heavenly Blue for a glorious display of red, white and blue. Pkt., 15c. Pp.

NIGHT BLOOMING

1139—Moon flowers. Big White, 6 inch blooms—open evenings and cloudy days. Delicious Jasmine fragrance. Start seed early in the house. Pkt., 15c. Pp.

FREE GIFT: Deep Blue Delphinium.

FORGET-ME-NOT

New Pink Beauty

BN149—The ordinary old blue Forget-Me-Not has been grown in our garden for years and years, but have any of you seen a real bright clear pink one? Here it is, and we are sure you will like it. Clusters of bright pink flowers borne all summer. Plant where it is moist if you can, in either sun or partial shade. Our plants are raised from cuttings so you will be sure to get the true pink. 59c each; 3 for \$1.49, postpaid.

HARDY VIOLETS

BN132—ROYAL ROBE—A glorious new variety of tremendous vigor and beauty. The delicately fragrant flowers are borne on long stems above husky plants which quickly make into big clumps. Deepest violet blue. Bear a full crop of flowers in the spring and another in the fall. Wonderful for cutting. 49c each; 3 for \$1.29, postpaid.

BN174—GURNEY'S RED—This is a true, red-colored violet. Strong growing and hardy. Try this novelty—we know you will like it. 39c each; 2 for 65c; 3 for 89c, postpaid.

HARDY LOOSESTRIFE

BN175—Morden's Pink—This is one of the finest, most adaptable, all around good hardy perennials that we know of. This particular variety was originated in Canada, and is unquestionably hardy anywhere. It will grow from wet swamp to dry wind-swept prairie. Long spikes of beautifully clear pink flowers. Fine for cutting, and extremely ornamental in the garden. Depending on the richness of the soil, grows anywhere from 18 inches to 3 feet high. Blooms all summer. 59c each; 3 for \$1.49, postpaid.

GIANT FERNS

For the Shady Spots

Cool green foliage. All ferns do well on the north or east side of a house. They love shade and moisture, but will stand unbelievably dry conditions.

Prices on all ferns 39c each; 2 for 65c; 3 for 89c, postpaid.

BN125—MAIDEN HAIR FERN—Dainty lacy leafed variety.

BN126—OSTRICH PLUME FERN—The heavy luxuriant, strong growing fern from the north.

BN127—HARDY SWORD FERN—Sharply pointed, dark green prongs. The leaves of this fern are grand to set off bouquets, or corsages.

Gurney's Hardy Northern-Grown Perennials

Perennials usually show up to best advantage if planted in groups of three, at an average of 15 to 18 inches apart. All of our perennials are shipped postpaid right to your door.

VIRGINIA BLUEBELLS

Mertensia

BN176—The lovely hardy bluebells that come so early in the spring. They will grow on the north side of the house where nothing else will do well and they love it. They particularly like it in a moist semi-shaded place, but with us they grow well in the open field in full sun. In summer they die down to the ground and disappear. Be careful not to dig them up thinking they have died. 2 for 49c; 5 for \$1.00; 10 for \$1.98, postpaid.

HARDY SWEET ALYSSUM

(Alyssum Saxatile)

BN158—The popular perennial Sweet Alyssum with its masses of golden yellow blooms in the early spring. Makes broad mats of grey foliage and only grows about 6 inches high. 39c ea.; 2 for 65c; 3 for 89c, postpaid.

GRASS OR CLOVE PINK

BN138—Here's the flower that made your grandmother's garden such a fragrant delight, and will do the same for yours. Very lovely, spicily fragrant blooms in all shades of pink, red and combinations of the same. Blooms all summer. Absolutely hardy and will grow easily anywhere. 39c each; 2 for 65c; 3 for 89c, postpaid.

SWEET WILLIAM

This has been an old garden favorite for years, and it is such a good grower and good bloomer that it will be for many more.

BN166—NEWPORT PINK—Beautiful, salmon pink, one of the most popular.

BN110—SCARLET BEAUTY—A most brilliant flaming scarlet.

BN167—DOUBLE CHOICE MIXED—A riot of color, white, pink, red and an assortment of these in individual flowers.

BN177—DWARF MIXED—Tiny plants growing 3 to 4 inches high, with great clusters of full size Sweet William blossoms on top. Fine for the rock garden or for edging. Try this little wonder. Prices: 39c ea.; 2 for 65c; 3 for 89c, postpaid.

OLIVE LONGLAND

Finest of All the
New Ones

BN41—We think this is one of the finest chrysanthemums ever introduced. It was originated by Dr. Kraus of the U.S.D.A., and the parent stock was grown in Minnesota. The bloom is a huge salmon-orange color, measuring some 3 inches across under ordinary conditions. Very early flowering. Beautiful in the garden and one of the finest of cut flowers.

Price: 65c each; 2 for \$1.00, postpaid.

Gurney's Famous MINNESOTA "MUMS"

40c ea., 2 for 69c, 3 for 98c

POSTPAID

BN40—REDGOLD—This plant is rated as bright scarlet to Brazil-red, but we find it a most brilliant growing bronze. As you know, bronze is one of the best of fall colors, and a real live fiery bronze is hard to beat. This plant stands out in our test beds as one of the finest.

BN31—DULUTH—The very first yellow variety to bloom, producing thousands of blooms. The season is from August 12th until severe freezing weather as frost doesn't hurt the Mums. Height 18 inches, spread 2 to 3 ft. A beauty.

BN37—WELCOME—Another early blooming bright mellow purple, producing a tremendous number of flowers at one time. Height, 20 inches, spreads 2½ to 3 ft. Flowers quite large.

BN32—GLACIER—Snow-white mounds of gleaming gold-centered flowers. One of the best white chrysanthemums we have ever seen and one of the hardiest. A comparatively low grower, growing about 15 inches high and 2½ ft. across. A very early bloomer.

BN34—PURPLE STAR—One of the earliest. Double medium sized purple blossoms borne in great abundance from late August until freezing time.

BN33—HARMONY—As its name indicates, it carries several tones of color. Its early blooms are yellow, later becoming strawberry pink and as the cool weather comes a deep Brazil red. At times all these colors will be present at once. Late August. 18/24 inches.

BN38—RED HAWK—An outstanding introduction. The double flowers in clusters are strikingly colored. Dragon blood red to Brazil red and starlike in appearance. An upright grower. One of the brightest.

BN39—MAROON 'N' GOLD—New in 1947. The blooms are large full incurved. Rays are maroon red in color above and gold on the underside. Free blooming from August through fall. 18/24 inches.

1 Each of 6 Leading Phlox Above \$1.59

GURNEY'S PHLOX

**Any of 6 Above or 7 Below
35c EACH—3 for 98c, Postpaid**

BN351—BORDER QUEEN—One of the best of the new pinks—large type trusses of clear pink bloom.

BN352—MARY LOUISE—Very finest of all whites. New. Enormous center cluster of pure white flowers and each side branch also has a large cluster of flowers on it. You have never seen a good white phlox until you have seen this one.

BN353—NEW BIRD—Most brilliant of the new scarlet phlox. Actually a bright orange scarlet. So bright you could spot a bed of it a half mile away. It is a good grower and beautiful for cutting.

BN354—BRIDESMAID—Not new but one of the best. Clear white with a bright pink eye—looks like peppermint candy. Tall growing and showy.

BN52—CHAMP ELYSEES—Compact heads of rich purple. Strong growing phlox. Try setting off its color between white varieties.

BN75—PURPLE SWEETHEART—A brand new, large-flowered royal purple. Selling at 65c in most catalogs. We think it is one of the best.

BN68—MISS LINDGARD—Early blooming, pure white phlox. Different from the others in that it blooms a full month earlier and has dark green shiny leaves. Keeps on blooming most of the summer.

GURNEY'S FINEST PHLOX

BN63—SALMON GLOW (Left)—Leading Salmon. **BN59—LEO SCHLAGETER (Center)**—The finest of all the new reds.

BN56—EVA FORESTER (Right)—Immense flowers of clear pink with white eye.

1 each of all 3 for \$1.05, postpaid. BN423X.

Any of the above varieties sold separately at 39c each; 3 for \$1.10, postpaid.

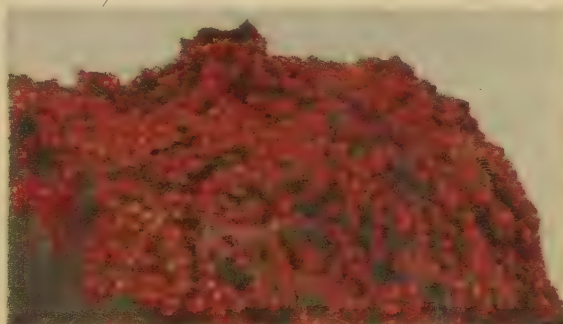

HARDY CARNATIONS

**Florists' Favorite for Outdoors
Delightful Fragrance**

Your garden needs the bright colors and spicy fragrance of these hardy carnations. They are as lovely as greenhouse carnations and easy to grow in your own garden. Very fragrant, so spicy and clean. Almost as big as those in the Florist's window. You'll love them and they keep coming year after year.

BN130—Double Pure White, **BN129—Double Black Red**, **BN131—Double Yellow**, **BN128—Double Pink**. Prices: 39c each; 2 for 65c; 3 for 89c, postpaid.

HARDY CARNATION COLLECTION—BN434X
1 of each of above 4 for 98c, postpaid.

HARDY ASTERS

BN2—BEECHWOOD CHALLENGER (Illustrated above). This is an English variety and the very best of all the red asters. Grows up to 3 feet in height. Brilliant and beautiful.

BN11—BLUE CLOUD—Strong growing plant with double flowers of a deep, rich blue. Grows 3' tall in any kind of soil. Likes full sun.

BN12—VIOLETTA—Fully double flowers of amethyst purple. One of the finest of the hardy asters and when in bloom is a solid mass of flowers some 3' high.

BN7—MOUNT EVEREST—Tall grower—4' to 5' high under good conditions. A pyramid of pure white flowers. It is very branching and flowers flow right down to the ground.

Prices: 49c each; 3 for \$1.29, postpaid.

HARDY ASTER COLLECTION—BN403X
1 each of the above 4 Hardy Asters for \$1.59, postpaid.

**BLAZ-O-MUM
Pink**

Gurney's Famous Hardy BLAZ-O-MUMS

These Miracle Mums start blooming the first year and in late summer and early fall cover themselves with beautiful flowers of all the Chrysanthemum colors. We have seen many Blaz-O-Mums that measured 3' across and 2' high, with flowers so solid and thick that no foliage showed. By actual count, over 1000 blooms on some plants the first year and more the second.

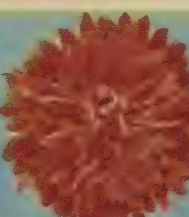

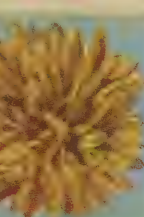

BN42—BLAZ-O-MUM PINK—Beautiful clear bright pink. **BN43—BLAZ-O-MUM WHITE**—Opens slightly pinkish and changes to pure white.

BN44—BLAZ-O-MUM COPPER—A rich bright copper.

BN45—BLAZ-O-MUM RED—A brilliant Santa Claus red. **BN46—BLAZ-O-MUM YELLOW**—A rounded pile of brilliant yellow blossoms.

Price: 39c each; 2 for 69c; 3 for 89c, postpaid.

BN145—PURE WHITE DOUBLE PACIFIC HYBRIDS—Something new in Delphiniums. Goes beautifully with the dark blues. 45c each; 3 for \$1.00, postpaid.

BN142—BELLADONNA—Lovely light blue—hardy single. 39c each; 2 for 65c; 3 for 89c, p.pd.

BN143—BELLAMOSA—A midnight blue single. 39c each; 2 for 65c; 3 for 89c, postpaid.

DELPHINIUM COLLECTION—BN444X

1—Delphinium BELLADONNA—Light blue.

1—Delphinium BELLAMOSA—Dark blue.

1—NEW DOUBLE HYBRID.

Outstanding Delphinium Bargain—**BN445X**

3—Light Blue Belladonna All 6 for \$1.49, Ppd.

3—Midnight Blue Bellamosa.

CREeping PHLOX (MOSS PINK)

BN65—VIVID (Subulata)—forms a mat of foliage several feet across blanketed with thousands of bright pink flowers. Use for rockery, border, carpeting the ground, covering graves.

BN66—BRILLIANT RED—A new bright red Creeping Phlox. Forms dense turf covered with brightest red flowers. Prices: 39c ea.; 2 for 65c; 3 for 89c, p.pd.

PAINTED DAISY (Pyrethrum)

BN140—Large brilliantly colored daisies on long stems above a clump of fern-like foliage. They bloom all summer. Grow 2 1/2 to 3 ft. tall. Grand cut flower and make a great showing in the garden. Mixed reds, pinks, salmons and whites. Do not ask for separate colors. 39c each; 2 for 65c; 3 for 89c; 10 for \$2.89, postpaid.

SHASTA DAISY

ALASKA

BN82—Large 4 to 5 inch blossoms. One of the easiest flowers to grow and one of the loveliest. This strain is extra large, some flowers getting 4 to 5 inches across. You will always have blooms if you have these lovely daisies and keep picking them. They range from fully double to single. Pure white. 39c each; 2 for 65c; 3 for 89c, p.pd.

GAILLARDIA

BN96 (Blanket Flower)—DAZZLER—One of the most striking perennials for any section of the country. Likes the heat. Doesn't mind the dryness. Grows anywhere. Brilliant flowers in red and yellow. Blooms from late spring until early frost. If you want lots of color both in the garden and to take in the house, plant Dazzler. 39c each; 2 for 65c; 3 for 89c, p.pd.

HARDY SWEET PEAS

The new perennial Sweet Pea (Lathyrus). These Sweet Peas are really hardy and a perennial, growing year after year. They bloom all summer from the first year on. Splendid for covering arbors or trellises. Many people put them on the garden fence. They make the grandest kind of cut flowers.

BN104—Glowing Red, **BN103—Pink Beauty**, **BN105—White Pearl**, **BN178—Mixed**. 39c ea.; 2 for 65c; 3 for 89c, p.pd.

CHINESE BELLFLOWER

BN114—New Shell Pink (Balloon Flower, Platycodon). Something really new. Never before, to our knowledge, has a pink bellflower been offered. Beautiful light shell pink. Blooms from early spring till late fall. 76c each; 2 for \$1.39, p.pd. **BN113—Blue Chinese Bellflower** or Balloon Flower. Buds are like balloons, a rich blue that bursts into single blooms and looks like stars. Easy to grow. 39c each; 2 for 65c; 3 for 89c, postpaid.

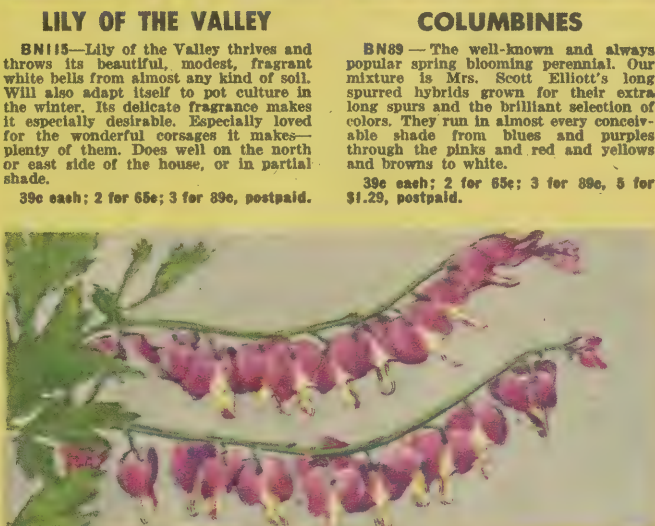

LILY OF THE VALLEY

BN115—Lily of the Valley thrives and throws its beautiful, modest, fragrant white bells from almost any kind of soil. Will also adapt itself to pot culture in the winter. Its delicate fragrance makes it especially desirable. Especially loved for the wonderful corsages it makes—plenty of them. Does well on the north or east side of the house, or in partial shade. 39c each; 2 for 65c; 3 for 89c, postpaid.

COLUMBINES

BN89—The well-known and always popular spring blooming perennial. Our mixture is Mrs. Scott Elliott's long spurred hybrid grown for their extra long spurs and the brilliant selection of colors. They run in almost every conceivable shade from blues and purples through the pinks and red and yellows and browns to white. 39c each; 2 for 65c; 3 for 89c, 5 for \$1.29, postpaid.

BLEEDING HEARTS—Jewels of the Garden

BN101—OLD-FASHIONED—Drooping clusters of bright pink heart-shaped flowers. Grows larger and more beautiful with each passing season. 65c each; 2 for \$1.00, postpaid.

BN102—FERNLEAF—Unusual ferny foliage and lots of tiny pink hearts on foot long stems. A neat clump that blooms all summer long. 45c each; 2 for 79c; 3 for \$1.19, postpaid.

COLLECTION—BN447X—1 Old-Fashioned, 1 Fernleaf, 98c, postpaid.

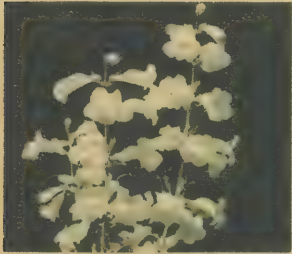

Super GIANT

PANSIES

BN777—Here's the easiest way to get your Pansies started. Plant these strong healthy plants, all ready to bloom. Our plants are grown from seed of the finest super-giant Pansy strains available.

We include some of the new bright red pansies in each shipment. These are all ruffled giants which give you immense pansies with frilled and wavy edges in all colors imaginable.

75c per dozen, postpaid; 3 dozen for \$1.98, postpaid; 100 plants for \$4.49, postpaid.

PENSTEMON

BN151—(Digitalis)—Clear white, foxglove-like spikes, produced in great quantities all summer. Foliage, dark shiny leathery green that looks attractive from spring until fall. 3 ft. high. Self seeds very freely. 39c each; 2 for 65c; 3 for 89c, postpaid.

HEMEROCALLIS (Hardy Day Lily)

BN163—D. D. WYMAN—Golden yellow with tawny flashes. June-July. 39c each; 2 for 65c; 3 for 89c, postpaid.
BN194—FULVA—18" orange bronze. 39c each; 2 for 65c; 3 for 89c, ppd.
BN160—HYPERION—Finest of all Hemerocallis. Huge pale lemon yellow fragrant flowers on tall strong stems. July-August. 59c each; 3 for \$1.49, ppd.
BN191—HEMEROCALLIS KWANSO—Distinct double form. Rich golden bronze. July-August. 39c each; 2 for 65c; 3 for 89c, postpaid.
BN192—MIDDENDORF—Yellow. 1 to 1 1/2 ft. 39c ea.; 2 for 65c; 3 for 89c, ppd.
BN161—HEMEROCALLIS OPHIR—Tall growing golden yellow on strong stems. One of the two best Hemerocallis. 59c each; 3 for \$1.49, postpaid.

Gurney's Giant PEONIES

BN305—KARL ROSENFELD—Semi-double type. Midseason. Tall, compact, heavy bloomer. Dark velvety crimson. Excellent both as a garden plant and as a cut flower. 59c each; 3 for \$1.49, postpaid.

BN325—MARTHA BULLOCK—Mammoth cup shaped bloom—the largest of the good peonies. This peony originated in Faribault, Minnesota, and is well adapted to Northwest conditions. It is a deep rose-pink with lighter shading. Fragrant. Stems stiff and strong. Flowers are often 9 in. across or larger. It usually sells at a far higher price than the one at which we list it. \$1.19 each; 2 for \$2.29, postpaid.

BN328—MRS. EDWARD HARDING—A very early pure white peony. Fragrant and fine. 59c each; 3 for \$1.49, postpaid.

BN317—LONGFELLOW—High rating, very double, mid-season, rich crimson. Considered one of the best reds. 59c each; 3 for \$1.49, postpaid.

BN303—MME. DE VERNEVILLE—Large, full-bomb type, perfect white, center petals flecked with carmine. Long stems, drought resistant, productive. One of the finest for any garden. 59c each; 3 for \$1.49, postpaid.

BN332—PHILIPPE RIVOIRE—A fine, fragrant, very bright crimson red. One of the best red peonies in existence. \$1.49 ea.; 2 for \$2.89, ppd.

BN310—SARAH BERNHARDT—The tops in pink peonies. Late, very fragrant, strong growing and long stems. Healthy and a free bloomer. \$1.25 each; 3 for \$3.49, postpaid.

BN331—COURONNE D'OR—Immense white flower flecked with crimson. Unusual water-lily fragrance. 59c each; 3 for \$1.49, ppd.

BN330—FONTENELLE—Originated by Rosenfeld. A fine cut flower, brilliant red, mid-season. 59c each; 3 for \$1.49, postpaid.

BN300—EDULIS SUPERBA—Crown type, very heavy, called Decoration Day peony by some. A most beautiful bright, clear pink with silvery reflects. Has rose fragrance. 59c each; 3 for \$1.49, postpaid.

Sarah Bernhardt

DECORATION DAY PEONY COLLECTION

The best of early blooming varieties for cemetery planting, and the ones which bloom early. Not always, but generally on Decoration Day. You get in this bargain, 1 red, 1 pink, and 1 white. We will choose the best of the early peonies for this collection.

All 3 for \$1.39

POSTPAID
BN482X

BN304—THERESE—One of the top ranking rare peonies. Rich, satiny pink with lilac lavender center. Very large and very beautiful. 98c each; 2 for \$1.89, postpaid.

BN323—MARY BRAND—A fine peony originated in the Northern region. This peony came from Faribault, Minnesota, and is one of the

very best of all dark reds—striking in size and effect, lasting as a cut flower. Makes a great mass of vivid dark crimson. 98c each; 3 for \$2.79, postpaid.

BN329—HARRY L. RICHARDSON—A late, very rich glowing carmine red with a beautiful luster and beauty. 59c each; 3 for \$1.49, postpaid.

FINEST PEONY COLLECTION

BN483X—These are the 3 varieties which we consider the cream of our offering for 1948.

We will send you 1 Sarah Bernhardt, 1 Mary Brand, 1 Karl Rosenfeld, which will give you the finest pink and reds in our list. All for \$2.39, postpaid.

BARGAIN MIXTURE OF PEONIES

BN481X—All colors and mixtures. These peonies are unlabeled and are a mixture of many small lots of fine peonies of which we do not have enough to list, or to dig and store separately. You will get some grand peonies in this mixture, and all of them will be good.

3 Peonies—Our selection for \$1.00, postpaid.

SEA LAVENDER

Lacy-Lavender Beauty

BN116—(Statice Latifolia)—Grown for its lovely lacy lavender flowers. Lovely all summer and beautiful in dried bouquets throughout the winter. Entirely hardy. Broad large leathery leaves in a rosette.

39c each; 2 for 65c; 3 for 89c, postpaid.

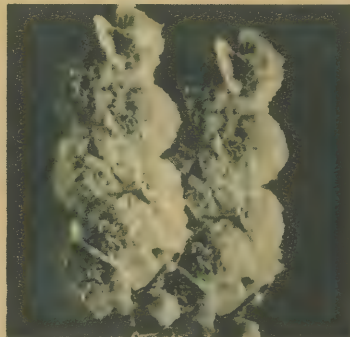

COREOPSIS

BN193—DOUBLE NEW GOLD—A bright yellow double daisy-like flower with long stems and long blooming period. Best of the Coreopsis, perfectly hardy and drought resistant.

BN199—DOUBLE SUNBURST—Very large double, long stemmed orange-yellow daisies. Hardy and drought resistant.

39c each; 2 for 65c; 3 for 89c, postpaid.

HOLLYHOCKS

Here are the new double Hollyhocks. An old favorite dressed up with petticoats. Big double blossoms. Easy to grow, mammoth flowers. BN119—Double Deep Maroon. BN118—Double Newport Pink. BN360—Double Scarlet. BN361—Double Yellow. BN362—Double Mixed.

39c each; 2 for 65c; 3 for 89c, postpaid.

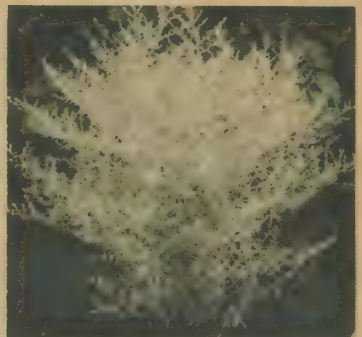

FOXGLOVE

True Perennial Type

BN135—This is not the ordinary Foxglove that you find in the garden but a true perennial type known as Ambigua. Lovely soft yellow blooms, flecked with chocolate. Looks like a hothouse grown plant. Blooms all summer.

39c each; 2 for 65c; 3 for 89c, postpaid.

SILVER KING

BN100—The "Ghost Plant" looks like it was dusted with silver dust. Grows anywhere. Use it for contrast background hedge where relief from green foliage is needed. Hardy. 2 to 2 1/2 feet high. Dry foliage makes wonderful winter bouquets and fresh foliage makes a pleasing contrast in any bouquet.

39c each; 2 for 65c; 3 for 89c, postpaid.

GIANT HIBISCUS

Flowers as big as saucers. Giant among the perennials, 4 to 5 ft. tall. Heavy foliage. Blooms in August and September like giant Hollyhocks.

BN157—Red. BN156—White. BN155—Pink. 39c each; 2 for 65c; 3 for 89c, postpaid.

HIBISCUS COLLECTION
BN440X—1 each of the above three. All 3 for 80c, postpaid.

HEN and CHICKENS

BN141—Loves a hot, dry place. Like tiny 5 inch cactus for cracks or crevices in the rockery or any dry, hot place in the garden. Each Hen rolls off several chicks each year. No rock garden is complete without several of these. The juice from the leaves of these Hens is said to be a positive cure for Poison Ivy.

39c each; 2 for 65c; 3 for 89c, postpaid.

GLOWING GOLD

Thermopsis

BN165—Absolutely hardy. Clean bright green foliage and long, up to 3 ft., spikes of sulfur yellow flowers.

PLANT WITH DELPHINIUMS
Try planting it with Blue Delphiniums. 39c each; 2 for 65c; 3 for 89c, postpaid.

HARDY FLAX

(Linum Perenne)

BN173—Plant Flax if you want gray foliage with blue flowers in your border.

EASIEST TO GROW
One of the levellest, flashiest and easiest grown of perennials. 39c each; 2 for 65c; 3 for 89c, postpaid.

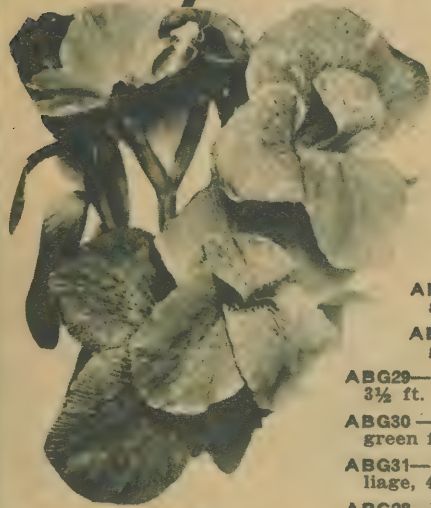

YUCCA (Adams Needle)

BN147—Hardy evergreen plant with long leaves and tall flowers producing as many as 200 flowers of pure white. Blooms June and July. Leaves remain green entire year. Gives the garden a tropical effect. Very hardy. Excellent for sunny, hot, dry places along foundations. Grows almost anywhere. Also called Candles of the Lord.

39c each; 2 for 65c; 3 for 89c, postpaid.

Gurney's GIANT CANNAS

These are the LARGE-FLOWERED Cannas. For brilliant colors, attractive foliage and ease of culture, you just can't beat them. Set roots 4 in. deep, from 18 in. to 2 ft. apart. Cannas like rich soil, sunshine and plenty of moisture. Store roots over winter in your basement or cave.

ABG26—Red King Humbert—Orange-Red, bronze foliage, 4 ft.
ABG22—President—Red scarlet, green foliage, 4 ft.

ABG29—Hungaria—Pink, green foliage, 3 1/2 ft.

ABG30—Golden Gate—Golden yellow, green foliage, 4 ft.

ABG31—Nokomis—Deep red, bronze foliage, 4 ft.

ABG28—Yellow King Humbert—Yellow and red, green foliage, 4 ft.

ABG24—Portland—Lovely pink, green foliage, 4 ft.

ABG25—Eureka—Soft creamy white, green foliage, 4 ft.

YOUR CHOICE—Each Variety Labeled 24c each; 3 for 65c; 6 for 98c; 9 for \$1.19, ppd.

RAINBOW CANNA OFFER

GURNEY'S RAINBOW IRIS

BN201—VENUS DE MILO—Gigantic snowy white. Dykes medal winner.
BN280—DEPUTE NOBLOT—A Dykes medal winner and still considered by some one of the finest. A huge mass of flowers of mellow purple and tangee purple.
BN252—INDIAN HILL—This is one of the most striking Iris in our field, being a rich, deep, black purple.
BN281—BLUE MONARCH—Gigantic soft blue. Sometimes as many as 15 flowers to a stem. This is as near perfect as an Iris can be.
BN282—NARAIN—A rich narain blue of great purity and with a fine silky sheen.
BN208—GOLDEN RAIN (Pluie d'Or)—One of the finest deep rich golden yellows. A Dykes medal winner.
BN283—DIEJA—This is an Iris that was originated in Sioux City, Iowa, and we think it a beauty. It is a tall entirely light blue, fragrant and outstanding.
BN293—MORNING MAGIC—Rich dark reddish purple. Heavy stem. One of the best for cut flowers.
BN294—QUAKER MAID—Large rose-lavender flowers, beautifully smoky, held on long tall stems in great abundance. Flowers fragrant.
BN202—ALTA CALIFORNIA—Tallest and one of the very best golden yellows.

39c each; 2 for 59c; 4 for \$1.05, ppd.

CHOICE IRIS COLLECTION

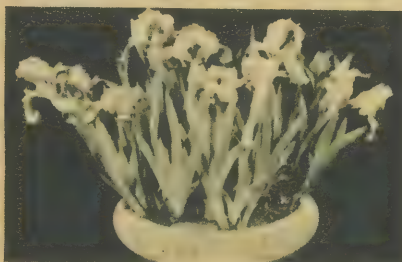

1 Indian Hills, 1 Venus d'Milo, 1 Pluie d'Or and 1 Quaker Maid.
BN478X—All 4 only 98c, postpaid

RED AND PINK COLLECTION

BN468X—10 amazingly beautiful Pink and Red Iris. Our assortment from the finest of our collection of red and pink shades. The biggest bargain in Iris this year.

All 10 only \$1.98 POST PAID

DWARF EARLY BLOOMING IRIS

The Baby Dolls we all love. These are the little short Iris that bloom first in the spring. Short grass-like foliage set with jewels of Iris blossoms. Fine for borders, beds, banks, for the rock garden.

BN264—SPRING SKIES—This is one of the very newest of the Dwarf Iris. A beautiful sky blue. Large flowers of great beauty. 39c each; 2 for 59c; 4 for \$1.05, postpaid.

BN244—BETSY PRESBY—A brilliant yellow Baby Dwarf Iris. 39c each; 2 for 59c; 4 for \$1.05, postpaid.
BN267—SAPPHIRE—Here is a brand new Dwarf Iris. Very few in the country are listing this variety yet. It is a brilliant sapphire blue, a color hitherto unknown in Dwarf Iris. We think it is beautiful to the extreme and we think you will think so also. Don't miss it. 75c each, postpaid.

RAINBOW IRIS COLLECTION

10 beautiful Iris in every shade and combination of color. Iris are exceedingly high everywhere. A real bargain and well worth the money. Not labeled.
BN462X—PRICE: \$1.19, POSTPAID

RED AND PINK IRIS

BN217—INDIAN CHIEF—Most popular of all our Iris. Rich glowing velvety red.

BN272—RED BRICK—Unusual large blooming Iris of a brick red color. Free blooming and worth having.

BN273—TROSTRINGER—This is a Sass Iris of brilliant rose-pink.

BN260—EL TOVAR—Beautiful combination of bronze upright standard petals and black maroon falls.

BN278—NUMA ROUMESTAN—This Iris is a beautiful shade of strawberry red with the falls a little deeper than the standards. It bears a terrible name for such a beautiful Iris.

BN295—GLORY OF YANKTON—A Gurney introduction. Clear pink, with immense flowers. One of the largest flowering. Flowers are large with 5 to 6 to a stem, making a bed a solid mass of bloom.

BN216—DREAM—A popular large flowered fragrant light pink.

BN275—NEON—A shining spot in the garden, hence the name. The standards are rosy tan and the falls are deep velvety carmine.

BN274—TRAILS END—Standards are orange red over a bronzy yellow and the falls a bright strawberry red.

BN296—DAWN—A beautiful clear pink like the sky just before the sun comes up over the horizon. Large flowers on 30 in. stems. Standards and falls same clear pink.

39c each; 2 for 59c; 4 for \$1.05, postpaid.

BN477X—NAMED VARIETY COLLECTION—1 each of the above 10 named varieties for \$2.98, postpaid.

SUPERFINE RED & PINK IRIS

BN473X—1 each of Dream, Indian Chief, Trostringer, Trails End and the Glory of Yankton, all 5 for \$1.59, postpaid.

GURNEY'S NEWEST IRIS

BN286—ORCHID BEAUTY—Standards or upright petals pale orchid. The falls or the petals that turn down deep orchid. The beard is white with an orange tip. Exceedingly fragrant. It blooms in mid-season and the flower stems stand from 40 to 48 in. The blooms are held erect on strong stems and borne in great profusion. 98c each, ppd.

BN287—GOLDEN BRIDE—Standards are milky white, fringed and edged with fine golden yellow. The falls are creamy white overlaid with gold. Deeply veined around the bright orange beard. Slightly fragrant. Mid-season. 36 in. high. 98c each, postpaid.

BN288—LAVENDER LACE—Standards and falls white, bordered and stippled with lavender. Petals beautifully ruffled and the beard is white with burnt orange tips. Faintly fragrant. Mid-season to late. 30 in. 98c each, ppd.

FALL BLOOMING IRIS

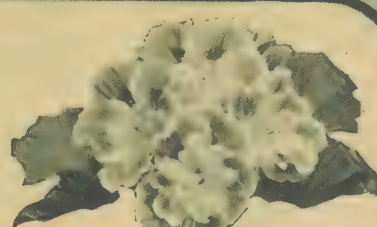

BN227—SOUTHLAND—Very free blooming. Deep yellow. The best of the yellow fall blooming Iris. American Iris Society Award of Merit.

BN228—SUPER AUTUMN KING—The original fall bloomer. Large blue and purple bicolor.

BN263—BLACK MAGIC—One of the darkest and most striking of all Iris. An intensely deep velvety black purple.

39c ea.; 2 for 59c; 4 for \$1.10, postpaid

COLLECTION—BN479X—1 each of the above 3 varieties for only 82c, postpaid.

3N53—PETUNIA—California Giants, the king of all bedding plants. Send in your orders early and we will send when ready to plant. \$1.10 per doz.; 2 doz. for \$1.98.

GERANIUMS

2N129X—MASTERPIECE GERANIUM COLLECTION—Two red Everblooming, two Flowering Ivy Leafed Geraniums and two graceful ferns to blend in. all for \$1.98.

2N74—NORTH STAR GERANIUM—The finest Red Double Geranium we know of. 2 for 92c; 4 for \$1.63.

2N69—PINK LADY—Queen of the pink geraniums, always in bloom, bright and cheery. 2 for 89c; 4 for \$1.57.

2N130X—VICTORY GERANIUM COLLECTION—One Double Red, one Pink Lady, one Flowering Ivy Leafed Geranium, one Bicolored Geranium and one Sweet Scented, all 5 for \$1.98.

NEW BEGONIAS

SPECIAL BEDDING PLANTS—3N64 Scarlet Salvia. 3N61 Rustproof Snapdragons and 3N54 Flaming Velvet Petunias, 79c per doz.; 2 doz. for \$1.39.

Gurney's Hardy CHERRIES

The varieties of cherries listed in our catalog are those that do best in the midwest and northwest and we are very particular in our choice of the sorts we offer. All are extra heavy rooted, well branched, and will soon be producing good crops for you.

Our Cherries Budded on Hardy Understock

Note the big fat calliper (the diameter of the tree at the butt.) It seems that cherry trees grow shorter but thicker than most fruit trees. We always like a good stout trunk on a tree ourselves and you'll like these trees—they look and are so sturdy.

Our cherries are always budded on a hardy understock to give a long-lived, heavy bearing tree.

Set 18 feet apart, each way, or 130 to the acre. Keep the ground around them cultivated if you can, but cherries are one fruit that will do very well, even when surrounded by a heavy sod.

MONTMORE

New Early Bearing Montmorency

AN54—New improved, early bearing Montmorency that often bears the first year. It is dwarf in size, easy picking, is unusual in that it grows much lower than Montmorency. Only about 10 to 12 ft. but it still produces a full size crop because the trees get anywhere from 12 to 25 ft. broad and the cherries are much thicker on Montmorency than on any ordinary Montmorency. These trees are ideal for commercial orchards in that the trees never get so tall but that most of the fruit can be picked from the ground. They are perfect for restricted back yards. We have seen Montmores less than 4 ft. high with over a quart of cherries on them, planted but two years. The fruit is larger than Montmorency and of absolutely a better quality. It is darker—black-red. Trees will bear anywhere from Georgia as far north as cherries will grow. Just as hardy or harder than the Montmorency. Prices: 2-3 ft., \$1.29 ea.; 3 for \$3.78; 5 for \$6.15; 10 for \$11.80, postpaid. 3-4 ft., \$1.49 ea.; 3 for \$4.38; 5 for \$7.15; 10 for \$13.80, postpaid. 3½-5 ft., \$2.10 ea.; 3 for \$5.98; 5 for \$9.76; 10 for \$19.00, express not prepaid.

The World's Favorite Cherry

MONTMORENCY

AN55—Here is the most widely planted Cherry. What everyone likes must be good. The fruit is large with firm flesh, of fine flavor. The cherry is a bright red, very handsome and wonderful for canning and preserves.

BLACK TARTARIAN

The Large
Black
Sweet One

AN56—Here is a Cherry that you will want. It is large, black and delicious and the hardest of the sweet cherries. Harvest quantities of fruit of the most delicious quality. Every orchard should have some of these. Prices: 2-3 ft., \$1.39 ea.; 3 for \$4.08; 5 for \$6.65, postpaid. 3-4 ft., \$1.59 ea.; 3 for \$4.68; 5 for \$7.65, postpaid. 4-5 ft., \$1.98 ea.; 3 for \$5.95; 5 for \$9.48, express not prepaid.

EARLY RICHMOND

The Early Pie Cherry

AN51—Try the EARLY RICHMOND. We know you will like it. The cherries have a bright red skin and red juicy flesh. The flavor is quite tart, marvelous for pies or canning. It is a strong grower and a heavy producer. You people south of Southern Minnesota and central South Dakota have ideal conditions for Pie Cherries. Order Gurney's Early Richmond. We are sure you won't regret it.

Hansen's Large Fruiting IMPROVED BUSH CHERRY

AN70—This is the improved strain of the original Hansen's hardy dwarf Bush Cherry. It's really a miracle plant. Grows like a bush from 4 to 5 feet high, makes a beautiful ornamental shrub, for landscape planting, especially in the spring when it is covered with blooms from one end of the branches to the other. In fact, it's one of the most gorgeous sights in the spring.

And, best of all, it yields almost as much fruit as a plum tree and there's no waiting for it. Bears large clusters of sweet cherries (shaped like plums) the first year, after planting.

These are selected
Bush Cherries in-
troduced by Dr. N.
E. Hansen. Plant
at least 50 or 100
in rows where they
can be cultivated
and you will be
amazed at the heavy
yield of good fruit;
drought resistant.

KOREAN BUSH CHERRY

AN75—This cherry makes a beautiful shrub with rich foliage, fine compact form, narrow leaves finely branched. In the spring it is covered with beautiful cherry flowers, and in the summer it produces an abundance of large bright red cherries that are fine to eat right off the bush or for canning or for preserving. Coming from Korea, it is exceedingly hardy in our location. If you want jellies and preserves of a different flavor than you ever tasted before, and one you will enjoy and your children will demand, once they have tasted it, try some of these Korean cherries.

12/18 in. 49c each; 3 for \$1.35; 5 for \$1.90, postpaid.
18/24 in. 69c each; 3 for \$1.95; 5 for \$2.95, postpaid.
2/3 ft. 98c each; 3 for \$2.82; 5 for \$4.49, postpaid.

HANSEN BUSH CHERRIES

NANKING CHERRY

Both Fruit and Flowers

AN76—A flowering cherry that is not only beautiful to look at but will give you an abundance of fine flavored high quality fruit to eat as well. It is beautiful in the spring with showy blooms along its branches. Fruit is an attractive red, juicy and delicious, about one-half inch in size. A distinct and attractive flavor. Good for canning or pies. Good strong plants 79c each; 3 for \$2.19, postpaid.

NANKING CHERRY HYBRID

These are improved numbered hybrids from the various Northwest Experiment Stations of the famous Nanking Cherry. Our plants are all budded to hardy Native Plum. The fruit is much larger and more highly flavored. The plants are just as ornamental and just as hardy. We consider these to be the finest new fruit in the country today.

As Nanking cherries fruit better if they are cross pollinated, we would rather not sell a single variety. Therefore, we urge you to buy at least two and if possible, three varieties and plant them in a group—at least 6 ft. apart. They will make beautiful lawn shrubs, a very effective screen, or may be planted in the garden as you wish. As our plants run from 18 to 24 in. to 3 to 4 ft., we are not going to offer you sizes, but will offer you good strong grown plants only at \$1.19 each.

One of our brand
new wonderfully fla-
vored Nectarberry.

BLACKBERRIES

ALFRED
Practically
Seedless and
Coreless

AN325—This is some-
times called the Coreless
Blackberry. The color is
a glossy, jet black, the
flavor, sweet and delicious,
and it is nearly
seedless berries. It does
very well in cold
sections as well as warm.
Hardy with winter
protection of a straw mulch in the North.

Prices: 6 for \$8c; 12 for \$1.69; 25 for \$2.87;
50 for \$4.98; 100 for \$8.98, postpaid.

ELDORADO
Most Popular
Blackberry

AN307—Ripens over a
long period with loads of
juicy sweet fruit. Liked
particularly for its small
seeds and heavy bearing
qualities. Very resistant
to rust.

Prices: 6 for \$8c; 12 for \$1.69; 25 for \$2.87; 50 for \$4.98; 100 for \$8.98, postpaid.

RED RASPBERRIES

CHIEF Early—Drought Resistant

AN315—Early, drought resistant,
hardy. Well known far up into Can-
ada, as it has proved itself one of the
best of the standard red raspberries
for our section and north. Very large
fruit. Firm, rich flavored, bright red.
Cane hardy. Prices: 6 for \$1.19; 12
for \$1.98; 25 for \$3.75; 50 for \$6.98;
100 for \$12.98, postpaid.

AN333—Heavy 2 year plants (bear
the first year)—3 for 95c; 6 for \$1.65;
12 for \$2.98, postpaid.

INDIAN SUMMER

AN317—New and finest ever-
bearing Raspberry. Six points of
superiority. Exc. quality high
quality, earlier on, heavier
fruiting, hardy (survives even in
Canada), more disease resistant,
two big crops a year.

Prices: 6 for \$1.39; 12 for
\$2.45; 25 for \$4.55; 50 for \$8.25;
100 for \$14.50, postpaid.

GIANT LATHAM

AN318—Regardless of where you live, this
Raspberry is good, for it does well, North,
South, East, and West. Fruit is large, many
are an inch long. It is a vigorous grower and
bears enormous crops. Minnesota's Great
Market Berry. Prices: 6 for \$1.19; 12 for
\$2.25; 25 for \$4.10; 50 for \$7.75; 100 for
\$13.98, ppd. AN332—2 yr. plants (bear 1st
yr.). 3 for 88c; 6 for \$1.73; 12 for \$3.15, ppd.

PURPLE AND BLACK RASPBERRIES

MORRISON

With the Large Fruit

AN319—This new black rasp-
berry has larger fruit than the
older strains. Better quality,
disease free plants, bigger
yields and top quality berries.
We believe this new improved
berry will take the place of
the common black raspberry
in a few years.

Prices: 3 for 70c; 6 for \$1.20;
12 for \$2.19; 25 for \$3.98; 50
for \$7.75; 100 for \$13.95, ppd.

PURPLE GEM (Ruddy)

Hardest for Dakota

AN327—With the introduction of this
North Dakota blizzard belt raspberry
you can now grow raspberries where it
was impossible to grow them before.
They have consistently produced heavy
crops when all others have failed. A
rank grower, productive, high quality
and iron clad in hardiness. Excellent
for jams, jellies and eating fresh.

Prices: 3 for 69c; 6 for \$1.20; 12 for
\$2.19; 25 for \$3.98; 50 for \$7.75; 100
for \$13.25, postpaid.

AN328—Heavy 2 yr. plants (bear first
year). 3 for 96c; 6 for \$1.65; 12 for
\$2.98, postpaid.

CUMBERLAND

AN316—You will want this delicious
BLACK RASPBERRY. It produces enor-
mous crops, of large, firm berries of the
finest flavor. Berries are juicy, not seedy.
Fine for shipping, market or home use.
In fact, wherever you go, you will find
that Cumberland is, by far, the most
popular of black raspberries, and well de-
serves to be. Be sure to plant at least 25.
Prices: 6 for 98c; 12 for \$1.62; 25 for
\$2.98; 50 for \$5.69; 100 for \$10.49, ppd.
AN331—Hvy. 2 yr. plants (bear first
year). 3 for 69c; 6 for \$1.35; 12 for \$2.25,
postpaid.

THE TWO BIG ONES

How to Plant Them
Boysenberries should be planted 6 feet
apart each way and this will take
1100 plants to the acre. You should
leave these on the ground the
first winter, cut off half
the tops and mulch
with straw after cold
weather. The following
spring these should
then be trained on
wires and each year
after fruiting cut out
the canes that bore
fruit. Leave the new
growth each year on
the ground, and cover,
then put up over wires
three feet high. Set
closer for garden
planting.

Mammoth BOYSENBERRY

Biggest Fruit of All Berries
AN310—This is really an amazing berry. A cross of
Blackberry, Raspberry, and Loganberry, and is far more
vigorous than any of them. They are of immense size
with a supreme flavor. It is almost seedless but firm.
It is the best berry of its kind ever grown, delicious
flavor, heavy bearer and quite hardy with winter cover-
ing of straw. Prices: 3 for 69c; 6 for 98c; 12 for \$1.79;
25 for \$3.29, postpaid.

AN311—The Mammoth Boysenberry now without
thorns. For easy picking and cultivating, plant this
variety. Bears as well as regular type and still you have
the advantage of large, luscious berries and no thorns to
bother you when picking. Supply is limited. Order early.
Prices: 39c each; 3 for 98c; 6 for \$1.49; 12 for \$2.65;
25 for \$4.98, postpaid.

Gurney's RASPBERRY BARGAIN

Here at a real bargain price you get enough red
raspberries and enough black raspberries to give you

moth Boysen-
berries—the much
talked about
giant berry
plant.

GRAPES from Gurney's

All are strong
heavy plants that
give quick results.
They are well rooted and will please you. The
varieties listed are the hardest. They can be
grown on a fence or an arbor, or in a vineyard.
Plant about 5 to 8 ft. apart in rows 6 ft. apart.
In planting cut the tops back to 3 to 4 buds, and
prune the roots off about one-third. You will
have better results this way. You don't need to
put up a support for grapes until the second
year if you do not wish to do so. Prune each year.

THESE GRAPES can be grown anywhere in the
Middle Northwest. They are all exceptionally hardy
and with very little attention have wintered the most
severe conditions that have ever been produced in
this part of the country. All they require is a light
covering in winter to protect the new buds. . . .
With that, Gurney Grapevines have produced Heavy
Crops of HIGH QUALITY GRAPES—a sure crop
each season.

ANYBODY CAN GROW GRAPES WITH HARDY GURNEY STOCK

CONCORD

America's Popular Favorite
AN352—Your garden will not be complete
without CONCORD. The Concord has be-
come the most popular grape in the United
States. It matures early, keeps well, ships
well, and sells well. The berries are in enor-
mous bunches and are blue-black, juicy and
delicious. Great for grape juice.
2 for 55c; 4 for 98c; 8 for \$1.79; 12 for \$2.39;

BETA—BEST FOR NORTHWEST

AN350—Here is a tame GRAPE with the TANG OF THE WILD. This is a good
grape for the North, for it is fast (15 to 20 ft. in 1 yr.) in growth and hardiest
of all. It produces large quantities of fruit of GOOD QUALITY . . . ALMOST
BLACK . . . JUICY . . . FINE FOR ARBORS. No winter covering needed.
2 for 69c; 4 for \$1.29; 8 for \$2.29; 12 for \$3.15; 25 for \$5.19, postpaid.

ANYBODY CAN GROW GRAPES WITH HARDY GURNEY STOCK

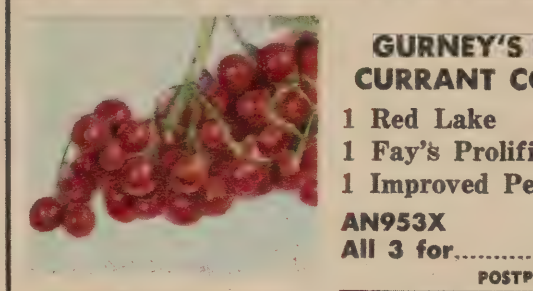

NIAGARA

Best of All Whites
AN356—Niagara is the leading favorite in
white grapes because the large fruit has such
a delightful flavor. The vine is hardy and
extremely productive.
2 for 69c; 4 for \$1.29; 8 for \$2.29; 12 for
\$3.15; 25 for \$5.19, postpaid.

PERFECTION Currant

The One for Jelly
AN903—All of you folks will
want some currant jelly for win-
ter. Perfection Currant is the
one to raise for good jelly. The
berry is at least twice as large
as the ordinary currant, and
can produce twice the crop.
Some in our Nursery are nearly
as big as cherries and are borne
in huge clusters. Each, 39c; 3
for \$1.09; 10 for \$3.39, postpaid.

RED LAKE CURRANT

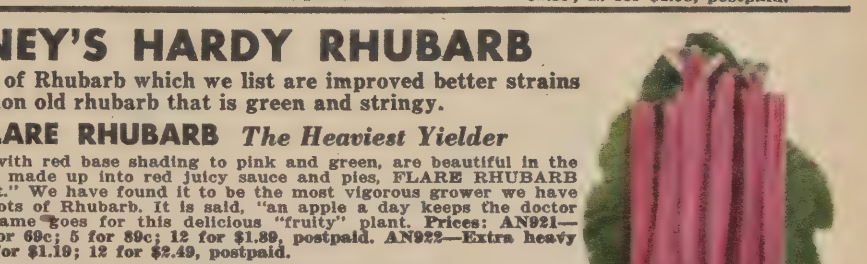

The Hardy, Heavy Bearer
AN904—A vigorous, pro-
ductive bush producing im-
mense quantities of high
quality, large, red currants the
first year after planting. Very
hardy. It has everything—size,
quality, color, and productiv-
ity—makes up into a
sparkling, bright red jelly. A
Minn. introduction. Each, 59c;
3 for \$1.59; 10 for \$4.39, ppd.

GURNEY'S HARDY RHUBARB

The varieties of Rhubarb which we list are improved better strains
—not the common old rhubarb that is green and stringy.
RED FLARE RHUBARB The Heaviest Yields
The big stalks with red base shading to pink and green, are beautiful in the
garden, and when made up into red juicy sauce and pies, FLARE RHUBARB is
just "can't be beat." We have found it to be the most vigorous grower we have
ever seen. Plant lots of Rhubarb. It is said, "an apple a day keeps the doctor
away," and the same goes for this delicious "fruit" plant. Prices: AN921—
Standard size, 3 for 69c; 5 for 98c; 12 for \$1.89, postpaid. AN922—Extra heavy
size, 3 for 84c; 5 for \$1.19; 12 for \$2.49, postpaid.

GURNEY'S SEEDLING RHUBARB

This is the very early, heavy producing rhubarb, noted for its rich, tender
stalks. Especially fine for sauce and pies. Rhubarb should be in every garden for
health's sake. Plant this fine variety at a very low cost.
AN923—Standard Size..... 3 for \$4c; 5 for 98c; 12 for \$1.89, postpaid
AN924—Extra Heavy Size..... 3 for 74c; 5 for \$1.39; 12 for \$1.89, postpaid

RUBY RHUBARB

AN925—Here are the divisions of the famous Ruby Rhubarb, the Rhubarb
with the sweet, tender, all red stalk. You can't help but notice the contrast of
the deep green leaves and the beautiful red stalks. The red color is carried on
to the delicious stalk, making it a tempting dish. Ruby Rhubarb from divisions
is practically seedless. 69c each; 3 for \$1.79, postpaid.

GURNEY'S HARDY NATIVE FRUITS

These are the native fruits that we all enjoy so much, but seem to forget to plant on our own places. Have priced some of them in small sizes and very low prices, so you can have plenty.

CHOKO CHERRY

AN78—A beautiful ornamental with spicy fragrant flowers produced like great banks of snow. Later come the great clusters of purplish black cherries. Be sure to have these nursery grown Choke Cherries in your yard or windbreak.

Size	Each	Per 5	Per 10

GOLDEN FLOWERING CURRANT

AN906—A large spreading, extremely hardy, drought resistant shrub, entirely covered with golden yellow flowers in the spring, followed by quantities of shiny black currants that are excellent for eating fresh or canning. Does well in sun and shade. An excellent landscape shrub.

Strong Plants—39c Each; 5 for \$1.75, postpaid.

SAND CHERRY

AN80—Another good bush fruit that makes an excellent ornamental or hedge. The fruit is good for canning or sauce; or to eat from the bush. It is a strong grower and perfectly hardy. Drought resistant and the GRASSHOPPERS leave it alone. Sand cherry will produce heavy crop year after planting.

STRONG PLANTS

2 for 39c; 10 for \$1.59; 25 for \$3.29, postpaid.

MOTHER GURNEY'S Everbearing Mulberry

The "Mother Tree," a variety of the Russian Mulberry, has been growing for many years here at Yankton. It has a long season of fruitings, beginning early in July and continuing to ripen big, luscious, black fruits all summer. The fruit is excellent for canning, jams, jelly or eating from hand. The tree is a fast grower and should appear in all windbreaks. Plant a Mulberry hedge. When Mulberries are planted around orchards the birds will do much less damage to other fruit.

What it Means to You to Plant Gurney's NORTHERN GROWN HARDY FRUIT TREES

When you plant Gurney's NORTHERN-GROWN fruit trees and bushes you get a premium in hardiness and the ability to take it, that you can't find everywhere. Gurney's stock is grown right here in Yankton, where we can see whether it can stand cold weather and hot dry winds. When we send it out to you, we know in advance it will do well for you, because we've tested it.

For all you people here in the great Northwest, Gurney stock is absolutely essential. You have to have hardiness, strong root systems, and real strength to survive our climate. Those of you farther South will be a lot better off with it. Hardiness and strength are almost the best things you can have in fruit trees, no matter where you live. And that's just what you get at Gurney's. We don't grow anything else.

This is the type of heavily rooted fruit trees you get at Gurney's. Notice how the entire seedling root is "budded" to the variety wanted.

GURNEY FRUIT TREES ARE "Whole-Root Budded"—Not Grafted

In order to grow the hardiest fruit trees, it is necessary to select a super-hardy root system, and then graft or bud a fruit variety to it. This practice is followed by all nurserymen. But there is a great difference in how you can do it.

The usual practice is to take one small part of a root and graft it to variety stock, as you see in the picture at the right. This is the way most trees are grown. At Gurney's we do not feel that this is enough insurance of hardiness. So we "bud" variety stock on the WHOLE ROOT SYSTEM. You can see how we do it in the picture at the left.

HARDY FOR NORTH OR SOUTH

At no time is a tree, or any other plant, in more danger, than when it is first planted. It must have a root system that will permit it to get down to the moisture and plant food that it needs to grow and survive. By "budding" to the whole, hardy root system, we are able to send out to you, young trees that will take hold immediately, and really produce fruit in the shortest time.

GURNEY FRUIT TREES ARE TRUE TO NAME

One of a grower's most disappointing experiences is to find after buying and caring for a tree for a year or two or three, to have it bear the wrong kind of fruit. That means wasted money, wasted time, wasted effort.

THAT WON'T HAPPEN AT GURNEY'S. Only experts work on our trees, and checkers constantly check on everyone's work. Every tree goes through many inspections to assure perfectly-graded, strong, healthy trees and MORE IMPORTANT—THAT YOU GET EXACTLY WHAT YOU ORDER. You plant now for years to come. Be sure you get the best stock when you order NOW.

Yes, Gurney nursery stock is grown for all zones. If you live in Northern communities, read the map at the right. If you live farther South, ALL Gurney stock will do well for you. More and more customers from the South are coming to us for nursery stock, because they know the value for truly HARDY stock. They know that HARDY stock will do better, NO MATTER WHERE YOU PLANT IT.

NORTHERN GROWERS Observe Map

ZONE 1

All Trees, Small Fruits, Flowers, Shrubs, and Vines found in the Gurney Catalog are recommended for this Region.

ZONE 2

All hardy except the following:

Apples: Hardy except Red Delicious, Jonathan, Yellow Delicious.

Plums: All hardy.

Cherries: Pie cherries hardy except in northern one-half.

Apricots: All hardy.

Small Fruits: All hardy except need winter covering. Boysenberry, Black Raspberry, Blackberry and Dewberry need extra protection and covering.

Forest Trees: All hardy.

Ornamental Shrubs: All hardy except the following need winter protection: Hydrangea, Butterfly Bush, Spirea Anthony Waterer.

Vines: All hardy except Clematis, Wisteria, Silver Lace Vine—give winter covering.

ZONES 4 and 5

Recommended best for planting:

Apples: Haralson, Duchess, Wealthy, Anoka, Manitoba, Yellow Transparent, Prairie Spy, Fireside, N. W. Greening, McIntosh.

Crab Apples: All hardy.

Plums: All hardy. For EXTRA hardiness plant Hansen Hybrids, Waneta, Tecumseh, Pipestone.

Apricots: Siberian, var. Manchu.

Cherry: None except Plum-Cherry Hybrid.

Forest Trees: All hardy, unless otherwise noted.

Ornamental Shrubs: Spirea Van Houttei, Lilacs, Coralberry, Snowberry, Honeysuckle, Snowball, Bush Roses, Sumac, Buckthorn, Cotoneaster, Dogwood, Wahoo, Tamarix.

ZONE 6

Same as Zone 1.

Gurney's Pays Postage ON NURSERY STOCK

New Postage Postpaid Policy Makes it Easier to Order

This year, Gurney's will send you nursery stock prepaid to your door. You won't have to figure postage any more, or pay the expressman when he delivers the goods.

We want to make it as easy to order from Gurney's as we can. Now all you have to do is write up the things you want, add up the total, and that's all.

Only exceptions to this are big trees, too big to mail, and balled and burlapped evergreens. The latter are sent with a big ball of earth, and naturally we can't send them postpaid.

You will find that sometimes your order will include both postpaid and not prepaid items. Instead of mixing us both up with two separate orders, we will send the whole order express collect to you, and include other nursery stock to a value of MORE than the extra transportation charges. This is a good deal for both of us. Everything is clearly marked in the catalog as to whether it is sent Postpaid or Express Not Prepaid.

Service for Everyone

Those of you who are a long ways from an express station will like the new practice, because, of course, parcel post goes everywhere. If special shipments do go out to you by express, like tall trees or evergreens, please make arrangements with someone at your express station to take your order, and notify you immediately.

Plant Immediately

One of the reasons we are postpaying nursery stock to you is to give you faster, better service. Nursery stock should be planted as soon as possible. Don't delay. Plant yours the day you receive it—not later than the next day.

All Gurney Nursery Stock GUARANTEED

We guarantee our nursery stock to be all state inspected, free from disease and first-class in every way. We also guarantee our stock to be absolutely true to name. If it proves otherwise, you can have your choice of replacement free or a full refund on the entire purchase price.

Examine the nursery stock carefully when you receive it. If you are not pleased with it in every way, return it promptly at our expense and we will replace it at once or refund your money in full as you prefer.

After you have planted it, if it fails to grow owing to weather conditions or other factors over which we have no control, we will replace at half price the following season, you to notify us not later than October 1, 1948. Accompany your report with a remittance of one-half the original purchase price.

How to Make Remittance

It's easy to order from Gurney's. We take your check. And if you don't have one handy, just use the blank check on the order blank. Bank or P.O. money orders are all right, too, but if you send cash, please register your letter.

NO C.O.D.'s, PLEASE

As much as we want to accommodate our customers, we just cannot accept C.O.D. orders. Our business is strictly cash with order. That's one of the reasons why we can offer so many things at such low prices. Please help us to keep up this policy by sending cash with your order.

GURNEY'S ASPARAGUS

MARY

WASHINGTON

Asparagus that melts in your mouth. Mary Washington is practically immune to rust which often kills other varieties. It keeps coming up fresh and tender for three months and does not get tough and old. The best of all varieties. Set 1½ ft. apart.

All Postpaid

SAGE—Grow Your Own Seasoning

AN920—This easy to grow perennial will provide you with the seasoning you want to flavor the dressing for your fowl, sausage and other meats. Sage is so easy to grow there is no reason for not growing your own. A few plants will give you a season's supply even the first year planted. Plants are attractive enough to be grown right in your perennial border.

35c each, 3 for 89c, ppd.

HORSE RADISH

New Bohemian—Best of All

New Bohemian is the horseradish. We have discarded all other kinds because this is so far superior. It is hardy anywhere and is very desirable as a relish. Its roots are dug in early spring, grated fine, vinegar added and it is ready for use. On this variety, the roots grow larger, are whiter and the quality is far superior.

AN915—Heavy Crowns: 5 for 79c; 10 for \$1.39; 25 for \$2.98, ppd. AN916—Cuttings: 12 for 49c; 25 for 89c, ppd.

Gurney's BETTER NUT TREES

GROW THEM FOR • BEAUTY • FIREWOOD
• FOOD • LUMBER

Here is the finest selection of nut trees you will find. All good varieties that will do well for you. Most of us don't grow enough of them, because we don't see them listed. This year, we're showing you pictures and every-

thing, so there's no excuse. Nut trees should be grown for more than nuts. Most of them make fine lumber, fence posts, or firewood. And all of them are attractive trees that you'll be proud to have on the place.

THOMAS BLACK WALNUT

AN726—We are pleased to announce we have a limited supply of true grafted Thomas Black Walnut this year. The Thomas Black Walnut is a thin-shelled Black Walnut having much more meat and much less shell than the ordinary Black Walnut found in our woods. It produces giant nuts with kernels much larger, better flavored and easier to get out. Grows fast and bears young. Mature tree will produce 15 to 40 bushels of very large nuts which crack so the meat comes out in halves and quarters. Perfectly hardy anywhere that Black Walnut will grow. Plant 40 to 50 ft. apart, 2 to 3 inches deeper than the tree stood in the nursery. Prices: 2-3 ft., \$1.79 each; 3 for \$4.98, postpaid. 3-4 ft., \$2.25 each; 3 for \$6.49, postpaid.

AMERICAN HAZELNUT

AN712—Makes a beautiful, well branched shrub 5 to 6 ft. tall. Attractive enough to plant in your yard as an ornamental shrub. In the fall the foliage turns to a brilliant scarlet and bronze. This hardy Hazelnut produces large quantities of high quality nuts every year. The Hazelnut is a native of the Black Hills, Eastern South Dakota, Minnesota and Iowa. It is perfectly hardy. Plant a quantity of them for beauty and feast on the nuts. Price: 18-24", 39c each; 3 for 98c; 5 for \$1.49; 10 for \$2.79, postpaid.

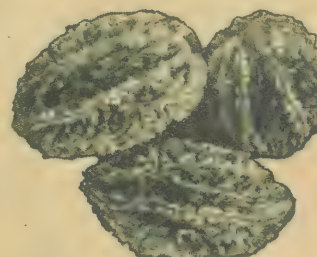

OHIO GRAFTED BLACK WALNUT

AN742—This is another grafted walnut hybrid. Not as well-known as the Thomas Black Walnut, but a very fine grower, and if anything, it has a larger nut. Our stock of these is rather limited but while they last we will sell good strong plants for \$2.25 each, postpaid.

BUTTERNUT

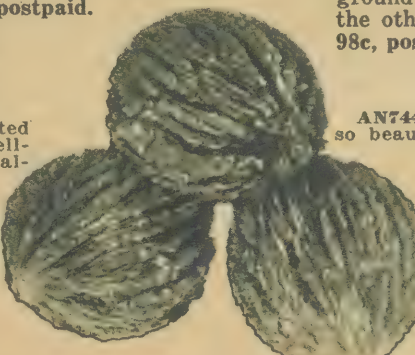

AN704—Cousins of the Black Walnut and one of the most popular and best eating nuts. It bears large nuts with a rich buttery flavor. The Butternut makes a fine tree as well and wood is greatly esteemed for furniture and interior trim. Grows naturally from New Brunswick west to the Dakotas and Arkansas. Perfectly hardy in most all midwest territories. Plant, if possible, where there will be some moisture in the ground as it cannot stand extreme dryness as well as the other walnuts. Price: 1½ to 2 ft., 39c each; 3 for 98c, postpaid.

SHAGBARK HICKORY

Favorite of Everybody

AN744—These are the real grand old Shagbark nuts so beautifully flavored, so much a favorite with everybody. Plant some on your own place and you won't have to go hunting in the woods for them. You will have them right where you can get at them quickly. Next to the Pecans, this is the best of the nut trees for the northern states, and as the Pecan is not hardy in some northern states, Shagbark Hickory can take its place very ably. Perfectly hardy, as it grows from Quebec to Minnesota and South to Texas. Price: Young trees about 12 in. high, 39c each; 3 for 98c, postpaid.

GURNEY'S NUT TREE BARGAIN

PEACHES

ties will produce fruit as far North as any peaches you can plant. The trees are strong, 2-yr.-old Northern grown for Northern planters.

We are listing the hardiest varieties of peaches. These varieties will produce fruit as far North as any peaches you can plant. The trees are strong, 2-yr.-old Northern grown for Northern planters.

Elberta
Favorite of All

VALLIANT

AN110—A Canadian introduction and undoubtedly the hardiest of all peaches. Large yellow freestone. Fine quality. Excellent producer and fine canner.

HALE HAVEN—New Favorite

AN103—A fine new freestone which is rapidly taking the place of Elberta in commercial orchards. Every peach a great big handful of rich, tempting goodness. Deep orange all over with deep blushes of carmine. Colors long before ripe. Ripens 15 days ahead of Elberta when the market needs good peaches. Self pollinizing, one of the hardiest. There are fine orchards of this variety even in Nebraska.

POLLY—Stands 15° Below

AN106—This comes closest to being a HARDY white peach. It has withstood temperatures as low as 15° BELOW ZERO. Besides, POLLY PEACH has a wonderful flavor, produces abundantly, and is outstanding even in peach-growing sections. We think this is the finest white peach in cultivation.

ELBERTA—"Daddy" of 'Em All

AN101—This is the standard market peach. Fruit is very large, yellow, freestone. Flesh is tender and skin firm, which makes it an excellent shipping peach. Ripens first week in September. Flesh turns to deep red near the pit. Good canning variety.

GURNEY'S HARDY APRICOTS

Our varieties of Apricots are those that will bear in the northwest. They're northern grown, budded on hardy rootstocks and will give you results.

The varieties we have are excellent for either cooking or eating. Apricots also make a beautiful ornament in the lawn. Previous to the introduction of these hardy varieties, apricots could not be grown in the Dakotas but now can and successfully. Set 16 to 20 feet apart.

Dr. Hansen's Apricots listed are the extremely hardy Manchurian introductions. Trees are rapid growing. If you have been unsuccessful in growing apricots in the past, plant the Manchurian varieties and you will be more than pleased with the results.

MANCHU APRICOT

Largest of Hansen's Hardest

AN252—Manchu is the hardest Apricot that we offer and it really is excellent. Trees are very productive. Fruit is large and a lemon-yellow color. Cooks up into a fine-flavored, pale yellow sauce. Excellent to eat from trees. 3-4 ft., \$1.98 each, ppd.

MOORPARK

Sweet Freestone

AN251—Mild sweet flesh, dryer than peaches and easier to keep. Big, juicy, full-flavored apricot just right for canning and drying. Also one of the finest dessert varieties. Fuzzless skin. Ripens to a beautiful orange, both skin and flesh. Perfectly freestone. Hardy. 3-4 ft., \$1.59 ea., ppd.

SUPERB APRICOT

Luscious Flavor

AN250—A delicious, sweet apricot for your own planting. A favorite of the Middle West. Very productive. Golden yellow fruit, medium large, flesh firm, high quality. It has a luscious flavor you get in no other fruit. Eat right off the tree. Excellent for eating and canning. Ripens south of here. 3-4 ft., \$1.59 each., ppd.

1 Oka Plum-Cherry 2-3 ft.

WANETA

Hansen's Masterpiece
Biggest Red—Hardy
Hansen Variety

AN208—Big, profitable crops from Waneta Plums. Prof. Hansen's "Masterpiece." Truly a delicious plum. It is an old favorite, one of Professor Hansen's most popular. The fruit is large and a gorgeous reddish-purple color. Waneta is of the finest quality. The flesh is tender, sweet and juicy. A sure bearer every year. One of the best of all market plums. Plant at least an acre (130 trees). Perfectly hardy.

UNDERWOOD

Bears in Canada!

AN207—This plum is the right type for the Northern States and Canada. It ripens early and grows well in North Dakota and even as far North as Winnipeg in Manitoba. It is really a splendid plum. Large, red, sweet and juicy, and hardy. Tree spreading, medium size, productive. Fruit very high quality for eating fresh. Should be planted near Pollinizer Plums such as Kaga.

OPATA—Extra Hardy

The Early Bearing Plum

AN205—The earliest of the Hansen Hybrids, Opata bears its ropes of fruit and ripens them in mid-July. A juicy tangy plum of medium size, green flesh, flavor very pleasant. Tree is vigorous in growth. Extra hardy and bears in one year after planting. Available in 4-6 ft. and 5-7 ft. No 3-4 ft. this year.

MOUNT ROYAL

AN213—We have been trying for some time to work up a stock of this fine plum. It is one of the very few hardy European type plums with fruit dark purple in color and greenish yellow, firm, juicy sweet flesh of finest quality. You cannot beat this plum for eating and canning. Tree upright and vigorous. No 5-7 ft. size available in this variety.

SAPA—THE BLACK ONE

The Rich Black Sweet One

AN206—This plum is black when ripe. Black outside and clear to the pit. It has a sweet flavor you can't forget and bears immense quantities annually. Ripe the latter part of July. Can't be beat in the hardy group. Bears the first year after planting. Best of all, it's extremely hardy. This is the one with the deliciously sweet juice. You'll enjoy it year after year. Available in 3-4 ft. and 4-6 ft. No 5-7 ft. this year.

GURNEY'S GOLDEN

AN212—Brand new Gurney introduction in 1947. This tree has proven entirely hardy in Yankton. An excellent variety to eat off the tree or to preserve. Looks beautiful canned and tastes as good as it looks. This year we have an ample supply. We are going to reduce the price to the same as all other plums to encourage you to try them.

KAGA—Fruit in 1 Year

"The Apricot Flavored Plum"

AN209—A deliciously flavored plum, fragrantly appetizing. Medium size, heavy producer, and bears in ONE YEAR after planting. Hardy like all of Hansen's hardy introductions. The flavor of this plum is the nearest to an apricot you could find. A cross between a native wild plum and the intensely fragrant Chinese apricot.

Gurney's Hardy Northern PLUMS

We don't believe you will find any nursery catalog with a more complete list of northern-grown, hardy plums than you will find on these two Gurney plum pages. Look them over and order with complete confidence.

Headquarters for Plums

Gurney's have been headquarters in the northwest for Plums for over 70 years. Plums have been one of our specialties, and we believe we can grow them better. Our plums are budded on plum—not on peach. (Beware of southern plum trees for the northwest, as many of them are budded on peach and will not stand our climate. The plum itself is hardy enough but the peach roots will not be the type that will stand our condition.) Most varieties listed will grow any place in the Dakotas. If you want long lived hardy plums, order from Gurney's. Set 18 ft. apart, 130 trees to the acre. By the way, plums do extra well in the chicken yard. Here's a place where you can grow a lot of fruit and give shade to the chickens, and use up land that otherwise would not be producing anything.

ONLY THE HADIEST VARIETIES

Besides the famous Hansen's Plums listed in the column at the right, Gurney's list the best of the Minnesota Plums. Such varieties as Underwood, Pipestone, Superior and Red Coat are among the best and hardiest of all. Mt. Royal, the new, super-hardy variety from Quebec, has special merits all its own.

We would like to call your attention to a plum that is one of our own special originations and was introduced for the first time in our spring catalog last year. We have called it Gurney's Golden because of its large golden-yellow fruit. We recommend it to you as one of the finest all purpose plums, and known as we are throughout the nursery trade as plum specialists, particularly in the northern varieties, our recommendation should receive your consideration as we have the only stock in the world of Gurney's Golden at the present time.

HANSEN PLUMS

Gurney's have always followed closely the great work of Prof. N. E. Hansen of the South Dakota Agricultural Experiment Station. Greatest plum originator of them all, Prof. Hansen's varieties, even the older ones, are still outstanding. We list the following seven Hansen plums:

Hansen's Waneta

Hansen's Oka	Hansen's Tecumseh
Hansen's Sapa	Hansen's Toka
Hansen's Kaga	Hansen's Kahinta

HENNEPIN

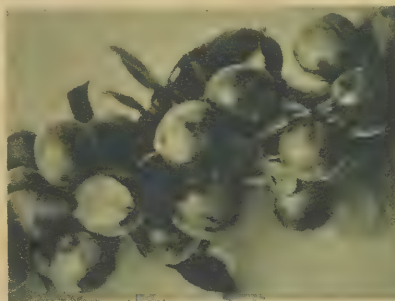

The Fine Canning Plum

AN219—This outstanding plum was originated at the Minnesota Fruit Breeding Farm. Fruit is medium size, roundish oval of a rich red-purple with a heavy bloom. Flesh is dark red, firm and sweet, and the quality is super excellent for canning. The season is usually in early September.

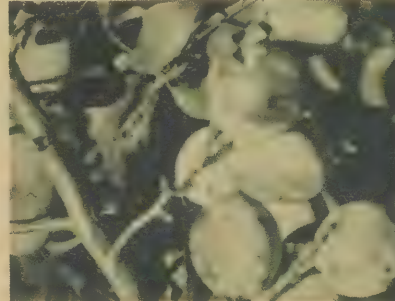

SUPERIOR—Early One

AN210—One of the best. This big plum will surprise you by bearing loads of fruit the first year after you plant the tree. Great clusters of big yellowish fruit appear. They gradually turn pink and then a deep rich red. You can peel them like peaches and like peaches you will like them. This really is "a peach of a plum." Hardy.

TERRY

AN220—This plum is so well known and well liked that a long description is not necessary. It is an old variety. It always has been and always will be popular. The fruit is very large, of a brilliant red color and of the finest quality. This is one of the largest and most handsome of the hardy plums, and we are glad to be able to offer it again in our catalog as there is extensive planting.

KAHINTA

Big Juicy Flavored

AN211—A big Red Hansen Hardy Plum, juicy yet firm. A "sister" to Waneta, Kahinta compares favorably with that Masterpiece in size, quality and bearing ability. VERY HARDY. Like all famous Hansen varieties bears very young.

OKA Plum-Cherry

The Heavy Bearer

AN204—Almost black, juicy fruit, big cherries, heavy production and extra hardy. It's hardy anywhere in the Middle Northwest. Oka will dry like a prune and can be kept and used like prunes. Available in 3-4 ft. and 4-6 ft. No 5-7 ft. this year.

Here's my brother Phil's grandson and some of the Pickwell Gooseberries he grew last summer in Rose, Nebr. Look close and you can see how thick the berries are on the bush. This bush was planted 3 years ago, and Phil says they canned 32 quarts last summer.

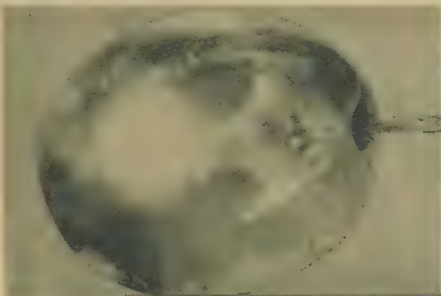

Who says they can't grow watermelons in the North? Here is ample proof to my mind. This picture was sent in by Herman Hinzenkamp, Rt. 1, Box 50, Melrose, Minnesota. He didn't say what variety he grew, nor whether these are his boys. Expect they are.

This is my good customer Herman Knock of Davis, South Dakota, in his Gurney Orchard. I think this is one of the Haralson apples I sent. Mrs. Knock says it was "an early producer and bears splendidly." Haralson is one of the best for the North."

"Dear Gurney's: These are my grandchildren. The cabbage was 11 1/4 lbs. and the onions each 1 lb. Thanks for your seed. We are very satisfied. Everybody admired the flowers, too."—Mrs. Gust Loetz, 3406 Noble Ave., Rt. 14, Minneapolis, Minn.

TECUMSEH

Extra Hardy—Long Lived

AN216—Introduced by Dr. Hansen in 1918. Sweet, aromatic, of good size, firm, excellent in quality. Often bears 1st year after planting. Rich dark red. Hardy in the far north and extra early.

PIPESTONE

High Quality Red One

AN214—Here is a new Minnesota variety you should have. Extra large, high quality red plum. Excellent for preserving, canning and eating fresh. Makes a large, strong, hardy tree that does well under most conditions.

HARALSON

Hardest of All Winter Apples

AN6—If we add up all of the good qualities of all of the other apples and say "this is Haralson," we would not be saying too much for this big, red juicy fruit that keeps till summer, and is borne heavily and annually on a sturdy, strong branched tree. Bears fruit in three years.

ANOKA

Often Bears First Year

AN1—Everybody plants Anoka. The earliest bearing apple. Little two-year old trees in the nursery often bear several of these red striped apples. The quality is good and the juice is rich in flavor. Anoka bears annually and is Extra Hardy. Medium size.

Northwestern GREENING

Mammoth Beautiful Fruit

AN24—Very ATTRACTIVE winter apple, with smooth, waxy, clear pale yellow skin with a slight greenish tinge. Flesh is crisp and mild. One of the largest apples you can grow with apples measuring sometimes as large as 5" or more across. Popular for good quality and good keeping ability.

Dark "All Red" DUCHESS

Best Summer Cooking Apple

AN4—If you like the Old Duchess of Oldenburg, you will go for the New Duchess in a Big Way. It ripens its juicy red fruit in August. For those delicious Apple Pies and Sauce, you'll find this New Duchess hard to beat. First degree of hardness.

PRAIRIE SPY

Better Flavored Keeper

AN29—Attractive red color, very high quality, is productive, and hangs to the tree well. Because Prairie Spy is a good keeper and is so much better quality than Wine-sap and others on the market after Christmas, it is widely planted for home use and market.

McINTOSH RED

Fall Apple—Good Keeper

AN9—To many the finest flavored apple we list. Bears for years and years. Beautiful red apples often with darker red blush, fragrant and of highest quality. A fall apple which will keep well into the winter in storage. Drouth and cold weather do not affect it.

YELLOW TRANSPARENT

Early, Yellow Summer Apple

AN18—One of the earliest of the Harvest Apples. An excellent eating apple and "what apple pies you can make with it!" Bears immense crops of yellow thin-skinned apples just "tart" enough for the best sauce and pies.

JONATHAN

Best All-Round Red Apple

AN8—The best winter Apple for every use. Red, juicy and "snappy" when eaten out of hand. Excellent baked or in pies, and it keeps well without special care. Many orchards are comprised principally of Jonathan as it is considered one of the standards by which other apples are judged.

THE CRAB APPLES FOR FRUIT AND BEAUTY

There is nothing like beautiful crabs for a real display of bloom in early spring. The fruit makes wonderful butter and jelly, too.

WHITNEY

Our Favorite Crab Apple

AN16—A delicious Early Crab Apple when eaten fresh from the tree, and for pickling there is none to compare with Whitney. Large, sweet, juicy, colored yellow with lively red stripes. Hardy, vigorous and a heavy cropper. Order early.

Whitney Crab

DOLGO

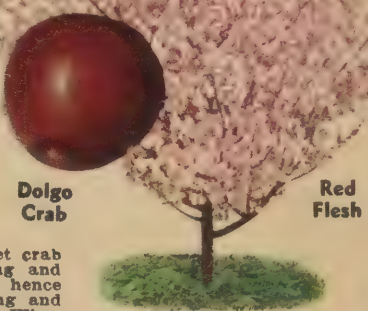

Best Jelly Crab

AN3—This Crab is a beauty in flower, shape, and foliage, but its all red fruit is most beautiful of all. It makes up into a red jelly that has a flavor all its own, and you will like it. Fruits on two-year-old trees. Hardy. Note: Whitney and Dolgo are the same price as regular apple trees.

RED FLESHED CRAB

AN748—This is a homely name for such a beautiful tree and fruit. In fact, we think it is the finest of all crabapples. Blooms deep, rich pink, almost a red. Brilliant scarlet crab apple shaped like baby delicious apples, long and pointed with dark red flesh right to the core, hence the name. Makes the most beautiful appearing and delicious tasting jelly. Just the color of Port Wine. A beautiful ornamental as well as a fruit tree.

3-4 ft., 78c each; 3 for \$2.19, postpaid. 4-6 ft., \$1.10 each; 3 for \$3.15, express not prepaid. 5-7 ft., \$1.30 each; 3 for \$3.75, express not prepaid. CRABAPPLE COLLECTION—AN49X—1 Whitney, 1 Dolgo and 1 Red Fleshed Crab. All big 4 to 6 ft. size, 3 in all for only \$2.89, express not prepaid.

Dolgo Crab

Red Flesh

Dark "ALL RED" DELICIOUS

Best Winter Apple

AN11—The name "Delicious" describes its QUALITY. It is "ALL RED" and Gurney's improvement by putting it on hardy Siberian roots makes it suitable for your orchard. The best of all eating apples. Large, red, with 5 points on base. You'll have to do a lot of looking before you can find an apple that can equal this "ALL-RED" improvement on Delicious. Plant plenty of Gurney's Dark "ALL-RED."

FIRESIDE

The New Super Delicious

AN21—Here is an apple of Delicious quality yet hardy enough to grow and fruit in the far north. Trees large, vigorous, well branched. Fruit beautifully striped with crisp, firm, juicy flesh—never dry. Keeps all winter and bears every year. Developed at the University of Minnesota State Fruit Breeding Farm. We predict this will become the favorite apple of our area.

GURNEY'S WEALTHY

The Good Keeper

AN15—This is too well known to need description. You are all familiar with its yellow background and covering of red, its white juicy flesh; the fine pies that can be made from it. You should also know that Wealthy is hardy and a leader of commercial or Home Orchard Apples for the North. If picked early and properly stored will keep until Christmas.

THE GIANT BARTLETT

The Earliest Pear of All

AN150—The leading commercial variety, one of the most popular for dessert and canning. Fanciest and finest of all pears. Rich golden yellow with rich pink blush. Good keeper and shipper. Early. Pointed top and wide at base. Tree is vigorous, hardy and bears young.

PETER PIPER

AN157—The name does remind one of the poem, "Peter Piper Picked a Peck of Pickled Peppers," but this happens to be Pears we are talking about, and they're good for pickling and for eating; good sized, yellow, blight-proof pears, of excellent quality. Best for the Northwest.

PATTEN

AN158—This pear is healthy, hardy and productive. Bears a LARGE, YELLOW fruit with the RICHEST JUICE OF FINE FLAVOR. The skin is THIN, and QUALITY EXTRA GOOD.

We recommend this pear to both northern and southern planters.

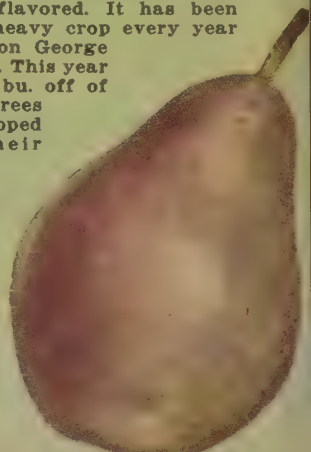

MING PEAR

AN159—Very hardy, blight resistant variety produced by Prof. Hansen. Early bearer. Rapid in growth. Fruit is high quality. Due to the extreme hardness of the tree you can grow this where you could not grow other fruit. Fruit medium sized. Excellent for eating, preserves or jam.

The Famous LINCOLN PEAR

AN156—The most dependable pear. Large, good flavored. It has been producing a heavy crop every year for 15 years on George Gurney's farm. This year we picked 14 bu. off of three young trees which had dropped much of their young fruit prematurely because of the drought. Ripens about September 15. In big demand on the market. A good commercial variety and one of the best home pears.

Gurney's Hardy Selected APPLES

GROWN ON HARDY SIBERIAN BACCATA ROOT STOCK

GURNEY'S LOW APPLE PRICES

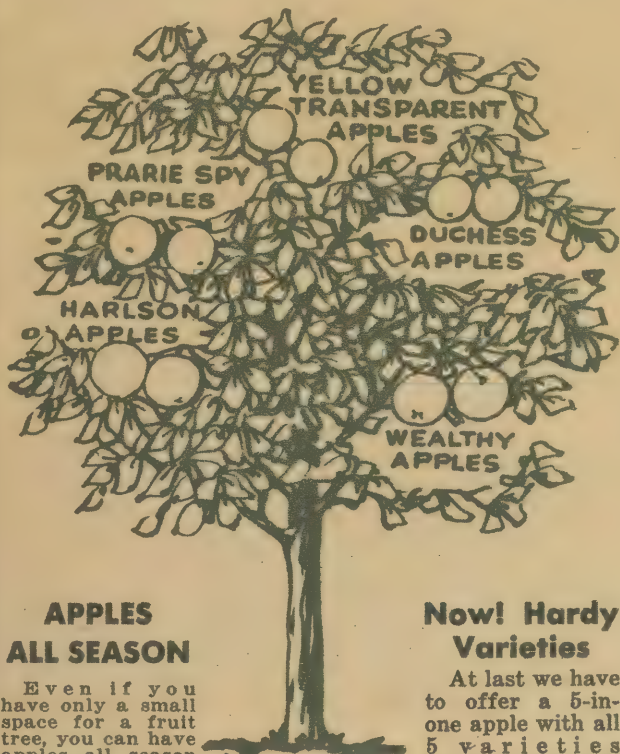

Apples and Crab Apples

The below prices are for genuine Gurney apple trees—all budded on hardy Baccata root-stock making the tree hardy for all the northern states as well as extra hardy for southern planters. You pay no more for these superior trees. Don't take a chance on stock that is not from a nursery like Gurney's that are specialists in HARDY trees.

		Each	Per 3	Per 5	Per 10	Per 25 and up
3-4 ft.	Post-paid	\$0.69	\$1.95	\$3.10	\$ 5.98	\$14.98
4-6 ft.	Express	.98	2.69	4.25	7.98	18.75
5-7 ft.	Not Prepaid	1.20	3.45	5.49	10.49	24.50

HOW TO PLANT APPLES

Set apple trees 25 to 35 feet apart. Peach trees can be used as fillers as they will die out before the apple trees are full grown. In setting your apple trees, prune them back severely. Northern orchards do better where the trees are grown more in a bush form. Trimming year after year tends to make the tree broad and spreading. The ground may be cultivated in the orchard and for a number of years you may plant small fruits in between the trees or a cover crop may be used.

APPLES ALL SEASON

Even if you have only a small space for a fruit tree, you can have apples all season long—some coming on early, some midseason and some late, giving you apples for cooking and eating all season.

Now! Hardy Varieties

At last we have to offer a 5-in-one apple with all 5 varieties HARDY FROM the NORTH!

And each variety is a choice one in its own right.

Gurney's APPLE BEARING CHART

Giving Time and Bearing of Apples

HARVEST OR SUMMER BEARERS	FALL BEARING APPLES
Early Harvest	Anoka
Yellow Transparent	Gurney's White
Red Duchess	Greening or
WINTER APPLES	Manitoba
Red Delicious	Wealthy
Yellow Delicious	CRAB APPLES
Haralson	Dolga
Jonathan	Hopa
Northwest Greening	Whitney
Prairie Spy	
Fireside	
McIntosh	

Now!

5-in-1 Apples for the North

5 Hardy Northern
Varieties of Apples
on 1 Tree!!

Think of It!

Think of having a tree in your yard that bears not 1 kind of apple, BUT 5 DIFFERENT KINDS. No yard is too small now to have many kinds of fruits—some of each of the fine varieties.

GURNEY'S LOW PRICES

This 5-in-1 apple will do well for Yankton and north. Will make extra-hardy plants and therefore better for folks in the south also. Varieties are Red Duchess, Yellow Transparent, Wealthy, Prairie Spy and Haralson. We never have enough 5-in-1 apples, so get your order in early. First come, first served. No. AN25—\$2.89 ea.; 2 for \$4.98. AN27—3-in-1 Apple, \$1.98 ea.; 2 for \$3.19. Both express not prepaid. (Trees too big for mailing by parcel post.)

Looking down a nursery row of Gurney Hardy Northern Grown Apple Trees.

Gurney's Hardy

NORTHERN-GROWN APPLES

Northern Growers should, by all means, order northern-grown trees. Gurney's Dakota-grown trees are hardier—not only from the climate but from the fact that they are all budded on hardy Baccata roots. This means everything to the man planting trees who wants a tree 20 years from now. Gurney's orchards are producing fruits 600 miles north of Yankton. Our trees are all extra-strong grade and no tree without a perfect root system is sent out to our customers. You do get better trees for less money at Gurney's.

YELLOW DELICIOUS

Hardy Yellow Winter Apple

AN17—A luscious golden yellow good keeping apple. Extra hardy on Siberian roots. It is not recommended for the North. It keeps well if you can keep folks away from it. It is DELICIOUS. Most popular yellow apple. Extra large.

MANITOBA—or Gurney's White Greening

AN22—This variety is a real discovery—a big, juicy ivory-white apple. Has stood drouth and severe winters without injury. Vigorous upright grower.

Excellent for canning. Pear flavor and cans like a pear. If you want something different in apples, that is extra fine—here's the apple to plant.

EARLY HARVEST

Good for Both Eating and Cooking

AN23—This is the earliest ripening apple that is hardy in the Middle West. Ripens in July ahead of most other apples and at a time most of us are "hungry" for them.

A yellow apple, good for cooking and eating, medium in size. For early apples, plant Early Harvest.

Gurney's Hardy PEARS

Hardy Understock Means Hardy Pears

Gurney's Pears are produced on hardy-northern understock which means longer-lived trees for you. Pears bear in a hurry and bear best crops, if you get Gurney's northern-grown trees. These grow upright and can be planted as close as 14 to 16 feet apart. At 16 feet it takes about 170 trees per acre.

Everybody should have two or three pear trees. They grow upright, take so little space and are always loaded. Plant both summer and winter pears. Wrap the winter pears in paper and forget them until mid-winter. See how good they taste then. No other fruit compares with them in aroma, lusciousness or range of flavors.

Gurney's Low PEAR PRICES

	Each Ppd.	Per 3 Ppd.	Per 5 Ppd.	Per 10 Ppd.
2-3 ft.	\$1.19	\$3.45	\$5.51	\$10.69
3-4 ft.	1.39	4.05	6.55	12.69
4-6 ft.	1.69	4.95	8.05	15.69

EXPRESS NOT PREPAID ON 4-6 FT. TREES

HOW TO GROW PEARS

Plant pears 14 to 16 ft. apart. Though the pear succeeds best in heavy, moderately fertile soil retentive of moisture, no one need hesitate to plant it in any soil available if it is well drained. Tillage and fertilizing are the same as for the apple except that nitrogenous fertilizers must be used more cautiously to prevent lush growth. Pruning and training are similar to that of apple except that a larger number of secondary branches may be allowed to remain as reserves in case of blight attack.

GURNEY'S PEAR BARGAIN

In this bargain collection, you get 1 each of the 3 hardiest, heavy bearing and most popular of our pears. All heavy 3 to 4 ft. trees. You get:

- 1 LINCOLN PEAR, large, sweet, juicy.
- 1 BARTLETT, fanciest and finest.
- 1 PATTEN, Extra fine eating and canning pear.

AN192X—All 3 \$3.79, Postpaid

Gurney's Hardy Northern STRAWBERRIES

There is a lot of difference between good strawberry plants and poor ones and you want to make absolutely certain that you do not spend your money for any but the best. Here at Gurney's, where strawberries are a specialty, we absolutely guarantee that the strawberry plants you get will be:

1. **YOUNG PLANTS**—The vigorous kind with plenty of vigor to give you heavy crops.
2. **STRONG ROOTED**—Large root systems that go deep for food and moisture making stronger plants.
3. **FROM THE BEST STRAINS**—There are good strains and bad in strawberries like everything else. OUR STRAWBERRIES ARE ONLY FROM THE BEST STRAINS.

JUNE BEARERS

These are the early, heavy bearers that are so welcome in June. You can't find better varieties than these five.

ARROWHEAD (Minnesota 1118)→

BN712—A new super hardy, extra large, heavy yielding June bearing strawberry originated by the Minn. Experiment Sta. It's good in every way. Beautiful deep red color, delicious flavor, uniformly large size, a good plant maker, very resistant to disease and insect pests.

ALL FOR

New Hybrid BLUEBERRIES

Real Blueberries big as marbles. You can now grow the real genuine Hybrid Blueberries in your own yard. For a long time we have been experimenting with big blueberries from the east. Most people say they can't be grown over a large section of the country because they have to have acid (sour) soil, and much of the soil through the midwest and other sections is not acid (sweet). We found it no trick at all to grow good blueberries if we just make the soil acid with a little chemical.

NAMED VARIETIES OF GIANT BLUEBERRIES

Truly as big as marbles. Delicious in flavor. Berries ranging up to the size of marbles just covering the plant. Big, upright shrubby plants growing to a height of 5 ft. or more and as broad. We will only sell these in collections of three, as several varieties of blueberries must be grown together to get a good set of berries. Plant 6 ft. apart. We are offering the newest and finest sorts of 3 yr. old plants.

AN344X—Hybrid Blueberry Collection
1 Ruble 12-15" 1 Jersey 12-15" 1 Pioneer 12-15"
With 1 lb. Aluminum Sulphate and complete directions. Postpaid. \$3.69

GURNEY'S "NEW" HARDY

New, Better Everbearer (Minn. 1166—Evermore)

If this extremely hardy, drouth resistant, high quality strawberry is not the most popular everbearing strawberry on the market this season, it will be another year. Fruit is large, rich red. Will produce an almost unbelievable amount from June until November the first season planted. Even the new plants or runners will produce the first year. The plants are extra large and thrifty.

BN708—

Heavy-Yielding GEM EVERBEARER

The Favorite Strawberry for Constant Bearing

BN706—We have grown and sold the "Gem" for many years. Throughout the drouth years, and from all sections of the Middle Northwest, reports have come back from customers saying, "We never saw a strawberry that could beat the Gem. . . . Most vigorous plant and heaviest bearer. . . . Are the biggest, reddest, juiciest strawberries we ever grew." That's what others say and our experience bears it out. They "make" new plants, stand drouth and bear lots of fruit all summer long. For Commercial Growers or Home Gardeners GEM is the STRAWBERRY YOU WANT.

HIGH WHEEL CULTIVATOR ONLY

\$4.49

Not Prepaid

4026—We sell these by the thousands. Ten times easier and ten times as fast as hoeing. The perfect garden tool.

Easy running and light. 24 in. wheel. Attachments are heat treated carbon steel for long life and include mold-board plow, sweep, and double end shovel. Price: \$4.49, not prepaid. Postage Zone 2, 33c; Zone 3, 53c; Zone 4, 87c.

OLD NICK'S SEED TREATMENT

4031—Use on corn, melons or any other seed to protect from birds, squirrels, moles, mice, wire worms, etc. Will not clog planter. 16 oz. bottle (enough for 5 bu. corn) only \$1.25, postpaid.

"GROW-AID"

4018

The Sensational New Seed and Plant Stimulant
Hormone-Vitamin Concentrate

Here is the miraculous new seed and plant stimulant in concentrated form. A combination of the recently discovered, very beneficial root stimulator—Hormones and the better known Vitamins that have made plants and seeds GROW FASTER, YIELD MORE, AND PRODUCE LARGER FLOWERS AND FRUITS. Tests by state colleges everywhere approve it. In one test, Dr. J. C. Ireland of Oklahoma Experiment Station showed increases of 37 to 47 per cent in yield when used on corn. Often, number of roots on a plant are doubled when GROW-AID is used.

This miraculous dust multiplies roots, speeds up root growth and stimulates and makes larger plants when used on vegetables, plants, shrubs, seedlings, trees or flowers.

USE AS DUST OR SOLUTION—Very Easy to Use

Can be used either as a dust on seedlings or sprinkled on your vegetable seeds or may be used as a solution (about 1 teaspoonful to a gallon of water) to soak roots before planting or to water plants already established. (Full instructions for GROW-AID on each package.)

Use It On All Your Plants and Seeds for Better Results

1. Dust it on flower or vegetable seeds before planting.
2. Soak nursery stock roots in solution before planting.
3. Dust seedlings roots before transplanting.
4. Use as spray for trees. KEEPS FRUIT ON TREES UNTIL RIFE.
5. Use as solution to water growing SHRUBS AND TREES.
6. Use as solution to water HOUSE PLANTS.
7. Use as solution to water ROSES, SHRUBS, LAWNS.

A General All Around Product Every Gardener Should Have
PRICES: 1/2 oz. (enough to treat 17 lbs. garden seed, etc.), 25c, postpaid; 3 oz. (for large gardeners, planters, etc.), \$1.00 postpaid.

A Sample of How "GROW-AID" improves plants it is used on.

INOCULATE YOUR PEAS and BEANS for BIGGER YIELDS

4015—All your garden peas, beans, and sweet peas should be inoculated. Inoculation helps the plant take nitrogen from the air and fertilize your soil—giving you bigger yields, faster growth and garden soil that's not worn out.

Just takes a minute to dust it on your seed—no trouble at all but it makes a world of difference in your yield.

There's enough in this 10c packet to inoculate 5 lbs. of seed. That's enough for most of you. Full directions on each packet.

GIANT PKT. 3"x4" Inoculates 5 lbs. seed. Pkt. 10c

DOGS-ZA-WAY

4000—Dogs ruin shrubs and evergreens. Protect them with DOGS-ZA-WAY. Guaranteed not to harm plants but extremely offensive to animals. Lasts several weeks. Simply spray it on places you want to protect. Full directions on can. Season's supply 43c, ppd.

MOLE & GOPHER KILLER

4001—Drop a cake in the mole run or gopher hole and your troubles are over. Acts as a stomach poison. Gets them quick. Can't harm poultry, domestic pets or animals. This mole and gopher killer has become one of the most popular sellers, because IT DOES THE WORK and is easy to use. Large box (90 pieces), 56c; 2 boxes, 95c. Postpaid.

RAT KILLER

4002—Here's the REAL WAY TO GET RATS. We guarantee it 100%. Won't harm any domestic animals, or poultry, BUT GETS THE RATS. It's the one rat killer we've found that GETS THE RATS where other poisons fail. Easy to use. Full directions on package. Large box (enough to kill 70 rats), 50c; 2 for 95c, postpaid.

ANT KILLER

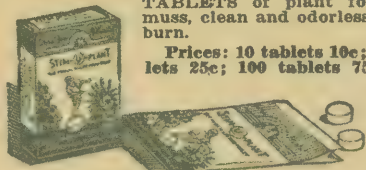

4003—This is the ant killer that always surprises people by its speed in really killing out those ants that get in pantries, kitchens and gardens during the summer. Simply punch several holes in the top of the can and set on shelf or wherever ants are and—no more ants. Absolutely guaranteed. 4 cans 98c, postpaid. Single can 35c, postpaid.

"Stim-U-Plant" Fertilizer Tablets

4010—Feed your house plants, roses, shrubs, etc., the modern way with TABLETS of plant food. No muss, clean and odorless, won't burn.

Prices: 10 tablets 10c; 30 tablets 25c; 100 tablets 75c, ppd.

ARSENATE OF LEAD

4007—General, popular spray for fruit trees against disease and insects. 1/2 lb. 28c; 1 lb. 45c; 4 lbs. \$1.10, all postpaid.

BLACK LEAF "40"

4008—All around spray for aphids, lice, de-lousing poultry, sheep dip, etc. Full directions with bottle. Oz. 50c; 5 oz. \$1.20, postpaid.

BORDEAUX MIXTURE

4005—The famous compound for control of black rot, blotch, etc. 1 lb. 45c; 4 lbs. 89c, postpaid.

ROACH KILLER

4004—One of the most effective preparations against roaches, bed bugs, etc. 4 cans 98c; 35c each, postpaid.

EVERGREEN SPRAY

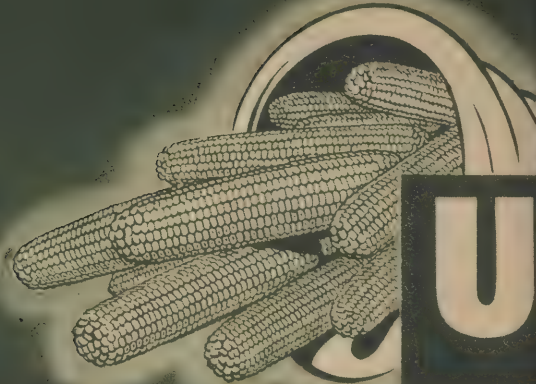

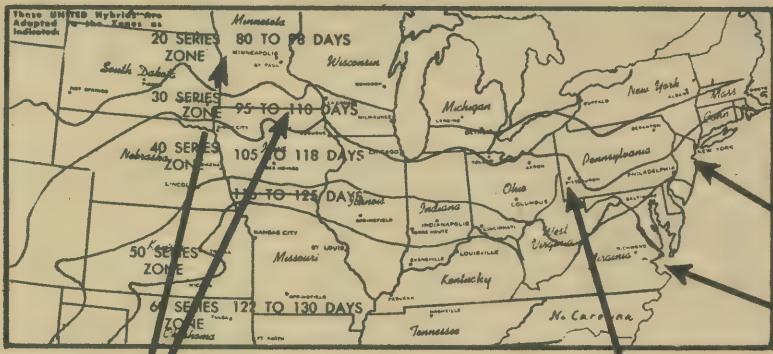

4014—A concentrated spray, effective against most plant pests. Full directions included. Oz. 50c; 6 oz. \$1.30, postpaid.

RED SPIDER DUST

4038—Rottenone and sulphur material that can be either dusted or made into a spray. Especially effective against red spider mite. 3 lb. bag., \$1.00.

2-4D DUST AND GUN

4042—A 2% 2-4D Dust that kills weeds, packaged in a handy dust gun. Easy to dust on leaves of weeds without burning surrounding grass, flowers, vegetables or shrubs. Use spring, summer and fall when weeds are growing. 12 oz. in gun, 75c each, postpaid.

UNITED'S EARLY HYBRIDS

for the
FAR NORTH

**ADAPTED! HARDY!
EARLY! NORTHERN GROWN!**

UNITED'S hybrids are some of the very few **TRULY GOOD NORTHERN HYBRIDS**. These extra-early hybrids are grown on acreage contracted in Minnesota and Wisconsin and dried in northern plants. They are adapted to northern conditions and will withstand the rigorous weather conditions and early spring cold which are often too much for unadapted hybrids. Plant **UNITED** and be **SAFE**.

U20 The Earliest Hybrid

This is one of the earliest hybrids available anywhere and one of the heaviest yielders. Has wide adaptability all through the northern area where it matures and produces a heavy yield even in short season. Stands well. Good size ears—very regular at picking height. Dries out fast for early cribbing.

U22 The "Top-Yield" Early

Widely adapted over the northern edge of the Corn Belt. Ears are very uniform, solid, heavy. Kernels are medium yellow, palatable, high in feeding value. Ears fill right out to the very tip and the good long husk offers protection from birds in the fall. Starts fast in the spring, matures fast in the fall.

U26 "Money Maker" Early

Jack rabbit start in the spring, deep roots for fast feeding in the summer, and swift denting and drying in the fall. Ears are solid, showy, disease resistant, good length. Kernels are deep yellow, heavy (often over 60 lbs. test wt.), medium smooth like Minn. 13. Stalks are sturdy, durable. A clean picker and a farmer's favorite.

U28 The Large-Eared Early

Similar to U20 but has larger stalk and ear and is a trifle later. Excellent feeding quality and extremely heavy yielder. Kernel very deep, and large size ear of Minn. 13 type. One of the best for northern sections but widely used in southern sections for replant corn in the 30 and 40 Series Zones (see map) and for hogging down in the 50 and 60 series sections.

U30 Heavy Yielding Early

Despite its earliness, you can't beat U30 for a heavy yield. It has made over 100 bu. per acre and some 120 bu. per acre reports have been received. U30 has a very stiff stalk, deep roots, and a large, medium rough single ear. Has medium soft kernels of high feeding value. Kernels deep, cob small. Ears about 2½ ft. from ground.

U32 Beautiful to Look At

Widely adapted as a main crop in the North Central to the Northern corn belt, U32 is also a great favorite as an early kind south through Kansas, Missouri and Southern Illinois. Picks extra early. Ears are heavy, uniform, showy, perfectly filled. Kernels are No. 1 quality, with high shelling percentage.

U36 The All-Around Medium Early

One of the most "all-around" hybrids of the earlies. Very heavy yielder, good ear size, very deep kernel with small cob and noted everywhere for its exceptional standability—despite high winds. Ears of beautiful Reid type. Cylindrical show ears. Dark green foliage. Also used heavily in the 50 or 60 Series Zones for late planting or for early hogging down and in the 20 Series Zone for fodder.

U39 Big Ear Corn

A "big brother" for the famous U32 and equally popular in its class (3 days later). Ears 2" longer. Ripens a sound, heavy ear on a live plant early in Sept. Stands dry weather well and produces show ears. Kernels are mellow, deep and efficient in fattening.

U2 (White) The Earliest White

United is one of the few hybrid companies that have a **GOOD** early white. U2 is "it"—one of the earliest white hybrids that bring you premium prices. Yields heavy. Exceptional for standability.

U3 (White) Silver King Type

This is the early white hybrid of the Silver King type. Has large ears and an exceptionally high shelling percentage. One of the few good white hybrids for this maturity zone.

UNITED'S MEDIUM HYBRIDS

**United
Hybrid
Is Adapted
to YOUR
Farm**

U40 THE HYBRID FOR LIGHT SOIL

This is the hybrid that solves the light soil problem. Despite thin type soils, U40 is capable of yields of 110 to 115 bu. per acre and still yields well on average to heavy soil. Very drought resistant—adapted to land like the non-irrigated land of Nebraska. Has medium cob, dries out early. Good for machine or hand picking. Ears medium rough on stalk at uniform height of about 4 ft.

U41 THE ALL-AROUND HYBRID

This is one of United's best "all-around" hybrids, getting its valuable traits from 4 of the finest inbreds developed to date. One of heaviest yielding medium early hybrids grown, consistently making yields of 100 to 110 bu. per acre or more. Large Reid type ear, deep kernels, small cob. High protein content well balanced with its starch content to make perfect feeding corn. Dark green stalks and leaves. Ear height about 3½ ft. Picks easily, machine or by hand.

U42 DROUGHT RESISTANT HYBRID

U42 is the hybrid that has made such miraculous performance in the hot, dry drought sections. Despite the heat, it delivers yields as high as 126 bu. per acre. Extra-heavy root system goes deep for moisture. Reid type ear with reddish cast. Extra large size ear. Medium cob and shank. Extra fine for hand picking. Ears absolutely uniform height—4 ft.

U47 THE LARGE-EARED HYBRID

This is the large-eared hybrid with a Reid-type, cylindrical ear of reddish cast. Exceptionally high feeding quality and shelling percentage and is noted because cattle prefer it. Its protein is well balanced with corn to make perfect feeding. Cob small, kernels deep so shells out high percentage grain. Capable of 120 bu. per acre on average to rich soils and prefers them though does well on light soil. Stalk very stiff, stands perfectly, dark green color. Very resistant to early spring cold.

U49 INSECT TOLERANT HYBRID

U49 is another "all-around" hybrid widely adapted and a sure bet for heavy yields. Has all the good points of high yield, resistance to lodging, holds its ears well, has deep kernel and small cob, high protein content, feeds well. All this combined with 120 bu. per acre yields make it a perfect, sure-fire corn as it performs on average or rich soil, irrigated or non-irrigated land. There's little you can desire in a corn that U49 does not have.

U4 (White) YIELD WITH YELLOW.

This white hybrid yields right up with yellow hybrids. Large eared of the Silver King type. Good standability, high shelling percentage.

UNITED'S LATE HYBRIDS

U50

THIS HYBRID CAN "TAKE IT"
— This hybrid is noted not only for its high yield but its vigorous growth and ability to "take it" despite the weather. Stands early cold in the spring, ravages of insects, high winds, drought and still comes through with a heavy crop. Ear height about 3½ ft. Adapted to average soils. Dries out early in fall. Reid-Krug type corn with slender long ear—small cob, deep kernels.

U57 THE BIG EAR HYBRID

U57 is of the famous Reid type ear (extra large) and replaces U.S. 13 for all purposes. Yields as high as 130 bu. per acre common. Stalks are large and do not show barren ears. Ear height uniform at 4 ft. Easy picker. Stands up well. Dries out early in the fall. Average to rich soils.

U59 WIDELY ADAPTED HYBRID

U59 is a real producer from whatever angle you appraise it. Adapted over wide area doing best on average soil but performing well on almost all soil types with yields of 120 bu. or more common. Has high lodging resistance, medium large stalk and medium foliage. Ear height regular at 4 ft. Easy to pick, hand or machine. Reid Leaming type corn, well balanced starch-protein content. Cattle like it.

U65 THE 130 BU. PER ACRE CORN

U65 is one of United's heaviest yielders, capable of topping 130 bushels per acre easily. Ideal on average to rich soil. Has an extra-deep kernel shelling out to high percentage of corn cattle like. **IDEAL FOR SOUTHERN IOWA AND NEBRASKA** where the season is long and this late Reid type corn can be matured. Often used for silage because of its exceptionally leafy characteristics. Easy to machine or hand pick. Doesn't lodge—ear height uniform.

U67 FINEST FOR SOUTHERN CORN BELT

A genuine native built of inbreds from Kansas, Missouri, Oklahoma and the Ohio Valley. Ears are big, long and heavy, with brilliant color. A massive 8 to 9 ft. root system picks up maximum moisture and fertility, gives good anchorage against wind. Stalks not tall but heavy below the ears for corn borer tolerance.

U68 THE NEW LATE HYBRID

This is United's newest and heaviest yielding of the late hybrids, consistently topping 100 bu. per acre in yields. Very large, medium rough ear. Large thick stalk that stands well. Ears very regular at 4½ ft. Excellent for hand or machine picking. Adapted average soils throughout its zone.

U5 (White) SILVERMINE TYPE WHITE

U5 has outyielded some of the well known yellow hybrids and is one of the outstanding white hybrids developed. It is of the Silvermine type with exceptionally good record of yield, standability and high shelling percentage.

U6 (White) LARGE EARED LATE WHITE

This is the **LATE WHITE HYBRID** for the southern cornbelt. Made from inbreds from southern strains, it has very large ears and stalks, heavy yield. Also desirable for fodder in the far north.

Not One . . . But MANY Producers Combined Their Research to Make This Great Hybrid

Recognizing the need for BETTER hybrid corn for the corn belt, MANY* midwest hybrid corn producers decided to unite their BEST inbreds and research to make the BEST HYBRID POSSIBLE. The result is UNITED—the hybrid that combines the BEST of MANY producers' research—not of just ONE producer.

No longer is it necessary to "shop" for the best hybrid. In UNITED you already have combined the BEST quality of MANY—the best inbreds, the best research of MANY companies—all in one hybrid. Gurney's are proud to have had a part in this program, furnishing some of their valuable NORTHERN GROWN INBREDS and improving their own inbreds for more southern latitudes.

United's growing fields are located in 5 states. When you buy UNITED you get corn adapted to your latitude—grown in your latitude.

The Great Step Forward in Hybrids . . . Combining the Best Research of MANY Companies Into This ONE GREAT HYBRID!

United's great unified research program is THE BIG NEWS in the hybrid corn world today. There have long been too many hybrids—some fair, some poor, some indifferent. The farmer was never sure just which was best for him.

To improve this situation and make the BEST HYBRID POSSIBLE, United got MANY of the midwest hybrid producers to pool their best inbreds and research into ONE GREAT HYBRID. If one company had the best drought resistant inbreds these went into the pool. If one had the best northern, cold-resistant inbreds, these went into the pool. The result is the BEST OF ALL all together in the one great hybrid—UNITED.

It's just plain common sense, and already, farmers over the midwest have booked most of UNITED'S production. The balance will go to early buyers. Reserve your UNITED HYBRIDS as soon as you possibly can.

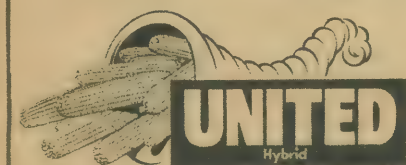

GURNEY'S PREPAY UNITED HYBRID TO YOU

All United hybrid bought through Gurneys (in 2 bu. lots or more) is freight prepaid directly to your nearest station. The price below is delivered price unless less than 2 bu. is

purchased, in which case the corn will be shipped freight collect. Order at least 2 bushels and your UNITED HYBRID will be prepaid DIRECT TO YOU.

UNITED'S NEW LOW 1948 PRICES

ALL UNITED HYBRID IS PREPAID IN TWO BUSHEL LOTS OR MORE

LARGE & MEDIUM FLAT GRADE

This is the flat or "edge-drop" grade. Generally preferred until farmers find out the round grade is as easily planted and cheaper.

SPECIAL FLAT GRADE

These are the smaller flat kernels.—graded perfectly uniform. In much demand for 1 bu. of this grade will plant 12 to 20% more acreage than regular flats.

More and more smart farmers are turning to round grades. They know Rounds are as regularly graded as flats and plant just as uniformly with a round plate in the planter. In addition they stand more cold weather and have JUST THE SAME BREEDING as the flats and will give as good or better crop. And still they save up to \$2.00 per bu. on their planting cost. Save this year, by planting rounds.

The BEST Research of Several Companies in This One Great Hybrid

Adds Insect Tolerance

This is one of United's famous insect resistant inbreds that adds insect tolerance to UNITED hybrids. Insects don't like to chew this one. Its willowy stalk can be bent to the ground without breaking. Only the best of many companies' inbreds go into UNITED hybrids.

One of UNITED'S Drought-Resistant Inbreds

This inbred stands up and takes it under dry land and drought conditions. Its stiff stalk and big root system make this possible. It is one of MANY inbreds of this type going into UNITED hybrids for UNITED is famous for drought resistance.

Gives UNITED Root Vigor

Look at this root system on this inbred! This is the famous UNITED inbred that adds great vigor to United hybrids and makes United hybrids unusual in their ability to withstand winds and unfavorable growing conditions like drought. It's part of UNITED'S "crop insurance."

More Corn in the Crib—With UNITED Drought resistance, cold resistance, insect resistance, etc., all are important to make sure you get a crop every year. But most important of all is the corn in the crib. UNITED never forgets this. Extra heavy yield of farmer style Reid type corn is always the most important factor in United hybrid.

Plant UNITED'S BLENDS for Biggest Yield . . . Surest Crop!

Blends are rapidly becoming most demanded of all hybrid. And UNITED'S famous blends are about tops available today.

Everyone knows what happens to a single variety corn crop when a hot, dry spell hits it during tasseling. With pollen throwing only 3 or 4 days, the field is often badly fertilized.

UNITED BLENDS PREVENT THAT DANGER. Being scientifically blended of many different adapted hybrids, they lengthen the pollen season to 20 to 25 days, insuring a good set despite weather.

Taken over a period of years, United blends will outproduce any single hybrid, including United's. Year after year, blends make BIG crops despite the weather. Try at least a few bushels this year. Convince yourself.

Blends for the 30, 40, 50 zones—Large & Medium Flats, \$9.90 bu.; Special Flats, \$8.50 bu.; Medium Rounds, \$8.20 bu.; Large Rounds, \$6.90 bu.

Blends insure crop by throwing pollen over long period.

3 Open Pollinated Corns Gurney Customers Like These are NOT Hybrids . . . NOT United

SILVER KING (Best Early White Open Pollinated)—Introduced by Wisconsin Ag. College. Large, medium early. Stalks 7 to 9 ft. tall, ears 8 to 12 in. long. Yields of 70 bu. per acre not uncommon. Suitable for northern Iowa and Nebraska, southern South Dakota and Minnesota. Price per bushel, F.O.B. Yankton: \$5.50.

MINNESOTA 13 (Best Early Yellow Open Pollinated)—Stock seed certified by Minn. Dept. of Agriculture. Stalks good size, ears large. Extra good yielder. Widely popular corn for Upper South Dakota and Central Minnesota. Price per bushel, F.O.B. Yankton: \$5.50.

GURNEY'S RAINBOW FLINT (The Drought Resistant Corn)—Rainbow Flint will stand more dry weather and still produce a better crop than most corn except hybrids. Ideal for hogging off. Immense yielder both of corn and fodder. Ears 12 to 15 in. long. Stalks 4 to 8 ft. tall—with 2 ears per stalk. Leafy to ground. Should mature up to north line of S. Dak. and make fodder and ensilage to Canadian line. Price per bushel, F.O.B. Yankton: \$6.25.

FREE CORN BOOK IN COLOR

You can order your United Hybrid directly from this page or send for United's beautiful corn book printed in natural colors, and order from it.

United's corn book gives you the complete United story—how all the companies united to perfect this great hybrid. It also gives a complete description of each United hybrid and a full size picture of each variety in true color.

Just drop a card to Gurney's and your copy will be sent right out.

Only the BEST of Breeding

Goes Into
UNITED Hybrids

United's Deep Kernel—Small Cob

It's the corn and not the cob that's important. That's why UNITED devotes so much research to making its deeper kernels and smaller cobs in which United is one of the leading hybrids. You get MORE CORN with UNITED.

Careful Detasseling Makes UNITED Better

Careful detasseling in UNITED'S huge seed production fields grown all over the midwest means perfect hybrid for you. You don't see forgotten tassels in United's fields which might contaminate seed. Every precaution possible is taken to make UNITED the best hybrid possible.

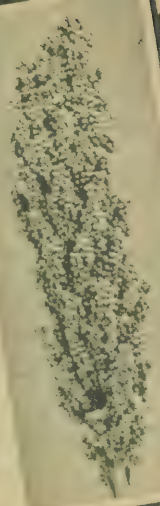

GURNO

Gurney's NEW Grain Sorghum

One of the most popular items we ever introduced to farmers of the Dakotas, Nebraska, Iowa, Kansas, etc. Here's the grain sorghum that is a heavy yielder and WHITE seeded, not bitter, and combine size—3 to 4 ft. tall.

Developed just for us to be the EARLIEST of the grain sorghums, maturing in 70 to 80 days to make a heavy yield. Highly resistant to chinch bug injury, stands well after ripening until harvest. Caught on like wildfire with all our customers who planted it last year for the first time.

White seeded Gurno is liked by all poultry and livestock because it isn't bitter. It's high feeding value—similar to white corn—is preferred by farmers. Not enough to go around last year—sold out early. Order yours now. Figure 3 lbs. per acre. 5 lbs. \$1.65; 10 lbs. \$2.75; 15 lbs. \$4.00, all postpaid. 100 lbs. \$19.95 F.O.B. Yankton, S. D.

BEST NORTHERN YELLOW BLOSSOM SWEET CLOVER

The yellow biennial or two year type sweet clover is much finer stemmed than the white and so produces finer stemmed hay or pasture. Just think of buying Yellow Sweet Clover 99 1/4% pure, high in germination, plump new crop seed for only \$11.85 per bushel.

All Triple Recleaned

We are mighty proud of this seed—free of all noxious weeds. Buy from Gurney's and save money.

Sweet Clover Ideal for Pasture, Seed or Hay

Sweet clover is the perfect soil builder and should be used on all farms in regular crop rotation. Ideal green manure crop, perfect as pasture for cattle and hogs. Cash seed crop. \$11.85 per bushel; \$19.75 per 100 lbs. Also high quality Best Northern Sweet Clover 99 1/4% pure for those who prefer to plant it in place of the yellow. Grows taller and produces a heavier tonnage of feed per acre. Same high quality seed as the Yellow described above. \$12.60 per bushel; \$21.00 per 100 lbs.

NEW CLINTON OATS

HIGH YIELD & HEAVY WEIGHT

New crop 1947 grown Certified Clinton Oats are ready now. Clinton is the variety of oats that turns poor oat years into good ones. If you want the latest in oats order Clinton for high yields, heavy weight per bushel, and stiff straw that stands well for combining.

Most important, the Clinton is resistant to the blight that has caused such heavy losses with old fashioned varieties. Also high resistance to stem rust and crown rust. We know now there won't be enough of these fine Clinton oats to go around. Order while we have them for you.

Sacked 3 bu. per bag, \$3.25 per bu. in 3 bu. lots; \$2.95 per bu. in 6 to 12 bu. lots; and only \$2.90 per bu. in 24 bu. or over lots. F.O.B. Yankton.

Clinton is a medium tall yellow early oat, plump kernels, thin hulls. The demand will far exceed our limited supply. Hurry your order.

NORKAN

Grows and Looks Like Atlas Sorgo Only 10 Days Earlier

An excellent grain and fodder crop recommended for Iowa, Southern Minnesota, Dakota and Nebraska where you want something earlier than Atlas Sorgo. Could really be called Early Atlas.

Plants of Norkan are medium early and tall, sweet and juicy. Will produce a tremendous tonnage of high quality feed for fodder or ensilage. A dual-purpose crop for grain feed as well. Not quite as tall as Atlas and easier to handle in the field.

An easy way to describe Norkan is just like Atlas only 10 days earlier. Makes best silage when seed is in hard dough stage. Plant same as other fodders 10 to 12 lbs. per acre. Heavier plantings give finer stems for fodder, silage and hay. Plant a big field of Norkan this year.

\$10.90
PER 100
LBS.

SAVE ON SWEET CLOVER—BUY

WHITE AND YELLOW SWEET CLOVER MIXED

This mixture of white and yellow Sweet Clovers saves you money but still is better for pasture. The Yellow Blossom makes earlier pasture and the White Blossom makes later pasture, stretching pasturing season by several weeks. Ideal for soil improvement. Seed is cheap in this mixture but still meets all your requirements. The seed goes a long way and your pasture is better quality, finer stemmed, more tender than straight White Blossom.

By buying White and Yellow Sweet Clover Mixed you get good quality—but it costs you less. For many years, now, this has been one of our most popular mixtures for it does the job better, and still is a real money saver over other grades of seed.

This mixture good for soil building, hay and pasture.

NEW LINCOLN BROME

Here is a new hardy, selected strain of smooth Brome perfect for the Dakotas, Nebraska, Iowa, etc. This long lived perennial gives excellent spring, summer and late fall pasture as well as a high quality hay. Equal in protein content to alfalfa. All bright, clean, heavy weight seed. Plant 15 lbs. per acre alone or with alfalfa. It's home grown seed and adapted in every way.

\$22.95
PER 100
LBS.

NEW EMERALD ANNUAL SWEET CLOVER

Gurney's are first again with something new. We can offer a few thousand pounds of the new Emerald Annual Sweet Clover. Plant and handle same as Hubam. Emerald grows shorter than Hubam—won't interfere with small grain harvest. Heavy seed producer. Builds up the soil as a green manure crop—for hay or pasture. Be the first to try it. 48c lb., ppd.

BEST NORTHERN DAKOTA 12 ALFALFA

The old standby and favorite alfalfa of thousands of farmers. Fully winter hardy, grows taller than other varieties, therefore makes more hay per acre.

Adapted to Many Soil Types

Dakota 12 adapts itself perfectly to a wide range of soil and weather conditions. Big, plump berries, free from weed seed and ready to grow. You can't afford to pass up this lot for the finest of northern seed.

Order this 99 1/4% pure lot of alfalfa now. Don't wait. Only \$26.50 per bu., \$44.10 per 100 lbs.

LOT NORTHERN GRIMM ALFALFA

Here's one of our most popular low priced alfalfas at a real bargain. Most every farmer knows Grimm and prefers it. You will, too, once you plant this seed. Grimm is the hardest alfalfa of all, with long branching roots that grow deep, preventing winter heaving and killing. Good on hard pan or dry soil areas. Very leafy and high in feeding value.

\$21.75
PER BU.
\$36.25
PER 100
LBS.

Big Bargain—97% Pure

You won't go wrong with this fine lot of seed, 97% pure, high germinating, worth a lot more but offered while it lasts at our low opening price. Plants 15 lbs. per acre.

HUBAM Annual White Sweet Clover

Plant Hubam this year and cash in the first year on this fine crop for pasture, hay or seed. Check its full growth the same year it is sown. High in protein. Excellent for Hubam stores up lots of nitrogen in the soil.

Help keep your soil more healthy, too, with a quick one year crop rotation program by planting Hubam this spring. Seed it with oats or flax and take off a cash grain profit and still improve your soil and have a fall crop of Hubam for pasture, hay or seed. Plant 12 to 15 lbs. per acre in early spring. High quality seed. \$11.65 per bushel; \$19.40 per 100 lbs.

ALFALFA-SWEET CLOVER LOW COST MIXTURE

Can't Beat It for Value and Quality

The ideal mixture to sow along with Brome Grass. A natural mixture that is a "honey" in quality and very low in price. Check it with regular prices and see the saving. If you buy good unmixed seed and mix it yourself, it would cost you at least \$24.00 per bushel. Buying this natural mixture the cost is only \$17.75 per bushel and you save the difference.

Mixture contains 50% hardy Northern Grimm Alfalfa along with 50% Sweet Clover. Ideal for hay and pasture. Will add lots of Nitrogen to the soil. Will stand close pasturing because of the Grimm alfalfa. All new crop seed. Plant 5 to 6 pounds per acre along with 12 to 15 pounds of Brome. Only \$17.75 per bushel. Order early. This lot won't last long.

BEST NORTHERN GRIMM ALFALFA

Our finest lot of northern grown, hardy alfalfa that will produce leafy, fine stemmed hay easy to take down from the hayloft. Always a favorite and can't be beat at anywhere near our price.

Bright, clean, plump berry seed. 99 1/4% pure, new crop and absolutely noxious weed free. Compare this super grade of alfalfa with others anywhere and see the difference. Plant hardy Grimm and lots of it.

Grimm with its spreading crown and branching root system can really take the hot weather and the coldest of winters. Good quality northern grown seed won't last long. Order yours early and be sure to get the best. Only \$26.95 per bu., \$44.90 per 100 lbs. First come—first served.

WHAT OTHER'S ASK!!!

GURNEY'S LOW FIELD SEED PRICES

Effective January 1st, 1948

FREE SAMPLES: Ask for any samples of seed you want, FREE.
BAGS FREE: No extra charge for bags.
PRICES F.O.B. YANKTON: Lowest net price F.O.B. YANKTON. Will quote delivered prices on request.
PRICES SUBJECT TO CHANGE: Due to market conditions these prices may vary. We fill your order at lowest prices, always.
SUBJECT TO CHANGE WITHOUT NOTICE.

WE GUARANTEE TO SATISFY YOU OR NO TRADE. We absolutely guarantee our seed to arrive in a satisfactory condition or no trade. You have 10 days to test it any way you like or send sample for state test if desired. Guarantee to send you seed that will suit or refund your money. That's plain and fair. We want you satisfied. However, we do not guarantee a crop, as that depends upon conditions beyond our control, such as weather, soil, planting conditions, etc.

GURNEY'S, Yankton, S. Dakota The Northwest's Foremost Seed and Nursery House

"MIDLAND" EARLY COMBINE GRAIN SORGHUM

Midland was introduced by the Ft. Hays Exp. Station in Kansas. None finer in any way for yields, quality and easy harvest type. Early in maturity, ripens fully before frost. Earlier than Martin's milo by 12 days. Highly resistant to chinch bugs.
50 bushel yields can easily be expected with this new combine type. Heads are compact, stalks stand up well until fully matured. Hurry your order—seed stock is very limited. Be the first to grow it in your neighborhood. An improved selection of Kalo—so new it has just been named.

\$790
per 100 lbs.

BROME GRASS

World's Best Pasture Grass
Brome Grass makes more pasture than any other grasses and lasts two weeks later in the fall. Cattle and hogs both like it. Absolutely winter hardy—doesn't kill out. And, best of all, it's the ideal drought resistant grass with roots that go deep in the ground for moisture so it can STAND THE SEVEREST KIND OF HOT WEATHER.
HOW TO SOW—Sow early on a good seed bed, harrow or roll in well—rolling is best. Sowing with alfalfa, use 4 lbs. of alfalfa and 10 to 12 lbs. of Brome per acre. Sowing with Sweet Clover, use 10 to 12 lbs. of Brome and 6 lbs. of Sweet Clover, or sow alone, 15 lbs. per acre.

\$1995
per 100 lbs.

For Dry Land BROME GRASS MIX

Here's a mixture made especially for permanent hay and pasture on dry land.
Over 50% Brome—Cheaper Than Brome

This mixture contains over 50% Brome with the balance in other hardy native dry land grasses such as Crested Wheat, Slender Wheat and others that do well in the drier sections of the United States. Stands the hottest summers or the coldest winters. A bushel is 45 lbs. Sow 12 to 15 lbs. per acre, early. Roll in well on a firm seed bed. Add 4 lbs. of alfalfa to the acre if you wish. Alfalfa and Brome can be pastured together with no fear of bloat.

\$850
per bu.
\$1885
per 100 lbs.

SWEET SUDAN New Introduction

Sweet Sudan produces lots of sweet, juicy, palatable forage feed for all livestock. Developed after years of research by Texas Exp. Station and USDA. Very limited supply available. Sweet Sudan has far greater disease resistance and non-shattering qualities. Produces heavier growth, remains green longer. Lots more leaves. Plant some this year. Far superior to common Sudan. Plant same as common Sudan when seeding.
Special: 20 lbs. \$4.10, postpaid. Enough for 1 acre.

\$1650
per 100 lbs.

Half and Half Permanent PASTURE MIX

Lot Half and Half is our most popular permanent Hay and Pasture Mixture where rainfall is fair to good. Is a carefully blended mixture of five grasses and five legumes in just the right proportions to grow in all types of soil and give you pasture ALL SEASON LONG. There is always something green even in the heat of the summer.

INCLUDES FIVE CLOVERS, FIVE GRASSES
To insure a good stand everywhere, this mixture includes, in proper proportions five clovers (alfalfa, red clover, alsike, Korean Clover, Sweet Clover) and five grasses (Kentucky Blue Grass, Rye Grass, Red Top, etc.).

LOT HALF AND HALF WITHOUT SWEET CLOVER
If you want us to omit Sweet Clover, we can supply the same mixture omitting Sweet Clover at only \$9.95 per bu. or \$22.10 per 100.

Price
\$895
per bu. (45 lbs.)
\$1990
per 100 lbs.

BEST NEW CROP SUDAN

ALL HIGHEST QUALITY
This is beautiful seed, 98% to 99% pure Sudan, absolutely noxious weed free. The heaviest, plumpest Sudan seed available.
Sudan will carry more head of livestock per acre than any crop we know of. High in feeding value, fine for hay, pasture. Plant 25 to 30 lbs. per acre, covering seed 1 inch deep.

\$975
per 100 lbs.

DWARF ESSEX RAPE

For quick—high feeding value pasture
Here's a real buy in rape. Ideal for hogs, sheep, calves. All like it. Equal in feeding value to alfalfa. Every farm should have from 1 to 4 acres of rape and watch feed bills go down.

\$2295
per 100 lbs.

BE SURE TO INOCULATE

Makes Them Start Faster—Yield More

Don't spend good money for clover and alfalfa seed without inoculating it. It not only does better, but must be inoculated to take Nitrogen from the air and put it in your soil.
By inoculating, you make full use of the legume's ability to fertilize your soil by adding Nitrogen to it. Makes better clover stands and crops and better crops to follow. You should inoculate even if land was inoculated before.

When ordering, Always state name of seed

Gurney's BABY Famous CHICKS

Popular Breeds • Special Crosses

**Gurney's
AUSTRA-WHITE**
Best for Eggs
7 TO 8 POUNDS

The famous cross of the champion egg laying breed of Australia, Black Australorps, with America's best egg breed, White Leghorn. Gets heavy egg production WITH MALES WEIGHING FROM 7 to 8 lbs. Try some this year. You'll want all your flock of this profitable breed next year.

Gurney's NEW HAMPSHIRE—This is often called the Leghorn of the heavy breeds, because it has heavy egg production like the Leghorn and still has the heavy weight of the heavy breeds. They mature rapidly and have vigor and hardiness of the White Leghorn and replace the White Leghorn on many farms due to their good size. They lay large brown eggs.

**Gurney's
WHITE ROCKS**
• Dual Purpose
• Brown Eggs

One of the best of the dual-purpose breeds. Snow white plumage, fast maturing, rapid feathering, yellow colored skin, free from pin feathers. Lay large brown eggs bringing top market prices.

**Gurney's
BLACK AUSTRALORPS**
• Massive Size
• Great Layer

This breed is famous for its massive size, early body maturity and great egg laying ability. They're good rustlers and the black plumage means good insurance against loss from foxes and hawks. If you try them once you are convinced for good.

**Gurney's
LEG-ROCK CROSS**
The Heavy Layer

By crossing our outstanding White Leghorn males with some of our best White Rock females, we obtain this cross which has the egg-laying ability of the Leghorn and the size of the Rocks. But they have proved in many ways superior to both—laying earlier and more, maturing more rapidly and being very DISEASE RESISTANT. Easy to raise.

Gurney's RED ROCK CROSS—The perfect heavy type broiler chicken. Big meat producer, AND gains broiler weight EARLY. Combines egg producing qualities of Barred Rocks and Rhode Island Reds to make "all-purpose" bird. Skin deep rich yellow. Eggs large, uniform and dark brown. Good rustler. Vigorous. Healthy.

Gurney's ALL BREEDS ASSORTED (40% Heavies). These are chickens selected from those left at the end of the day's shipping and oftentimes of the very best breeds. We guarantee to ship 40% of the heavy breeds with this lot. You can't go wrong and will really save you money.

Gurney's BARRED ROCKS—The favorite on many farms. Barred Rocks are large in size, fast maturing, rapid feathering, make good broilers or heavy roasters. They produce large brown eggs. Gurney's have improved these by careful culling and mating with pedigreed males.

Gurney's WHITE WYANDOTTES—These are the deep breasted birds among the first to go to market. Very good broilers. Will reach 2 to 3 pounds quicker than most any variety. Good rustlers—pick up all waste seed on the farm. Easy to raise and mature rapidly.

Gurney's BUFF ORPINGTONS—This is Gurney's giant strain of Buff Orpingtons, especially good winter layers due to their large bodies and heavy plumage. These eggs come on the market when it is the highest. Make good heavy capons or heavy roasters. If you are interested in winter eggs and heavy meat birds, here's the variety for you.

Gurney's RHODE ISLAND REDS—These deep red Rhode Island Reds are favorites on many farms. Strong and rugged. They are next to Leghorns in egg production. Gurney's Reds are quick feathering, fast maturing and will be ready for the early market. They lay large brown eggs.

**Gurney's Famous
WHITE LEGHORNS**

Our famous White Leghorns have proved to be one of the most popular breeds for our customers to raise. These are the large type (not beefy) and are full of vigor and are great rustlers. Don't make a mistake in thinking all White Leghorns are alike. They're not. Gurney's have worked for years to perfect a better laying strain and these EXTRA EGGS mean EXTRA PROFITS to you at no increase expense. Buy with care. Get the best. Get Gurney's White Leghorns.

GURNEY BABY CHIX

There's been a lot of talk about the Government's attitude toward chickens and eggs. Really, it's more talk than anything else. Dollar per dollar of feed, chickens have always made more money on the farm than any other livestock, and this will be true this year, too.

DON'T BE CAUGHT SHORT

What with more food being demanded for overseas shipment, and the continuing rise of prices this must bring about, chickens will become more valuable and more welcome on the farm than ever before. It's one way to always have a supply of ready meat you can't beat, not to mean ready cash on the market.

Some people are going to reach this conclusion too late in the year and wake up to find they can't buy the baby chicks they wanted. Hope you aren't one of them. Best advice we can give is get your order in early. You have confidence in Gurneys and Gurney fair prices, so don't delay a minute.

Some FACTS

About Gurney Chicks

Every egg set in the Hatchery is from flocks carefully bloodtested, culled, individually banded by experienced selectors and bloodtesters and all reactors found and all birds not meeting the rigid Gurney requirements are removed.

Most of our flock owners have been with us for years and therefore through their cooperation we have been able to introduce and breed into their flocks some of the outstanding bloodlines of America.

All flock feeding and housing is supervised by Gurney trained hatcherymen to give you chicks from eggs that are properly cared for and hatch good sturdy chicks that will live and produce a profit for you.

THE BEST ONLY

Only birds of perfect body type, high-producing laying ability, and good health and vigor are allowed to produce eggs for Gurney chicks. This is your guarantee of quality.

Gurney's Chicks Guaranteed to Arrive 100% Safe

We guarantee our prices to be lower, quality considered, than others. All of our baby chicks are exactly as represented in the grade and variety ordered, and guaranteed to reach you 100% alive.

Extra chicks are included in each box so when chicks arrive, count the live ones and if you don't have full count of live chicks, or they are in bad condition, simply have your delivery agent sign a statement and mail to us within 24 hours and they will be replaced FREE.

WHERE GURNEY CHICKS ARE HATCHED

This is the big hatchery at Yankton, brand new, with brand new equipment last year, where Gurney chicks are hatched for you. Nothing finer in the whole Northwest.

Better Breeding Means Bigger Profit for You

It costs you no more to raise a high-producing chick than a scrub chick, but where the scrub chick often loses you money or makes only a small amount of profit, a high-producing strain will make you good profits.

Don't waste your time and feed on chicks of doubtful origin. It isn't worth it. This year, insist on Gurney's guaranteed high-producing strains and pocket EXTRA PROFITS.

Gurney Breeds Are Good Layers

Good laying chickens come about from good breeding—and good breeding only. That's why we say "Get your baby chicks at Gurney's and BE SURE of laying quality." Breeding stock is the most important concern of the Gurney Hatcherymen. That's why Gurney chickens are good layers. Their laying ability is bred into the chickens.

Note the extra large boxes in which we ship baby chicks.

SEXED PULLET GUARANTEE

90% true to sex guaranteed on pullets. If more than 10% are males, we will make an adjustment on all over 10% not true to sex. This applies both to hybrids and pure breeds.

All sex complaints must be made within 60 days from the date the chicks are received. In case of complaints proper forms will be sent you. In no case are we liable for more than the original purchase price of the chicks ordered.

MEAN PROFIT FOR YOU IN 1948

Here are some of the finest chicks you can buy—all from eggs from carefully culled, carefully bloodtested, high-producing flocks—superior bred to please Gurney's customers who want the best at a fair price.

No expense has been too great for us in bringing in high-producing blood lines, culling, and bloodtesting our hatching flocks, and supervising all flocks—so that Gurney's chicks will be **SUPERIOR CHICKS IN EVERY WAY.**

Good Chicks Cost No More to Raise

IT COSTS YOU NO MORE TO FEED A HIGH-PRODUCING CHICK than it does a scrub chick, and that high-producing chick will make you a nice profit while scrub chicks often actually lose you money.

And Gurney's high-producing chicks cost you no more. Don't be satisfied with anything this year but Gurney's Better Bred Chicks.

Take Advantage of Extra Discounts by Taking Early Delivery

We aim to give our customers every possible "break" on price. One of the things that bothers every hatchery is delivery date. Too many people want their chicks at the same time. Even when it is to their advantage to order early, they seem to put it off. February is one month when we can take more orders. So, we are going to give every Gurney customer a \$1.00 DISCOUNT PER HUNDRED CHICKS, if he will take delivery in February. Remember this offer is for FEBRUARY delivery only.

Buy Sexed Chicks and Save Money

Buying cockerels early for the high spring markets and then following with a flock of pullets uses your brooder house double and makes you extra money. Besides cockerels and pullets do better, if raised separate. They cost you little more than straight run chicks, but make you real savings in raising.

C.O.D. Plan

Send \$1 for each 100 chicks or less wanted. Pay balance plus transportation charges on delivery. Be sure to specify on your order if wanted this way.

Make 2nd Choice

Getting chicks to our customers right at the time they want them is one of our greatest problems, and we do the best we can always. To help us here, we'd appreciate it, if you can, to make a second choice in breed. It isn't necessary to do this, but if you are only half decided between one and the other, please give us a choice. We'll always ship first choice if we can.

Save \$1 to \$3 Per 100 Chicks

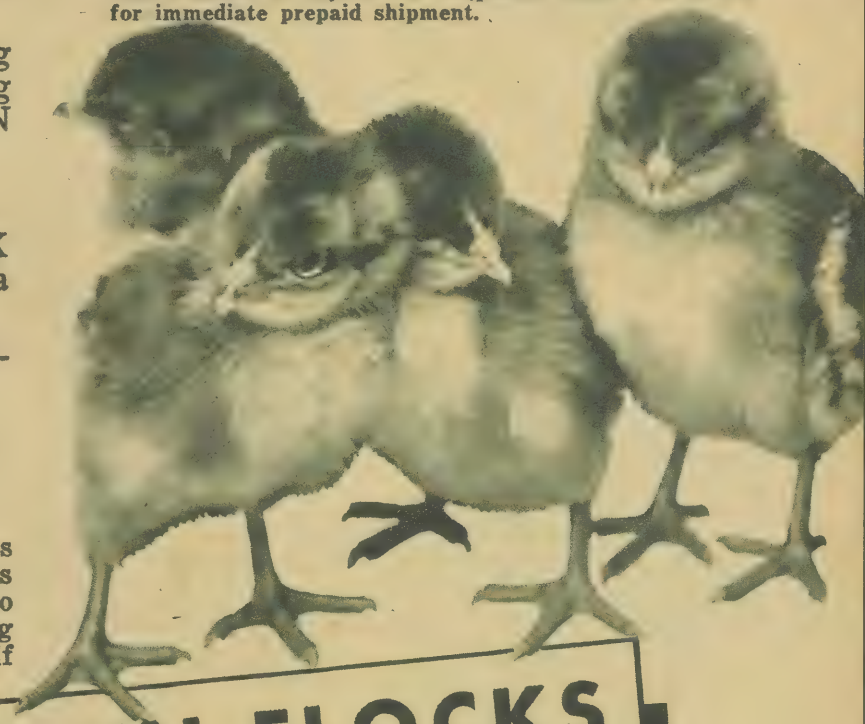

High producing blood is used in our matings for high egg production. GURNEY'S SAVE you \$1 to \$3 per 100 chicks. Order now and save most.

Dollar for dollar you'll get better chicks from GURNEY'S.

Quality for quality you'll save money at GURNEY'S.

ONLY \$1 PER 100 NEEDED

This holds your order for any delivery date you wish. Send balance 10 days before shipment. Send cash in full for immediate prepaid shipment.

"Highest Quality" Breeding Stock

We are in a position to send you "Highest Quality" Breeding Stock in the following breeds: White Rocks, Barred Rocks, White Wyandottes, Buff Orpingtons, Rhode Island Reds, New Hampshires, Buff Leghorns, White Leghorns and Black Australorps. These are Cox only. Price 25c each.

High Quality!

Gurney's Laying Grade Strong, healthy standard bred chicks, far superior to ordinary hatchery chicks, such as Grade A, etc. They are all from rigidly culled, properly fed and mated parent stock. Every breeder has been individually culled for health, general quality, type, and egg production. 23 oz. eggs or larger set to hatch these fine healthy chicks.

Higher Quality!

Gurney's Special Egg Grade Just what you're looking for in a superior bred chick, yet cost very little more than the Laying Grade. More rigidly culled for quality and high egg production. Many highest egg grade cockerels are used in this Egg Grade mating. Get extra eggs with this grade.

Highest Quality!

Gurney's Highest Egg Grade More eggs, more profit from the same feed. This grade is our finest bred chick, both for eggs and meat. It costs you no more to raise 200 egg hens than a 90 egg hen, but you make 5 to 6 times the profit.

Gurney's NORTHERN-GROWN TREES

The trees you get from Gurney's are Hardy, Northern-Grown stock that will do well for you, whether you live in the cold and drought country, or in milder climates. The important thing is being hardy. Gurney's trees have to be.

LAKE CITY ELM

AN-729—A beautiful, extra hardy, spreading Elm. Fast growing. These trees are grafted and will be exactly alike. We recommend these for street, park or boulevard planting or for specimens in your yard. A row of these along a drive is one of the most beautiful sights you can imagine.

	Each	Per 3	Per 5
4-6 ft.....	\$1.39	\$3.89	\$5.98
6-8 ft.....	1.98	5.39	8.49
8-10 ft.....	2.50	6.90	10.49

HOW TO DO WELL WITH TREES

Anybody can grow trees almost anywhere, if he will just take reasonable care in planting them, and plant only hardy, northern-grown stock. More trees are lost from carelessness than any other reason. Follow these simple suggestions, and you can't go wrong.

1. Plant trees the day they arrive. Don't let them sit around even one day. Don't even heel them in unless absolutely necessary.

2. Trim off 1/2 of every branch, except the leader, with a sharp knife or shears. Trim all broken or extra long roots.

3. Plant the same depth as it was growing in the nursery. You can easily see the dirt line.

4. Tamp dirt well around the roots while planting and after.

5. Leave trench around tree and soak well after planting. Soak twice a week for first two months unless weather is very rainy.

6. Guy all trees over 6 feet in height with wire or rope for the first year.

Prune branches and roots wisely — about one-third.

Set trees and shrubs in tub of water before setting out.

ABOUT SHIPPING TREES

Most trees are too tall to be sent parcel post, so we ship them express. Please note these prices are not prepaid, except where noted, but if you order \$15 worth of nursery stock or more, we will prepay the express.

Gurney's Hardy Siberian Type of

CHINESE ELM

The Most Useful Tree for the North

For Real Shade—If you are like most of us and don't want to wait forever for shade, the Chinese Elm is hard to beat. Every State throughout the Plains Area needs more of these wonder trees. They're heavy rooted, heavy calipered, and well branched. Plant a 6 to 8 foot tree on your lawn this spring and in five years, under ordinary conditions you can have a shade tree you will really be proud of—can even reach a height of 20 feet. They give the kind of shade you want IN LESS TIME. Don't fail to plant a few this year if you want the finest.

For Windbreaks—This Siberian Type Chinese Elm is hardy and tough. We gather hundreds of pounds of this seed in the Dakotas. . . . The Mother Trees came through years of drouth and the coldest winters on record. They thrive and grow FASTER THAN ANY OTHER TREE.

For Grove—Plant a thousand Siberian Elm seedlings this spring and in three years you can have a grove fifteen feet high. In five years you can cut fence posts or fire-wood. The wood, when dry, is so hard it will dull your knife.

For Hedge—During the past few years, the Chinese Elm has come into use as an ornamental hedge plant. Everywhere you see the Siberian type of Chinese Elm hedges, trimmed and neat. Many are ready for trimming the first year. If you want a quick hedge with heavy foliage clear to center, plant Chinese Elm—Siberian type.

CHINESE ELM SHADE BARGAIN—AN-779X

7 giant 3 to 4 ft. heavy rooted trees for shade for \$1.98

Chinese Elm for Hedging—AN-389

The Chinese Elm makes a beautiful hedge. Extremely fast growing, it gives you a hedge in a hurry and a hedge that grows thicker and tighter than almost any other. Can be trimmed to any height from 1 ft. to 12 ft. tall. Ready for trimming in ONE YEAR!

\$3.29

Here's a bargain in Chinese Elms—enough for 8 rows 200 feet long.

SUGAR OR HARD MAPLE

Most Colorful of All

AN-730—One of the finest and most rapid growers of the hard maples. For street and lawn planting it can't be beat. The foliage is a beautiful green color in the spring and as summer turns into fall, the foliage turns beautiful copper, yellow and orange colors. Takes a long time growing but well worth it.

Size	Each	Per 2	Per 5
5-6 ft.....	\$1.79	\$3.45	\$8.25

WHITE BIRCH

Pretty Year Around

AN-728—A graceful, medium sized tree with deep green foliage, white bark. The winter effect is excellent especially when planted near Evergreens. Gives a contrast in your lawn that is very beautiful. This is one of the most beautiful of all trees. No planting should be without at least one.

Size	Each	Per 2
4-5 ft.....	\$1.25	\$2.39
5-6 ft.....	1.75	3.29

UMBRELLA CATALPA CATALPA BUNGEI

AN-706—These trees are often planted in pairs, one on either side of the front walk. They have a spreading, compact head about 6 feet from the ground, dome-shaped, with large, dense leaves, making it look like a big green umbrella. They will be trimmed for planting before shipment. Many people will have no other tree in their lawns and parking other than these regular, compact, ball-shaped "umbrella" trees.

4-5 ft.....\$1.99; 2 for \$3.50

PURPLE LEAF PLUM

(Prunus Cistena)

AN-731—Here is a tree so beautiful it looks like a picture. In its spring flowering time it has myriads of white or pale pink blooms scattered like thousands of stars through the brilliant red foliage. Its gorgeous bright reddish leaves stay in brilliant color at all seasons. The tree is very hardy. It may be allowed to grow in shrub form or may be trimmed to tree form, but in any case you will welcome its beautiful purple leaves and banks of flowers as a contrast in your planting.

Size	Each	Per 2	Per 5
2-3 ft.....	\$0.98	\$1.89	\$4.49
3-4 ft.....	1.39	2.69	6.29
4-6 ft.....	1.98	3.89	9.39

Laurel Leaf Willow

AN-732—This is a beautiful tree with chestnut-brown bark and deep green lustrous foliage. Grows quickly, is one of the most valuable willows for windbreaks, firewood, etc. They do well even on high, dry land.

SCHWEDLER MAPLE

Colorful All Season

AN-720—This tree can really "do things" for that lawn of yours. The leaves are a beautiful purplish-red in spring, thereby contrasting with all of the green foliage. Gradually these high-colored leaves soften to bronze and finally to a deep waxy green. It has a round symmetrical head. A long-lived tree that will be permanent and add beauty for years to come.

Size	Each	Per 2
5-6 ft.....	\$2.28	\$4.19

CAROLINA OR NORWAY POPLAR

AN-705—This is a wonderful tree for a quick windbreak. It grows tall (75 to 100 ft.) with many large branches and large glossy leaves giving a dense shade. Very hardy and unlike the cottonwood, which bears cotton-like seeds, which is the big nuisance of the ordinary cottonwood tree. Very rapid grower.

Size	Each	Per 10	Per 50	Per 100

LOMBARDY or Black POPLAR

With the Stately Column

AN714—This is the Poplar that is so much used for avenue or background planting. They form tall, stately columns of dark, shiny-green leaves. It succeeds on soil too poor for other trees, and grows rapidly. Widely used for screening and wind-break purposes because the foliage grows close to the ground.

(Postpaid)	Each	Per 2	Per 5	Per 25

MOUNTAIN ASH

One Most Colorful

AN715—Red Berried—One of the most ornamental trees you can possibly plant. The foliage is a beautiful green. Light, smooth bark, a broad head very compact, with gorgeous creamy white blossoms in the spring, followed by the many, many clusters of scarlet and carmine berries in the late summer and fall. It grows very rapidly.

Size	Each	Per 2
5-6 ft.	\$1.59	\$2.98

CARAGANA

(Siberian Pea Tree)

The miracle tree for the north. Grows rapidly to a height of 12 ft. making an almost SOLID WALL to stop winds. Drought, hot winds or grasshoppers cannot stop it. ABSOLUTELY HARDY ANYWHERE. Also, makes IDEAL HEDGE—very tight and neat.

EVERGREENS

These evergreens are all EXTRA-HARDY, giant-rooted trees grown for you here in our own nurseries in Yankton. Every one is a perfect specimen you will be delighted with.

All evergreens are listed "balled and burlapped" ("B&B"). This means they are dug with a ball of soil on the roots just as they grew in the nursery row and carefully wrapped with burlap.

We will pick out matched specimens if you wish to order your evergreens in pairs. All varieties are hardy. You can plant with assurance of success.

How to Grow Evergreens

Evergreens should be planted as soon as they are received. Their greatest immediate requirement is water. Water them the day you receive them, and do not, at any time the first year, allow them to become dry. This way they will do well for you and you'll be real pleased.

SILVER JUNIPER
Scopulorum

IN9—This upright variety of the Colorado Silver Cedar is very popular because of its outstanding silver foliage and its upright habit of growth. It has a full base with limbs curved upward covered with shining silvery foliage. Will grow about a foot a year and eventually will attain the height of 20 to 30 feet if left unsheared. Can be kept to a height of 6 feet, 8 feet, or whatever height you desire by shearing it once a year in the same manner that you would a hedge. One of the most drought resistant of the Evergreens.

VIRGINIANA JUNIPER
(Sheared)

IN39—These trees are kept sheared so they are shaped like narrow cones, and are extremely attractive when planted in pairs one on each side of your house entrance. Perfectly hardy and resistant to drouth. As they are native to the midwest, they are adapted to our soils and temperatures. Bright blue berries which often cover the branches in the fall, highly ornamental and loved by the birds.

GREENISH SILVER MOFFETI
"The Fast Growing Pyramidal"

IN40—This is another grafted Colorado Silver Cedar and a beautiful tree. Foliage is sharp, light greenish silver color. The tips of the branches are more silver, making a beautiful color contrast. This tree is an upright pyramidal grower with branches close together making a very dense tree. Grows about 12 inches per year. Will grow under most any mid-west conditions and like it. It can be kept sheared down to a height of 6 ft. or less if desired or can be allowed to grow up to 15 or 20 ft.

AUSTRIAN PINE

The Pine With the Long Needles

IN42—Sometimes called the Black Pine. An outstanding and beautiful Pine in the midwest. Has long needles of a rich black-green. Dormant buds at the tips of the branches are white and resemble candles set in a Christmas tree. An outstanding beautiful Pine. Can be used as specimen on the lawn or in screens and windbreak. Grows 12 in. a year. Ultimate height 50 to 60 ft.

PFITZERS JUNIPER
Most Popular Spreader

IN44—The most popular spreader. A fine handsome Juniper. It has arching, spreading branches, feathery, gray-green foliage, a broad picturesque form. It is hardy everywhere and does well in shade as well as sunshine. The tips should be cut back once a year to keep the plants full and beautiful. These plants get 6 to 8 ft. across at maturity. Can be kept to 4 ft. across by shearing. Pfitzers Juniper is the best seller of its type.

Four Great Windbreak Evergreens

Just the right size for windbreak and shelterbelt purposes. Transplant very readily at this particular size. These trees will be dug in the nursery, immediately dipped in mud which will insure their getting to you in good condition. All of these trees will grow with the branches clear to the ground, thus shutting out the wind in winter when a windbreak is desirable. There is nothing that will increase the value of your property more than an evergreen windbreak. Plant 8 to 12 ft. apart in the row, rows at least 12 ft. apart. These trees are transplants, and have a good root system. For further description, see page 32. All prices postpaid.

IN34—COMMON CEDARS: This is the tree planted so extensively for windbreak. Rapid in growth, hardy, drouth resistant, very ornamental, makes excellent fence posts.

THREE GREAT EVERGREENS

DUNDEE JUNIPER

IN10—A new grafted Juniper. We consider this tree the most valuable Juniper introduction in years. It originated from a specimen found in the D. Hill Nursery. It makes a compact, symmetrical pyramid of moderate size. Its spring and summer color is grayish green, slightly on the purplish tinge. Fall and winter color is a purplish plum shade. This is not the bronze color of the ordinary red cedar but is a most attractive shade unlike the winter color of any other cedar. This remarkable tree is one of the few varieties which we grow that is adapted to all parts of the country. It survives well in the deep South, on the Pacific coast, and well as in the East and Central States.

BLACK HILLS SPRUCE

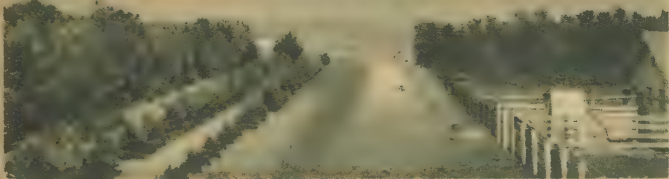

IN6—The compact perfect shaped spruce. What made the Indians call the mountains of South Dakota "Paha Sata" or Black Hills! It is this beautiful spruce that imprisons the shadows and from a distance gives the hills a black shadow. Its new growth is silvery, extremely hardy. Its compact growth makes this beautiful for landscaping and windbreak as well as a perfect specimen tree for the lawn.

COLORADO BLUE SPRUCE

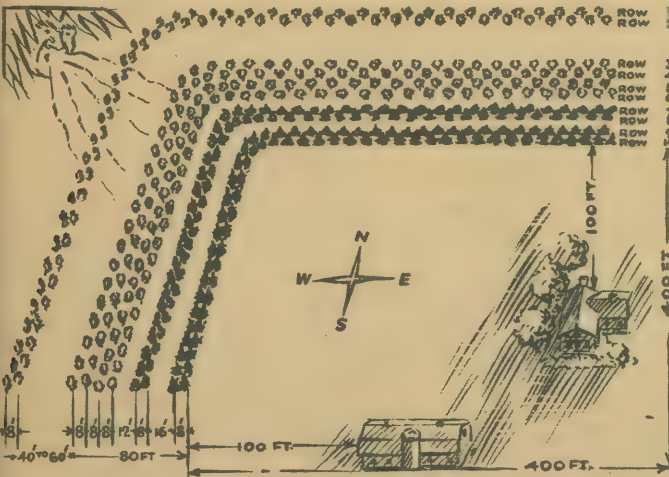

IN1—(Special Notice)—We do not have enough fine Colorado Blue Spruce to list them in a regular listing. However, we do have a few in a considerable number of sizes, so if you are interested in the finest of all Evergreens, write to us and tell us what you need and we will write back quoting you on such Colorado Blue Spruce as we have that we think will satisfy your requirements. They will all be well trimmed, well shaped, balled and burlapped trees of a good blue color.

PLANT A WINDBREAK

A good windbreak which will protect the home and feed lot from winter winds, is easy and inexpensive to plant and practically takes care of itself.

Besides this, it is a source of firewood, lumber, and posts, and a never ending satisfaction of having something green and cooling right at hand for both man and animal. Gurney's have been supplying the great Northwest with hardy windbreak trees for 3 generations.

The drawing above is typical protection for Northwest winter winds. Trees for each row can be chosen according to taste or needs, but generally low trees on the outside, growing tall to about 3/4 way back, and then low again, is most practical. Evergreens are best on the inside rows. Here are suggestions:

Rows 1 and 2: Caragana, Russian Olive, Chinese Elm, Willow, Mulberry. Plants 4 ft. apart in the row. These two rows are known as snowbreaks. Leave 40 to 60 ft. between them and the next.

Rows 3 and 4: Caragana, Green Ash, Chinese Elm, American Elm. Plants 6 ft. apart in the row.

Rows 5 and 6: Cottonwood, American Elm, Chinese Elm. Plants 6 ft. apart in the row.

Rows 7 and 8: Soft Maple, Hackberry, Mulberry, Cottonwood, American Elm. Plants 6 ft. apart in the row.

Rows 9 and 10: Austrian Pine, Bull Pine, Spruce, Cedar, or Caragana and Russian Olive may be used again. If evergreens, 8 to 10 ft. apart in the row. If tree, 6 ft. apart is the proper spacing.

EASY TO PLANT

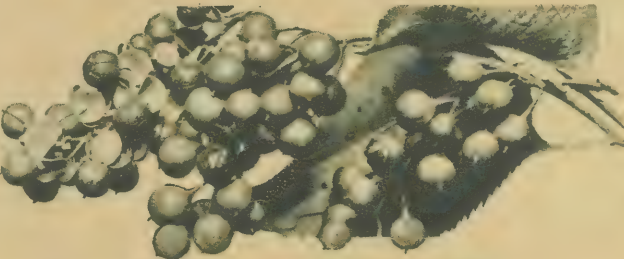

Here's a quick, easy way to plant windbreak trees. First take a walking plow, throw out a deep furrow along the row of trees to be planted. (Plow fast enough so as to throw dirt well out of furrow.) Second, put each individual tree against the straight edge of the furrow, then throw the loose dirt back in over the roots. Pack firmly with the feet. CUT ALL SEEDLINGS OR TREES BACK TO LESS THAN HALF THEIR HEIGHT AS SOON AS PLANTED (except Evergreens, which require no pruning). Use the cultivator plenty the first two summers.

VINES

There's no one thing that adds more to the attractiveness of a house with but little cost than a handsome vine—either a green ivy vine or flowering variety. And they're so easy to grow. Set them beneath the portion of your home or trellis you want them to cover. Dig hole about 18 in. or more from the foundation and water well. That's all there is to it.

These are all extra-heavy, well-rooted vines that will give you QUICK RESULTS.

Grow Vines to Give You Shade—Beauty—Hold Soil on Bad Terraces

AMERICAN BITTERSWEET

AN800—Native of the Northwest. Produces an abundance of bright red berries that are used for decorative purposes in the home. Grow Bittersweet in your own back yard and have this beautiful winter bouquet. You must have at least two to get berries.

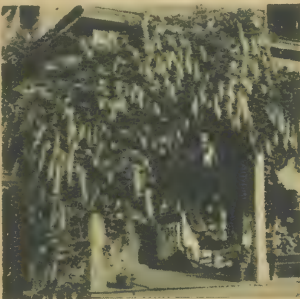

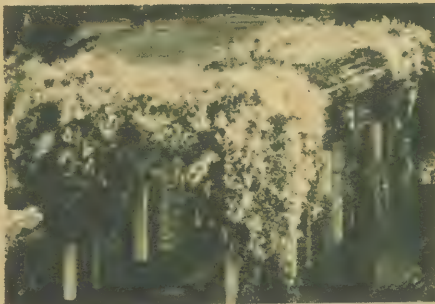

2 for 69c; 5 for \$1.59, postpaid.

SILVER LACE VINE

The Most Beautiful Vine

AN814 — This is a fine addition to any vines that you may be growing. It is of twining habit and grows quickly. Completely covers itself with silvery white flowers from mid-summer until frost. Generally grows 20 feet in a single season. Pretty white flowers cover vine from top to bottom.

59c each; 2 for 98c, postpaid.

WISTERIA

AN813—This is a common variety that everyone knows and likes. In May and June it bears a great profusion of pea-shaped flowers in huge clusters, and is hardy in sheltered locations. Our plants sure to bloom. 49c ea.; 2 for 89c, ppd.

HALL'S JAPAN HONEYSUCKLE

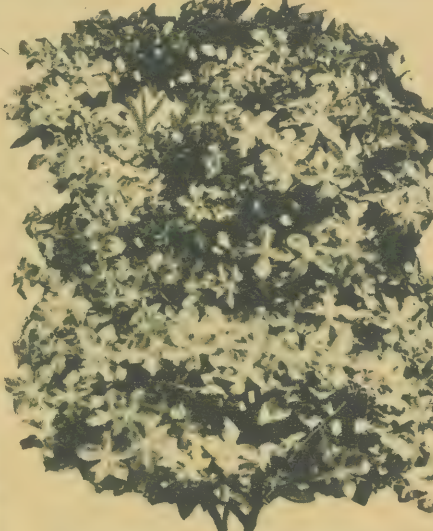

AN808 — HONEYSUCKLE (Halleana): Flowers an intermingling of white and yellow, extremely fragrant, a hardy fast-growing flowering vine for Porch or Arbor. They are perfectly hardy and cover themselves with flowers. 39c each; 2 for 69c; 5 for \$1.49, postpaid.

BETA GRAPE—AN837—This grape is a favorite for covering walls, buildings, out places, etc., as it grows rapidly. It exceedingly hardy, produces excellent fruit, has beautiful deep green foliage, turning to brilliant red in fall. 35c each; 4 for \$1.29; 8 for \$2.50, postpaid.

EVERBLOOMING "ORANGE-GLOW" HONEYSUCKLE

AN836 — A honeysuckle vine that we believe has almost reached perfection. The flowers are almost indescribably Beautiful!!! A coral-orange—a color we have found in NO OTHER Flower. And it's EVERBLOOMING from spring to frost producing large flowers in long spikes. 79c each; 2 for \$1.39, postpaid.

PURPLE HYBRID CLEMATIS

AN802—This vine is exquisite and I think most of you are familiar with this hybrid clematis Jackmani. Bears large purple flowers that are so gorgeous with a rich velvety appearance. It blooms from July until frost and is very hardy. 79c each; 2 for \$1.49, postpaid.

CRIMSON HYBRID CLEMATIS

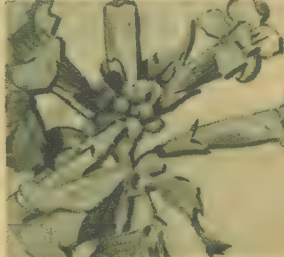

The New Red Flowered AN803—Rare, new large flowered variety of Clematis. Same type as Jackmani or the purple, except it has rich red flowers. Flowers are often from 4 to 6 in. across. Blooms over a long period and extremely beautiful. By all means plant one with your purple clematis. Selected vines. 79c each; 2 for \$1.49, postpaid.

FRAGRANT FALL CLEMATIS

(Clematis Paniculata) AN801 — (Clematis Paniculata). Extremely scarce throughout the war period as the seed comes from Asia, and could not be imported. We now have a good stock. This vine is a mass of dainty white blooms all through the late summer and fall. Usually dies down to the ground each winter. 69c ea.; 2 for \$1.29, ppd.

TRUMPET VINE

- Fragrant
- Hardy
- Immense

AN815—You are probably all familiar with this beautiful vine. It produces immense, orange-red, trumpet-shaped flowers. Very fragrant and will climb anywhere. The foliage is odd shaped and very beautiful. Wonderful vine for porches and trellises.

Selected vines, 39c each; 2 for 69c, ppd.

ENGELMAN'S IVY—AN811—You will be amazed at how rapidly this grows and how well it clings. A handsome five-leaved ivy, with very thick foliage. Thrives well in sunshine or shade. The foliage is green, turns to a brilliant red color in the fall. Clings to Brick or Stucco. Selected vines. 39c each; 2 for 69c, postpaid.

\$2.98 Ppd.

ALL FOUR

GURNEY'S, Yankton, So. Dak.—"Northwest's Largest Seed and Nursery House"

How to Plant Shrubs: There's nothing to planting shrubs. General planting directions are included with every order. Set low growers about 2 ft. apart, medium growers 3 ft., and tall growers about 4 ft. apart. Spread roots out well, tamp earth back **SOLIDLY**, and prune back one-third to one-half of the growth. **THIS IS EXTREMELY IMPORTANT** as the top must be cut back to compensate for the loss of roots.

PINK ALMOND (Double Flowering)

Every Branch Lined With Flowers

AN-546—In early spring, before other shrubs are in bud, the Flowering Almond is a bride's bouquet of double, pink, rose-like flowers. . . . Every branch is covered. It is hardy and "breathtakingly" beautiful. Loads of flowers one year after planting. It grows to five feet. Use it in beds or in the shrub border.

Size	Each Ppd.	Per 3 Ppd.	Per 5 Ppd.
18-24 in.	69c	\$1.89	\$2.98
2-3 ft.	79c	2.19	3.49

FORSYTHIA (Golden Bell)

Earliest Shrub to Bloom

AN-521—Golden flowers often against the last snow of spring. Few, if any, of the spring-flowering hardy shrubs can surpass this slender and brilliant flowering shrub. It is upright in growth; foliage rich, dark green turning to bronze in fall. Grows 4-6 ft. tall.

Size	Each Ppd.	Per 3 Ppd.	Per 5 Ppd.
18-24 in.	49c	\$1.29	\$1.98
2-3 ft.	59c	1.59	2.49

BARBERRY

AN-505—GREEN BARBERRY: The dwarf shrub that never needs trimming. Dense, heavy dark green foliage that turns copper red in the fall. Has scarlet berries all winter. 2 to 4 ft.

Trans- plants	Each Ppd.	Per 3 Ppd.	Per 5 Ppd.	Per 50 Ppd.
12-18 in.	29c	\$0.85	\$1.25	\$12.00

	Ppd.	Ppd.	Ppd.	Ppd.
8-12 in.	\$1.59	\$2.98	\$5.25	\$9.75

AN-506—RED BARBERRY: Like above, but red all summer. Ideal for contrast with green-leaved shrubs.

12-18 in., 49c ea.; 3 for \$1.39, pp.

SNOWBALL

The Giant Snowball Shrub

AN-556—This is the favorite shrub of most people. It is a lovely sight, too, when loaded with bloom. Very hardy, attains a height of 6 to 10 feet. . . . Is filled with white balls of bloom in the last part of May. Plant plenty of these.

Size	Each Ppd.	Per 3 Ppd.	Per 5 Ppd.
12-18 in.	69c	\$1.89	\$2.98
18-24 in.	79c	2.19	3.49

BUTTERFLY BUSH Flowers the Entire Summer

Hardy with protection. Make large shrub and bloom all of first summer planted, so for our low price will be well worth the money even if they don't live over.

AN-507—Ile de France: Deep rich purple. 49c ea., postpaid.

AN-512—Hartwegi: Clear lavender. 39c ea., postpaid.

AN-509—Pink Charming: Fine pink. 59c ea., postpaid.

AN-510—Red Glory: Bright red. 65c ea., postpaid.

HYDRANGEA A. G.

Early Summer Snowball

AN-526—Snowball Hydrangea: This magnificent perfectly hardy shrub has snow-white blossoms. One of its most valuable characteristics is its coming into bloom just after the passing of all early spring-blooming shrubs. Does better planted in partially shady places—such as the north and east sides of buildings. Grows 3 to 5 ft. tall.

Size	Each Ppd.	Per 3 Ppd.	Per 5 Ppd.
18-24 in.	95c	\$2.79	\$4.49

HONEYSUCKLE

AN-517—Upright Tartarian: Its glossy leathery foliage comes very early in the spring. Its grayish-white wood is beautiful at all seasons of the year. Stands heavy trimming and drought. Its fragrant red and pink blossoms fill the air when in bloom, and the bright colored berries make it beautiful well into the fall. A Fine Hedge Plant. Grows 8 to 10 ft. Can be trimmed any height.

Size	Each Ppd.	Per 3 Ppd.	Per 5 Ppd.
18-24 in.	39c	\$0.98	\$1.49
2-3 ft.	49c	1.29	1.98

BUSH BITTERSWEET

AN-576—Wahoo or Strawberry Bush: Shrub or small tree to 15 feet. Purple flowers in June. Leaves have splendid fall coloring. A fiery rich red. Has clusters of red berries in fall like vine Bittersweet. An unusual shrub that will make you the talk of the town. This shrub is extremely hardy.

18-24 in., 49c each; 3 for \$1.29, postpaid.

DOGWOOD (Red)

Crimson Twigg'd Shrub

AN-574—A sturdy, beautiful shrub with heavy foliage and bright red bark. In the winter the red bark shines in the snow and adds a touch of brightness to the dark season. Plant a mass of fire. Covered with white blossoms in summer. Grows to 4-6 ft.

Size	Each Ppd.	Per 3 Ppd.	Per 5 Ppd.
2 to 3 ft.	59c	\$1.59	\$2.49
3 to 4 ft.	69c	1.89	2.98

HYDRANGEA P. G.

Late Summer—Massive Flowers

AN-527—Hardy Shrub producing panicles of white flowers, as large as 10 inches across, changing to shades of pink in the fall. . . . Blossoms hold on well into the winter. Excellent for foundation or shaded plantings. Grows 3 to 5 ft. tall.

18-24 in., 89c ea.; 3 for \$2.49; 5 for \$3.98, postpaid.

SNOWBERRY

For Winter Beauty

AN-557—A lovely shrub with dainty, rose-colored flowers, followed by large, clustered, milk-white fruits which remain far into winter. Does well in shade. Grows 3 to 4 ft. tall.

18-24 in., 49c ea.; 3 for \$1.29; 5 for \$1.98, postpaid.

RED CORALBERRY

AN-558—Similar to White Snowberry, but has RED berries after blooming (white blossoms). Very hardy. Likes hot dry spots. 3 to 4 ft. Excellent for foundation planting.

Size	Each Ppd.	Per 3 Ppd.	Per 5 Ppd.
18-24 in.	49c	1.29	1.98
2-3 ft.	69c	1.89	2.98

HEDGES

How to Plant

Hedges are the cheapest kind of fence you can have, and they are so much more attractive they add much to the value of your property. You don't have to repair this kind of fence and they're ideal for making your lawn private. They're easy to plant, too. About 1 ft. apart is the usual distance except with barberry usually set 18 in. apart and honeysuckle and Spirea Van Houttei usually set 2½ to 3 ft. apart.

Some like to stagger the planting in zig-zag lines to make hedge tighter but straight line is just as good. Cut back to within a few inches of the ground to make the hedge bush from the ground.

CHINESE ELM

The Quick Grower

AN-381—If you want a hedge in a hurry, plant Chinese Elm. Can be trimmed to any height you wish from 1 ft. to 10 ft. Makes one of the tightest hedges possible. Very hardy and drought-resistant. Leaves out early and holds leaves late. Set 12 in. apart.

Size	Per 25 Ppd.	Per 100 Ppd.
12-18 in.	\$0.80	\$2.39
18-24 in.	.98	3.49

BUCKTHORN

The Hedge Plant for the North

AN-388—Thick glossy foliage with strong branches and is hard to break through. Perfectly hardy and excellent as a snow-catcher. Makes fine ornamental hedges and can be trimmed to any desired shape. Plant 9 inches apart.

Seedlings	Per 25 Ppd.	Per 50 Ppd.	Per 100 Ppd.
9-12 in.	\$1.89	\$3.69	\$7.20
12-18 in.	2.39	4.59	8.49
18-24 in.	2.98	5.48	9.98

TARTARIAN HONEYSUCKLE

For Tall Screening Hedge

AN-382—This is one of the most popular screening hedges because it grows fast, grows tall for screening purposes, has beautiful foliage, and in the spring is covered with beautiful pink flowers followed by shiny red berries. Set 2½ ft. apart.

Size	Per 12 Ppd.	Per 25 Ppd.	Per 50 Ppd.	Per 100 Ppd.
12-18 in.	\$1.89	\$3.59	\$6.75	\$12.98
18-24 in.	2.69	4.69	8.79	15.75

PRIVET HEDGE

AN-385 (Amur River North)—Foliage glossy green, holds its color well into late fall. Will stand shearing to any extent. This is a strictly first-class ornamental hedge plant for southeastern S. Dak. and like climates. Plant 10 inches apart.

Size	Per 25 Ppd.	Per 50 Ppd.	Per 100 Ppd.
12-18 in.	\$2.78	\$5.25	\$9.98

RUSSIAN MULBERRY

For Clipped Hedge

AN-386—This makes an ideal clipped hedge—a little darker than Privet. Grows rapidly. Can be trimmed to any height desired. Not quite as nice in habit as Privet or Chinese Elm for hedge, but still good and best—very economical. Plant 1 ft. apart.

PRICE: 12-18 in., 25 for \$1.19; 50 for \$2.10; 100 for \$3.98, postpaid. 18-24 in., 25 for \$1.50; 50 for \$2.79; 100 for \$5.50, postpaid. 2-3 ft., 25 for \$2.25; 50 for \$4.29; 100 for \$8.50, postpaid.

COTONEASTER

Acutifolia: A high quality hedge and a beauty. Dense growing. By pruning may be kept down to 18 inches or will make a hedge 4 feet high. The dark glossy leaves appear very early in the spring. Flowers are white in clusters. Produces very conspicuous black fruit. This shrub thrives in almost any soil. The leaves, in fall, turn to striking red and yellow. Attractive to birds. Plant 10-12 inches apart.

Seedlings	Per 25 Ppd.	Per 50 Ppd.	Per 100 Ppd.
9-12 in.	\$2.95	\$5.40	\$9.60
12-18 in.	4.9c	9.10	16.75
18-24 in.	5.9c	11.75	22.50

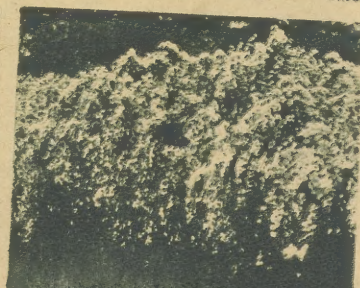

CARAGANA

The Drought Lover

AN-384 (Siberian Pea Tree)—One of the hardiest of all hedges—One drought, hot winds or grasshoppers can't stop this plant. Pea-green color, locust-like leaves. Very compact grower, gives you a tight hedge. Can be trimmed to any height from 1 ft. to 10 or higher. Plant 8-10 in. apart.

Size	Per 25 Ppd.	Per 50 Ppd.	Per 100 Ppd.
12-18 in.	\$1.79	\$3.39	\$6.50
18-24 in.	2.69	4.89	9.25

SPIREA VAN HOUTTEI

(Bridal Wreath)

Beautiful as Untrimmed Hedge

AN-387—This is an outstanding hedge plant. Extremely hardy, it will grow and live where other plants don't do well. Loaded with bloom in the spring—it makes a sight that's unforgettable. Good foliage all summer. Grows about 5 ft. high untrimmed, but may be trimmed if desired. Set 2½ ft. apart.

Size	Per 12 Ppd.	Per 25 Ppd.	Per 50 Ppd.	Per 100 Ppd.
1-1½ ft.	\$1.56	\$3.19	\$5.89	\$10.98
1½-2 ft.	2.46	4.89	9.25	17.50

GURNEY'S HYBRID TEA ROSES

GEORGE W. GURNEY

AN430—Named in honor of our President, George W. Gurney. A strong growing, very double, deep blood red rose. One of the finest red roses we have ever seen. We have a stock of sturdy two year old plants which will give satisfaction wherever tea roses can be planted. Bloom heavily the first year from June throughout to freezing. Flowers hold their color and shape for days. Has a deep rich fragrance. \$1.10 each; 3 for \$2.98, postpaid.

Best of the Choice

Here are the choice varieties of giant, 2-year old hybrid tea roses. All are extra-large plants guaranteed to bloom the first year planted. All are carefully graded to insure extra-heavy root system and strong canes. These are the ever-blooming type of hybrid tea that give you bloom all summer long.

GURNEY'S ROYAL ROSES BARGAIN COLLECTION

The aristocrats of the rose world assembled here all in a grand collection at a bargain price.

1—Etoile de Holland 1—Caledonia
1—Editor McFarland 1—Golden Ophelia
1—Chas. K. Douglas 1—Talisman
1—Edith Nellie Perkins

GURNEY'S LOW PRICES FOR TEA ROSES

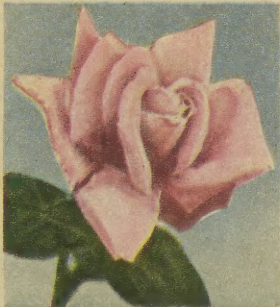

98c EACH; 3 FOR \$2.69; 6 FOR \$4.79; 10 FOR \$6.98 ALL PRICES POSTPAID

ETOILE DE HOLLAND

Best for Cutting

AN407—Ideal red for cutting. Fiery, crimson long pointed buds which open to full petaled flowers of striking brilliance. Make it the high spot of color in your rose bed. Delightful fragrance.

EDITOR McFARLAND

Most Blooms

AN415—Always has the most bloom. One of the finest of all pink roses. A new and better big double glowing-pink. Compact bushes are loaded with bloom through the whole summer.

ROSLYN

Yellow That Never Fades

AN431—A brilliant golden yellow. A strong grower, good clean, dark green foliage. Keeps its color well through the heat of the summer. One of the finest for cutting.

BETTY UPRICHARD

Strikingly Vivid

AN416—Flame pink with tones of coral and gold. A striking vivid rose which you will rave about. A well-known and extremely popular variety. Have something the neighbors don't.

Golden Ophelia

Like Greenhouse Rose

AN422—Long pointed buds of sunflower yellow. Many people like this best of all yellow roses for cutting. Very much like the cut flower roses that you buy at the greenhouse.

EDITH NELLIE PERKINS

Favorite Two-Tone

AN413—Outside orange, inside salmon flushed with pure gold. Buds long and pointed—a strong healthy grower that will be one of the most admired of all the roses in your garden.

GURNEY'S FAVORITE HALF DOZEN ROSES

1 each of Etoile de Holland, Editor McFarland, Golden Charm, Betty Uprichard, Golden Ophelia and Edith Nellie Perkins.

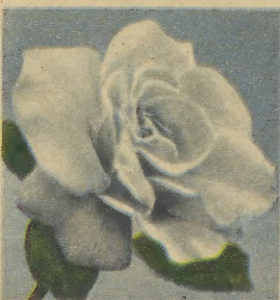

AN490X—6 ROSES AS PICTURED ABOVE, ALL FOR \$4.19, POSTPAID

RED RADIANCE

Fool Proof Bloomer

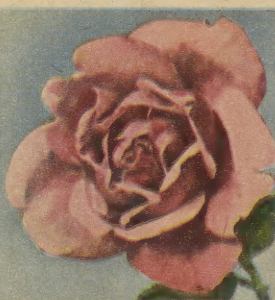

AN401—The fool proof red rose noted for hardiness and free blooming qualities. It will grow and produce hundreds of blooms in poor soil with little care. Never seems to rest.

WHITE RADIANCE

Purest White

AN402—The hardest white rose. Clearest pure white. Long pointed buds and big full flowers. Very free blooming and having the Radiance hardiness. Plant with Red Radiance.

PINK RADIANCE

Drought Resistant

AN400—The best to bloom, best to resist heat, drought and disease. Big, full brilliant rose pink, loaded down with blooms all summer.

BABY ROSES

Dwarf Polyanthus

Prices: 89c ea.; 3 for \$2.39; 6 for \$4.19, postpaid

These are the extremely hardy dwarf roses that are absolutely covered with blooms all summer. Very compact growing. To be used in rose beds, among shrubbery, grand for cemetery planting or other places where roses are needed that will stand a great deal of neglect and give a great deal of showing all through the summer.

AN444—GOLDEN SALMON—Bright orange-scarlet flowers in huge clusters. Growth vigorous and bushy. First really orange Polyanthus.

AN445—IDEAL—Dark velvety crimson blooms. Compact and bushy with glossy leathery leaves in shapely trusses. Blooms profusely.

AN442—CATHERINE ZIEMET—An indispensable rose for the garden or perennial border. Always covered with its dainty little double white flowers in great clusters over clean fine cut foliage.

AN450—CECIL BRUNNER (The Sweetheart Rose)—Small, exquisitely formed buds and flowers of light pink with a yellow base. Blooms all summer. Fine for massing and in the rose garden. Beautiful for corsages and buttonhole bouquets.

CLIMBING ROSES

The hardest and freest blooming climbers for your trellis or fence. Set 6 ft. apart. Will grow anywhere.

Prices: 89c each; 3 for \$2.39; 6 for \$4.19, postpaid

AN464—PAUL'S SCARLET—The most popular climber. Flowers big and full, of tea rose type, are so thick on the branches you can hardly see the foliage. Foliage is free from mildew and shiny rich green so you always have an attractive plant.

AN461—DOROTHY PERKINS—Big clusters of double pink flowers.

AN462—CRIMSON RAMBLER—The mildew proof Crimson Rambler. Great clusters of double bright red blossoms.

CLIMBING ROSE BARGAIN

1 each of Paul's Scarlet Climber, Dorothy Perkins and Crimson Rambler. All 3 for \$1.98, postpaid. AN495X.

HYBRID PERPETUAL ROSES

Prices: 89c ea.; 3 for \$2.39; 6 for \$4.19, postpaid

Super hardy roses and the best roses for the northern midwest. Double blooms, very hardy. Bloom all summer.

AN484—AMERICAN BEAUTY—Rose of romance. Large fragrant deep pink. No other rose will ever be better, known or liked.

AN483—F. K. DRUSCHKI—The perfect white rose, loaded in June and again in September.

AN485—GEN. JACK (Jacqueminot)—Deep glowing red. An old favorite still popular.

AN486—PAUL NEYRON—Largest of all rose blossoms; sometimes as large as bread and butter plates. Pink.

Gurney's Collection of Super-Hardy Hybrid Perpetual Roses—AN499X 1 Each of 4 Above—\$2.79, Postpaid

PAUL'S SCARLET

"Super Hardy" BROWNELL ROSES

A New Race of Hybrid Tea Roses

SO HARDY—We Guarantee Them to Live 1 Full Year—Despite Your Climate

These are the new BROWNELL ROSES you'll hear lots about—they're the new SUPER-HARDY hybrid teas that absolutely won't kill out even temperatures that dip to 25 degrees below zero (tops not covered were not injured). Think of that. Because they are so hardy, we GUARANTEE THEM UNCONDITIONALLY TO LIVE THROUGH ONE YEAR AND NOT TO WINTERKILL!

Best of all they are free blooming, long-stemmed, with flowers that last a long time. Give more bloom than ordinary hybrid teas.

Choice of Many Colors—Prices: \$1.75 ea.; 3 for \$5; \$18 doz., ppd.

V For Victory

AN960—(Patent No. 543). Pure yellow. Holds color. Very large and double.

PINK PRINCESS

AN961—(Patent No. 459). Holds foliage well. Buds red. Flowers deep pink.

BREAK O' DAY

AN962—More blooms than any Hybrid Tea. Large and very double. Light apricot.

Anne Vanderbilt

AN963—(Patent No. 504). Red buds opening to reddish orange flowers. Very large. Very fragrant. One of the best.

SPECIAL BROWNELL COLLECTION

AN969X—1 each of Anne Vanderbilt, Lily Pons, V for Victory and Break o' Day, \$6.50, postpaid.

CLIMBING BROWNELLS

AN966—FREDERICK S. PECK—(Patent No. 419). Grenadine red buds overlaid with orange.

AN967—GOLDEN GLOW—(Patent No. 263). Rated as world's best yellow climber. Blooms in clusters.

AN968—COPPER GLOW—The very much desired coppery orange shade.

Prices on Climbing Brownell Roses: \$1.75 ea., 3 for \$5, \$18 doz., ppd.

LILY PONS

AN964—(Patent No. 420). Hardest. Pearly white with yellow centers. Perfect form.

SHADES OF AUTUMN

AN965—(Patent No. 542). Inner side of petals rose red. Outer side glowing yellow.

PRESIDENT HOOVER

Easiest to Grow

AN409—The famous easy-to-grow greenhouse star rose. Think of gold, rich scarlet, yellow and orange all blended in one flower. Buds are like greenhouse roses, and stems are long.

GOLDEN DAWN

Shimmering Yellow

AN419—A vigorous yellow. Bright shining yellow. Very large and a beautiful tea rose shade. Foliage heavy and dark green on good growing bush. As colorful as the dawn.

CHAS. K. DOUGLAS

Never-Fade Red

AN432—A good dependable sturdy, bright red rose. Very free flowering and holds its color well in the summer heat. Rich green foliage, and a well shaped strong growing plant.

GURNEY'S HARDY RADIANCE ROSE COLLECTION

Of all the everblooming roses there is no doubt that the Radiance group is the best of all. Free blooming, large, fragrant, good growing and hardy.

AN493X—One each of Red, Pink and White Radiance—3 Roses in all for \$2.39, postpaid.

GURNEY'S MATCHLESS ROSE COLLECTION

We offer three roses such as you would find in a Florist bouquet. 3 pictured above.

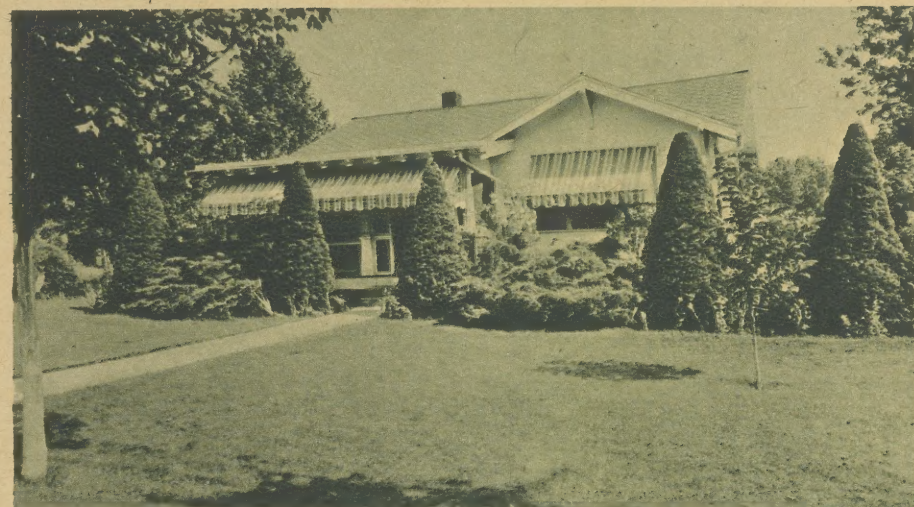

1 EACH OF PRES. HOOVER, GOLDEN DAWN AND CHAS. K. DOUGLAS

GURNEY'S LAWN SEED

Northern - Grown

IT'S EASY TO MAKE A LAWN THE GURNEY WAY

All of Gurney's lawn seeds and mixtures are of the highest quality. All fresh tested, new crop seed. Heavy seed means weed free seed—and that's what we use. Figure on 1 lb. of lawn seed for every 200 to 300 square ft.; White Dutch Clover 1 lb. to 1000 square ft.; and Buffalo Grass 1 lb. to 5000 square ft. Write for our complete Lawn Leaflet telling how you can have a beautiful, permanent, rich green lawn by using Gurney's Lawn Seed. The leaflet is FREE; ask for it.

Lowest Lawn Seed Prices in Years

SUNSHINE MIXTURE

More Kentucky Blue Grass, plenty of Red Top and Rye Grass for nurse crops and to give you a quick early lawn. Enriched with Red Fescue and White Dutch Clover to provide permanency and rich greenness to your lawn.

Early spring is a wonderful time to start a lawn. Later August and September is also a good time. Sow the seed evenly, roll thoroughly and water liberally.

1 lb. 69c; 3 lbs. \$1.95; 5 lbs. \$2.95; 10 lbs. \$5.90. All Postpaid.

Postpaid **59¢** in 10 lb. lots

CAPITAL MIXTURE

Best lawn mixture for the Northwest. Half Kentucky Blue Grass, balance White Clover, Rye Grass, Red Top and Crested Wheat. The best mixture known for places where rainfall is light and artificial watering impossible.

To be sure of a good stand of this seed, roll the ground firmly after the seed is planted.

1 lb., 65c; 3 lbs., \$1.79; 5 lbs., \$2.85; 10 lbs., \$5.45. All Prepaid.

Postpaid **54 1/2¢** in 10 lb. lots

NORTHERN KENTUCKY FINEST EXTRA HEAVY SEED BLUE GRASS

Everybody likes Bent Grass for Lawns. This is the true creeping variety and is hardier and more drought resistant than any other we know of. Bent Grass does require more care and more moisture than other types of lawn seed, but is well worth the cost and trouble because of its unusual beauty. 1 lb. plants 400 square ft.

1 lb., 69c; 3 lbs., \$1.95; 5 lbs., \$2.95; 10 lbs., \$5.90. All postpaid. 5 LB. BAG POSTPAID. \$2.95

NEW BENT GRASS

1 lb., \$1.25; 3 lbs., \$3.45; 5 lbs., \$5.50; 10 lbs., \$10.50. All prepaid.

PER LB. PREPAID. \$1.25

WHITE DUTCH CLOVER

This is the 3 and 4 leaved lawn clover. It is hot weather resistant; grows nicely and quickly from seed. It is also an excellent pasture grass; 5 lbs. per acre for pasture. Add 1 lb. to every 5 lbs. Blue Grass if you want to improve the beauty of your lawn, or sow alone in the lawn at the rate of 1 lb. per 1000 square ft. Roll it in.

1/4 lb., 55c; 1 lb., \$1.00; 3 lbs., \$2.80; 5 lbs., \$4.60; 10 lbs., \$8.95.

PER LB. POSTPAID. \$1.00

GURNEY'S SHADY SPOT LAWN MIXTURE

We all know it is hard to grow good lawn grass under trees and in the shade. Where the lawn is shaded half the time or more, Gurney's Shady Spot Lawn Mixture is the grass to use. Very similar to the famous Sunshine Mixture except it contains ample Fescue for the shady spots. Sow 1 lb. to every 200 square ft. Get it in early and roll thoroughly into the ground.

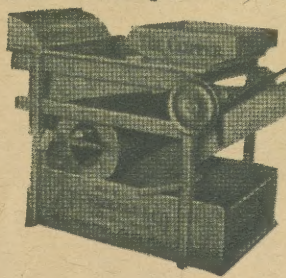

1 lb., 69c; 3 lbs., \$1.95; 5 lbs., \$2.95; 10 lbs., \$5.90. All prepaid. 3 LB. BAG PREPAID. \$1.95

ETOILE DE HOLLAND

ROSLYN

GEORGE W. GURNEY

EDITOR McFARLAND

GURNEY'S OWN ROSE COLLECTION

AN429X—We wanted something extra nice to put on the back cover of our catalog so we looked over all the roses and just picked out four that we would like here at Gurney's, if four were all we could have. Here they are: 1 George W. Gurney, 1 Editor McFarland, 1 Roslyn and 1 Etoile de Holland. We are going to make you a special offer of absolutely No. 1 grade, heavy rooted, 2 yr. old field-grown roses, 1 each of the 4 above pictured varieties for \$2.79, postpaid.

Clinton Hybrid TOMATO

This main crop, 75 day HYBRID has the vigor to really produce for you. Fruit firm, meaty, about 8 oz. in weight and of excellent quality. Plant dark green, with medium dense foliage. No. 408. Packet 25c, postpaid.

NANKING BUSH CHERRY

AN86—Here are bush cherries far superior to the regular well-known western bush cherry. The picture on this cover was taken from a photograph of bush cherries as they fruited last summer.

About the size of medium size Montmorency cherries and grand to eat. The berries as you see are bright red, the flesh is firm, tender and sweet. The pit is small. This fruit is of fine quality for delicious dessert, canned, jelly or jam, and the bushes are loaded down with fruit.

It makes a beautiful shapely bush that will do as an ornamental shrub in any position and in the spring is loaded with an abundance of white flowers, making it a true dual-purpose plant. A beautiful ornamental and a fine food bearer. Good strong plant. 70c each; 3 for \$2.19, postpaid.

Gurney's New Broadleaf ELM HYBRID

AN711—Combines good qualities of Chinese and American Elm. Here's America's coming tree—the one that combines the good points of American and Chinese Elm. It grows straight, with broadleaf like American Elm, and even FASTER

than Chinese Elm. Very hardy. Wonderful shade tree. Our supply is limited, so order early so you can get a few this year.

Prices: 2 to 3 ft., \$1.39, postpaid; 3 to 4 ft., \$1.98, postpaid; 4 to 5 ft., \$2.49, postpaid; 5 to 6 ft., \$2.89, exp. not prepaid; 6 to 8 ft., \$3.29, exp. not prepaid.

GURNEY'S CRABAPPLES

Fruit & Beauty

There is nothing like the beautiful crabs with their great banks of red, pink and white blooms in the early spring. The trees themselves are attractive during the summer, and the fruit is not only brilliant and showy on the tree but beloved by housewives for the preserves, butter and jelly they make.

AN0—RED FLESH CRAB—Homely name for such a beautiful tree and fruit, but that is the only name we know for it. We think it is the finest of all crab apples. Its blooms are a deep rich pink in the spring, almost a red. One of the showiest of all when in flower. The tree is a broad solid grower, not too high. Beautiful as an ornamental as well as a fruit tree, and the apples are shaped like little baby Delicious apples. Long and pointed, beautiful gleaming dark red with dark red fruit flesh right to the core, hence the name. Makes delicious jelly, just the color of port wine. Prices: 3 to 4 ft., 78c; 3 for \$2.19, postpaid. 4 to 6 ft., \$1.10 ea.; 3 for \$3.15, express not prepaid. 5 to 7 ft., \$1.30 ea., 3 for \$3.75, express not prepaid.

AN30—HOPA CRAB—A beautiful upright growing tree covered with rose colored flowers in April. Fruit red inside and out. Prices: 3 to 4 ft., 98c ea.; 3 for \$2.69, postpaid. 4 to 5 ft., \$1.25 ea.; 3 for \$3.59, express not prepaid.

AN16—WHITNEY CRAB—Our favorite crab apple. Delicious early crab apple when eaten fresh from the tree, and for pickling there is none to compare with Whitney. Large, sweet, juicy, yellow, with lively red stripes. Hardy, vigorous and a heavy cropper. Prices: 3 to 4 ft., 69c each; 3 for \$1.95; 5 for \$3.10, postpaid. 4 to 6 ft., 98c each; 3 for \$2.69; 5 for \$4.25, express not prepaid. 5 to 7 ft., \$1.20 each; 3 for \$3.59; 5 for \$5.79, express not prepaid.

GURNEY'S 1 EACH CRAB APPLE COLLECTION—AN129X—1 Whitney, 1 Hopa, and 1 Red Flesh Crab. All 3 big 4 to 6 ft. trees for only \$2.98, express not prepaid.
